

GRESHAM OUTLOOK

Published every Tuesday and Friday at Gresham, Oregon, by the Outlook Publishing Co., H. L. St. Clair, Editor and Manager.

One year, \$1.50, six months, 85c, three months, 50c. Trial subscription, 25c. Combination rates with all the Portland Dailies. Weekly Oregonian, Weekly Journal and Oregon City Enterprise.

ADVERTISING Rates reasonable. Our representative will call. Official paper of the Town of Gresham. Official paper of the Town of Fairview.

Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

DARKNESS CAUSES DISGUST.

The financial report from the fair board is not yet available but it is hoped when it is given out it will show a substantial surplus over all expenses.

Deep regret, to the extent of inexpressible disgust, is felt over the interruption to the last great night of the exhibition caused by the failure, for the third time during the week, of the electric lights.

When sudden darkness fell upon the great show most of the people left in disgust. Not only so but the exhibitors and concessionaires began to tear down their booths with the light of candles or flash lights.

It is said there is no recourse. It is claimed it was purely accidental on the part of the electric company.

BOY SCOUTS GROWING.

The Boy Scout movement has made rapid growth in America in recent years.

There are said to be 17,700 troops now in this country, so that there is not a city of any size and hardly a country town without one to several troops.

The number of uniformed Boy Scouts in good standing is now well over 400,000.

Wherever you find a Boy Scout you also find a manly, reliable, self-reliant boy who is anxious to do good deeds in this world.

Boy Scouts graduate into American citizenship in a few short years, and fine citizens they are, a most heartening fact to patriots who think.

An Invitation to the Public.

By H. R. GEBHARDT, Pastor.

If you have not yet chosen your house of worship you are most cordially invited to make the Zion Evangelical church your home.

Services are held every Sunday morning at 10:30 o'clock; in the English language on the first, third and fifth Sundays and in the German language on the second and fourth Sundays of the month.

The best time to fill the silo is when the kernels of corn are dented and just before they begin to glaze. At this step the stalks still contain a great deal of moisture and it will not be necessary to add water to the ensilage if it is cut short, 4 inch is preferred and tramped evenly in the silo.

Local Exhibitors Win Prizes

Continued from page 1

Pears, 1/2 Box Fall Butter, 2d, W. B. Parsons. Beurrier Chargeau, 1st, Chester Mickelson.

PLATE DISPLAY Idaho, 1st, C. E. Holtgrieve; 2d, F. A. Gregory.

HONEY Strained honey, 1st, Roy Stone, Fairview; 2d, A. M. Schantlin, Troutdale.

HERBS AND MINERALS Medicinal herbs, 1st, H. Klinke, Portland. (To be continued.)

WILLARD NOW MAKES ALL-RUBBER BATTERY

An all-rubber storage battery—this is the latest achievement in the development of the electrical system on the modern motor car.

Announcement of this advance was made this week in Cleveland, by T. A. Willard, inventor and founder of the battery manufacturing company which bears his name.

In this improved battery, everything is of rubber excepting the plates or grids. The wooden battery box is done away with, and replaced by a hard-rubber case.

The new case being of rubber, it has been found practicable to mould it with seamless partitions, which eliminate the necessity for jars.

Between the plates, threaded rubber instead of wooden separators are used. This use of rubber, however, is not entirely new, having been started six years ago under Willard patents.

An all-rubber battery has been the goal of the industry for years. The biggest obstacle was the apparent impossibility of making practical rubber separators.

The use of thousands of tiny threads, which act as wicks, finally overcame this difficulty and paved the way for the all-rubber unit.

The moulded rubber case, besides eliminating the separate battery jar, resists decay and corrosion, in much greater degree than the wooden container, being unaffected by the acid solution or by water.

In a statement given out by him regarding his most recent contribution to the development of the storage battery, Mr. Willard said that it was the result of an effort to produce a unit that would give as nearly uninterrupted service as possible, and the various parts of which would have not only longer but also more equal life.

On August 24th a committee from the civic clubs of Portland held a meeting with Governor Olcott at which plans for preservation of timber along public highways was discussed.

The plan is to make this a state wide association in order that local problems may have the attention of all local committees.

The best time to fill the silo is when the kernels of corn are dented and just before they begin to glaze.

At this step the stalks still contain a great deal of moisture and it will not be necessary to add water to the ensilage if it is cut short, 4 inch is preferred and tramped evenly in the silo.

A writer in the Review of Reviews recently said regarding the Willamette valley that it was so fertile that if a circle with a 200-mile radius were described with Portland as its center it would be found that here is a country which in variety of products and climate is unsurpassed and capable of one day supporting the most dense white population on the continent. The Bank of Gresham pays 5 per cent interest on time deposits.—Ad.
