Overcoats built from Virgin Wool--

Nothing will take the place of pure, virgin wool in maintaining the shape and service of a garment.

"Oregon City" start to "build" their overcoats when they select the fine wools on the ranges of the West. They cleanse them with natural soft water, which gives to the wool that lustre and strength.

Then they dye, spin and weave the wonderful all-wool overcoatings for which Oregon City won world awards as far back as the Centennial, 1876.

A master designer shapes the fabrics into smart, up-to-date overcoats for men and young men. They're tailored in a sunny plant in the happy atmosphere of the West

We can show you these new overcoats made complete by Jacobs'-Oregon City, worn from New York's "Broadway" to San Francisco's "Market Street." Look for the label. It assures you greater value and service in your Fall and Winter overcoat.
