Thursday afternoon, the third and fourth grades of Orient school with their teacher, Miss Elva Dolan, visited the Gresham library and enjoyed an hour learning from Miss Montague something of the ways to care for and read the books that are found there. Every pupil in the room, there are 31, was present and enjoyed the trip. Miss Montague told them some of the stories that she tells at the regular story hour and they enjoyed it immensely. Both Miss Dolan and Miss Montague appreciate the cooperation of the parents in planning for this library lesson and everyone is delighted that they were 100 per cent perfect in attendance. The Girl Reserves are planning an all day session at the Pleasant Home cemetery Saturday where they will plan to do their best toward cleaning and caring up the grounds preparatory for the Decoration Day exercises. A cordial invitation is extended to all who are interested in the project to join in and make the work complete. Time and strength will not permit the girls to do alone all that is necessary but they plan to go as far as they can and would be grateful for assistance of any kind. The Girl Reserves will be in charge of the services at the Methodist church Sunday morning and will give a program in honor of Mother's Day. Fordson FARM TRACTOR

The Fordson cuts the cost of preparing land almost to half of what it cost with horses. But even more important is the fact that the Fordson saves from thirty to fifty per cent of the farmer's time. And time saved—getting fields in shape to plant in the proper season; getting things done when they should be done—means money to the farmer. Besides it helps greatly in solving the labor problem. As ever, the machine way is proving more efficient, faster, easier, than the old hand way. In the factory, the machine increases production, saves labor—produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it helps the labor problem. The Fordson's first cost is low; and the after or operating cost is low. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the world. We are Fordson dealers. Not only do we sell Fordson tractors but we carry a stock of Fordson parts and employ Fordson mechanics to help the farmers get the best results from the Fordson. Let us demonstrate the Fordson on your own farm.
