Everybody's Doing It

The bank is universally used in the present age as a medium for conducting all business.

The young man starting up a peanut stand on the corner and the captain of industry conducting a large wholesale business both handle their business through the bank. All business that is done right is done through the bank, because it is the most efficient, practical, economical and beneficial way. This bank is prepared to take care of the small business or the large business and each receives the same careful attention. We invite all to take advantage of our facilities.

5 Per Cent Interest on Time Deposits.

ELECTRICAL HOUSEKEEPING

Eight hours is insufficient time for human hands to perform all the household tasks. However, it is possible to establish the eight hour day in the home by making use of the electrical hands that are offered to you in the form of the electric dishwasher, washing machine, ironing machine, vacuum sweeper and the many other labor-saving devices.

These untiring "household assistants" will do your work quickly and efficiently. Your home can be run systematically with these electrical hands for they never disappoint you or grow tired. Your time and energy can be devoted to the better things in life, when you keep house electrically. Glad to show you any time.

TWO STORES—Electric Store, Electric Building. —Electric Store, First and Alder Sts.

Planted for Keeps

These fine heavy-bearing trees were planted in 1897, every tree being set in a hole blasted with

DYNAMITE

(A Pacific Northwest Product)

The results are not only indicated by the thrifty appearance of the trees themselves but are shown every year by their heavy yield of fruit.

Tree planting with dynamite is successful because it—thoroughly loosens and shatters the sub-soil makes root penetration easy puts great stores of plant food in easy reach destroys fungus and nematode causes early maturity cuts down tree losses

and pays a heavy return on the investment through increased yields. Ask our dealer for Du Pont Dynamite.

Write for "Development of Logged-off Lands," which has complete details on tree planting and other farm work that can be done profitably with Du Pont Explosives.

Fordson

There is every reason in the world why every farmer should buy a Fordson Tractor.

In the claims we make for the Fordson Tractor as being the superior farm tractor, there is nothing of boasting. Our claims are based upon demonstrated facts. In every sensible test that has been made (and we don't believe in any jockeying or technical tests) but in the real common sense work on the farm—the work the tractor was intended to accomplish—we say, in all such tests the Fordson has stood head and shoulders above all competing tractors. And this is best proven in the fact that while there are about three hundred thousand farm tractors in use in the United States today, and while tractors have been sold to farmers for twenty years, and while the Fordson tractor has only been on the market two years, more than one-third of all the tractors in use in the United States are Fordson tractors.

The Fordson tractor has the necessary power. It is economical in operation. It is flexible in control and operation. It is simple in design, and it is sturdily built of the best iron and steel. It is the product of the genius of Henry Ford, and it wasn't placed on the market until Henry Ford had tested it, and tested it, and tested it, before he asked the farmers to buy it. It is no idle faith that in the Fordson tractor Henry Ford has given to mankind one of the greatest benefits which has ever come to civilized man.

Come in and let us tell you more than we can in an advertisement. Let us demonstrate to you. Let us put it to every test that you ask. The tractor is just as necessary for the farmer as water is in the house. Don't take any chances. Don't experiment. Supply your farm with the tractor of established value.
