## LOCAL STUDENTS AT O. A. C. ARE PLEASED

Mildred Johnson and Minnie Danielson of the Powell Valley Home Making Club have returned home from the O. A. C. summer school and are enthusiastic in their praise of the school and their appreciation of the opportunity given them. In an interview they said:

"We left Portland Sunday afternoon for Albany, arriving there in the evening. We spent that night and part of the next day in Albany visiting friends. In the afternoon we went to Corvallis. All that day and in the evening delegates were coming from all parts of Oregon.

Multnomah County had the largest delegation at the O. A. C., which was 31. Klamath County was second having 29. We were justly proud of our county, as it was the largest.

"In the morning we had different classes for the different projects, as canning, poultry, sewing, home-making, etc. Some of the classes we attended were: canning, millinery, home nursing, care of the floor, care of the kitchen, food values, rugs, etc.

"From 1:30 to 2:30 p. m., we had general assembly. Here we gave our yells, and heard many interesting talks from different men and women in the state, connected with and interested in Club Work.

"After assembly we had the time to ourselves, or for gym work, or swimming. Every evening there was some interesting entertainment. We enjoyed ourselves very much, and hope to be State Winners and be able to attend again.

"We wish to express our thanks to A. C. Anderson, John Hulander and Mr. Danielson for their kindness in meeting us in Albany and taking us home in a machine. Also to E. H. McDonald and family for their kindness to us while spending a short time in Albany. Also to the Home Making Club of Powell Valley for making it possible for us to attend the Summer School.

the best

advertisement

Much advice has been given on "how, when, and what" to advertise. Reams of literature have been written on the best kind of advertisement. But there's one advertisement (and we have hundreds of this kind right here at home) that beats them all.

It is a SATISFIED STOCKHOLDER.

And may we repeat—we have hundreds of home stockholders. There is still an opportunity to acquire some shares of our preferred stock, either for cash or \$10 a share a month.

Ask some one who owns some or inquire of any of our employes—they are our salesmen.

Yours truly,

**The Philadelphia Guarantee Covers Insulation Too**

**INSULATION** is an essential part of a battery. Its possible failure is covered by the Philadelphia Two-Year Guarantee just as the failure of any other part.

Insulation rarely fails in the Philadelphia Diamond Grid Battery. Not only because of the inherent strength of the quarter-sawn hard wood separators, but also because of the sturdy, rigid, bridge-like construction of the Diamond Grid.
