An Epic of Womanhood

"The Sage Hen"

They Knew Not What They Did

Perhaps, had they known all, their hearts might have felt a spark of pity.

But, like the leper of old, they cast her out.

Once again the mother heart suffered.

And as her soul was seared so will your soul be lifted.

Here is drama like mighty music. Its tune is played on your feelings. Its melody is mother love. It's a surging symphony of sympathy.

A Drama of Any Mother—Your Mother—So Poignant, You'll See It Twice.

ALSO A SPARKLING COMEDY

Remember.—We will show this wonderful picture two days to give everyone an opportunity to enjoy one of the best stories in years.

Cutting Down The Risks Of Farming

A farmer can figure his costs almost to the last cent, but he is never certain of his profits until his crops are harvested and sold. There are large elements of risk in any one crop he can grow. But if he grows two crops instead of one, his risks are cut down immediately. There may be good profit in potatoes in a year when fruit yields the farmer a poor return. Or if the profits from both potatoes and fruit crops are slender, he may recoup from the sale of beef, pork, poultry or dairy products.

The First State Bank believes that through greater diversification the risks of farming in this community may be materially cut down. We offer our service to all those striving to place the wealth of this community on a surer basis.
