

Fordson

A Fordson Tractor on the farm means more prosperity for the farmer. It doesn't make any difference how you spell that prosperity—whether it is in increased production; whether it is in the saving that comes from a machine over a horse or a mule; whether it comes in a release from the drudgery and all-day and all-night labor on the farm for both man and wife—because the Fordson answers all those problems to the satisfaction of the farmer.

It can't be otherwise. These are the days of progress, and power on the farm is the necessity. It is only a question of what kind of power the farmer is going to have, but no farmer, with the facts now before him can question the monetary advantage of machine power over the horse and mule-power.

We don't believe there is any question in the mind of any farmer as to the necessity for a Tractor, but he may have some doubts as to what make of Tractor, so that is the reason we are putting this advertisement in this paper to draw his attention to the Fordson Tractor. This is why we put the above arguments before him, and why we now invite him to come in to our place of business and view the Fordson Tractor. Let us show him what it has done. Let us prove to him its superiority over any other Tractor. It means more to him than it does to us. When we sell a Tractor, we make a small profit, but when he buys a Tractor he buys a power that's working for him every day in the year; that is, if he buys a Fordson—we can't speak for the other kinds.

LUSTED SCHOOL HAS HAD SUCCESSFUL YEAR

One of the most successful years in the history of the Lusted school closed on Friday, May 20, with a very enjoyable picnic. Owing to the inclemency of the weather, the picnic was held at the home of Rev. and Mrs. S. F. Pitts. The school was well represented with scholars, parents and friends, who greatly appreciated Mr. and Mrs. Pitts' kind hospitality.

The large barn had been cleared and cleaned, and swings, etc., put up; while out of doors in the grove numerous games and sports were indulged in. Mrs. S. P. Splawn won the ladies' sack race, while the booby prize went to Miss Grace Fieldhouse. A delicious lunch was served at noon and ice cream and cake in the afternoon. All departed tired, but happy yet almost regretting school had closed.

Lusted's board of directors and everyone interested in the school are exceedingly proud of the year's work, and appreciate the worthiness of the teachers, Miss Caroline Tallman and Miss Grace Fieldhouse. During the whole school year not one complaint was entered against them but many words of praise. They were ever faithful and willing and maintained the best of discipline and at all times put forth their best efforts for the betterment of the school.

Miss Tallman's friends regret to lose her, yet rejoice with her in her anticipation of entering Willamette University for a four-year's course in September. Miss Fieldhouse has been engaged as principal for next year and will teach the higher grades and Miss Bertha Spencer will teach the lower grades. Although Miss Spencer is a comparative stranger in the district, she is well known in Gresham and comes highly recommended.

The general scholarship average of the whole school was exceedingly good, and Lusted was justly proud to receive a standard certificate for 1920 and 1921. Having the honor of a standard school, needless to say, every effort will be put forth to maintain it in the future.

The Lusted Parent-Teacher association has done good work and not only has purchased many useful things for the school room and worked for the betterment of the school in general, but it has created a feeling of co-operation and good fellowship among the parents, and friends and has worked in perfect harmony with the directors. The association plans to meet regularly all summer for a social time only, but expects to get to work in earnest at the opening of the school year in September, and "let the good work go on" as they constantly see work to do. New officers will be elected in September. The next meeting will be held on Friday evening, June 10.

The entertainment and shadow social, given by the association on May 21, was well rendered and attended, and a success financially. The proceeds in full were sent to the foreign relief funds.

The association wishes to thank all those who gave their time and talent to make the evening's work a success.

All were happy to see Mrs. Geo. Lusted among them once more and to learn that Mr. Lusted is improving.

Everyone expressed themselves as having had a pleasant evening. Something of a like nature will be planned for the next lecture, the time of which will be announced later.

Geo. Hayden has found his black mare, who knowing that the farm work was coming on with a rush, took French leave Monday evening and started toward town. Neighbors seeing the animal running loose down the road tried to head her off but she got away. They then tried telephoning but could not get Hayden's on the line. By the time Mr. Hayden knew Tuesday morning that the animal was missing, she had had 12-hours' night traveling. She was located Thursday in Portland where she had been picked up early Tuesday morning and reported to the Oregon Humane society. It is supposed that she had thought to visit her old home at Albany.
