Corn in many instances was checked by early frost. This will probably result in short seed supply for next year, hence farmers should endeavor to save their own whenever possible. When the corn is still in the field select ears from healthy stalks in full hill where the stand is normal. No ears should be taken from fallen or leaning stalks as these may have root rot. Pick well matured ears having fine, deep kernels that are medium rough. All ears should be dried as promptly as possible.—O. A. C. Experiment station.

CHRISTMAS SEAL SALES AID IN PUBLIC HEALTH

Representatives of the Oregon Tuberculosis association sold last year Christmas seals to the amount of \$38,000 and with the money were able to accomplish much benefit along public health lines.

The Outlook is in receipt of a condensed statement of the work brought about which shows that the organization has been able to do the following:

Demonstrate county public health nursing in five counties and organize county public health associations.

Conduct tuberculosis clinics in Corvallis, La Grande, Enterprise, Astoria, and St. Helens, three child welfare clinics in Yamhill county, and assist Grants Pass and Baker in nutritional work in city schools.

Make case finding tuberculosis surveys in Tillamook, Lincoln, Benton, Columbia, Clatsop, Multnomah, and Klamath counties.

Cooperate with, and financially assist the University of Oregon in conducting a course in public health nursing.

Finance entirely the Oregon Modern Health Crusade work among 32,000 children.

Pay salaries of two nurses of the Visiting Nurse association.

Pay salaries of the nurse and matron of the Mills Open Air school, and furnish all the food served there.

Conduct an institute for health workers.

Circulate the largest collection of health posters in the state. Conduct poster contest in schools.

Cooperate with United States Public Health Service and State Bureau of Nursing in the care of tuberculous ex-soldiers.

Disseminate information concerning prevention and control of disease through literature, publicity, speakers, health plays, and pageants.

Keep complete index and register of tuberculosis case and death reports and follow up these through nursing and advisory visits.

Subsidize school nursing in four Portland schools.

Give \$250 towards getting an X-ray machine for the Portland dispensary.

Make demonstrations of school nursing throughout the state.

Card of Thanks.

We wish to thank the many friends and neighbors who were so kind in helping us during the illness and death of our beloved husband and father; also for the many beautiful flowers.

Mrs. Amanda Byron, Mr. and Mrs. A. J. Ault and Family, Mr. and Mrs. A. J. Crose.

Six to One.

The Boston Herald, which has been making an investigation of conditions existing on railroads, finds that due to union rules and working agreements there are instances where six men are doing work formerly easily done by one.

It calls attention to the changing of a locomotive nozzle which was formerly the work of one man and now is done by a boilermaker and his helper to open the door; a pipe-fitter and his helper to remove the pipe; a machinist and his helper to change the nozzle.

Probably they will next demand someone to blanket them to keep from catching cold while standing around, and of course he too will need a helper.

Verily there is a day of reckoning coming for this sort of pocket-picking. No country on earth can hope to effect industrial progress by apportioning the work of one man among six, and no people can long escape adversity who use but one-sixth of their industrial man-power.

Prosperity for each and all depends on a full day's work for a fair day's pay. More is not expected. Less will not be tolerated.

THE KIND OF FUNDS TO TAKE ON YOUR TRIP

SOME tourists take their funds in forms of credit that make trouble for them by delays that occur in obtaining cash, by the time it takes to have the credits paid and by the fact that they can be paid only during banking hours and only at banks.

You can avoid such troubles by taking the safest, handiest form of travel funds—"A.B.A." Cheques; that is, the Cheques which are recommended by the American Bankers Association, composed of 20,000 of the leading banks of the United States and Canada.

We are a member of this great association of bankers and have been authorized to sell
