Plans for the winter's work will be taken up at the business meeting and each member should write on a slip of paper something the Reserve could or should do during the winter as well as any plan for a jollification which will add interest or pleasure. At the October 10 meeting each girl who is a member may bring others who are not.

Henry Eri and R. E. Jarl returned Monday from their southern Oregon hunting trip with a deer each to their credit as hunters. The hunters, many in number, pack out from Tiller for a distance of 18 miles. No doubt the red caps and shirts which hunters are compelled to wear avoid many accidents.

Mr. and Mrs. Max Kligel, Mrs. Kersch and B. Nelson attended the state fair at Salem last Thursday.

A neat new woodshed has been built for the school—a much needed improvement. A dozen new single seats have also been installed in the primary room to take the place of the old double seats.

CEDAR AND VICTORY

Walter Edwin Armstrong, who for a few days was seriously ill with pneumonia, is recovering. Mr. Armstrong has also been suffering from a severe cold on his lungs.

Lawrence Douthit was one of the willing and able helpers who assisted the working force at the Pleasant Home M. E. church during the recent shingling party.

BUSINESS COLLEGE IS RE-ORGANIZED

It will be of interest to readers of the Outlook to know that Holmes Business College, Portland's oldest and one of the best known schools on the Pacific Coast, has recently changed hands. The new owners are C. V. Crumley, president of Crumley Business College, Tacoma, Washington, and Charles F. Walker, formerly secretary of the International Business College of Indiana.

Mr. Crumley will be president of the Portland school also, and the name will be changed to Crumley Business College. For some time to come, Mr. Crumley will devote practically his entire time to the Portland school, establishing and placing it on the same plane of efficiency and high-class work that his Tacoma school already enjoys. He will be actively in charge of the stenographic and secretarial departments, and in his work will use the same teaching methods that won for him, the famous Gregg Gold Medal as a shorthand teacher.

Mr. Walker will be secretary of the new school, and will have charge of the bookkeeping and accounting departments. He was formerly president and organizer of the Indiana State Accountants' association, and brings to the school, a valuable experience in accounting and the training of young people for this work.

"Young people want and are entitled to the best business education we can give them," says Mr. Crumley. "We have built up a wonderful institution in Tacoma on a firm basis of 'He Profits Most Who Serves Best.' In connection with our Tacoma school, we conduct a large employment bureau, free to all who are qualified. We expect to make this service a feature in our other schools as rapidly as they are established. Broad-minded, thorough, business men and women instructors are employed in every department, and the student is sent out a booster for the institution that can give him an education so cheaply that the entire cost of it can be earned back in a month or two after he is qualified.

"The location of the school will be the same as before—fifth floor Fledner Building, corner Tenth and Washington, Portland. The entire school has been beautifully redecorated, mossy green carpets laid, the old courses of study completely revised, and special secretarial and accounting courses added for those who have had high school training. We are getting out a beautiful catalog which is going to be sent out free to all who request it, and we expect this coming year to be one of the best in the history of the school."
