Official paper of the Town of Gresham Official paper of the Town of Fairview

Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

"I AM YOUR HOME TOWN."

The American Legion Weekly has an article on the front page in connection with a picture of a beautiful old home of the type of perhaps 20 years ago. This little article contains a call for loyalty to your home town. The sentiment imbibed in it should call forth our best efforts and highest ambitions to make our town what we would really like it to be. Read this article and see if you can find the rich treasures hidden therein.

Make of me what you will—I shall reflect you as clearly as a mirror throws back a candle beam.

If I am pleasing to the eye of the stranger within my gates; if I am such a sight as, having seen me, he will remember me all his days as a thing of beauty, the credit is yours.

Ambition and opportunity call some of my sons and daughters to high tasks and mighty privileges, to my greater honor and to my good repute in far places, but it is not chiefly these who are my strength. My strength is in those who remain, who are content with what they can offer me. It was the greatest of all Romans who said: "Better be first in a little Iberian village than be second in Rome."

I am more than wood and brick and stone, more even than flesh and blood—I am the composite soul of all who call me Home.

FARMER'S DIRECTORIES.

The third farmers' directory has just been printed by the Outlook printing department, this last covering Wasco and Hood River counties. The others printed here have been for Marion and Polk counties and Yamhill county. It is expected others will follow until nearly the whole state has been covered. Multnomah and Clackamas county directories had previously been printed elsewhere.

They are found to be very useful. In fact, they fill a long felt want. They not only furnish a list of farmers in a given county but help to bring the producer and buyer into closer touch and help to unify the farmers and organizations of a county. They also help the country merchant because they emphasize the advantage to the farmers of buying at home and building up their local institutions.

Elsewhere in this issue is reprinted a page from the directories urging home buying. The sentiment is so good and the argument so clear and convincing that the Outlook asked permission to use it.

It's a mystery to everybody except the banker how some men get the money they spend, but he knows they don't have it.

A mother with her first baby does not have much in the way of ignorance on the man with his first automobile.

Styles in fake stock certificates don't seem to change much.

DO YOUR BUYING AT HOME

To change the application of a now famous sentence of Abraham Lincoln, when we buy away from home we get the goods and lose the money; when we buy at home we have both the goods and the money.

The man who buys from a mail order house without first giving local houses a chance to talk business with him on the same articles does the merchant, the community, his family and himself a serious harm. Did that buyer ever stop to ask himself questions like these?

Does that mail order house help support your home schools? Does that mail order house help support your county or city government through taxes?

Does that mail order house ever help build a church or Y. M. C. A. building in your county?

Did that mail order house ever subscribe toward your entertainments, your Fourth of July celebration, your fair?

Does that mail order house ever extend you credit to tide you over a "tight" time?

Does that mail order house help make your newspapers possible?

Did that mail order house ever spend one cent toward making yours a bigger and better town? Have you ever asked the mail order house for credit?

These and a hundred kindred questions must be answered in the negative.

The patron of mail order houses is penny wise and pound foolish. He sacrifices a larger community good, which means greater good for himself, for the petty immediate gain of a few cents.

AN UNPatriotic SACRIFICE

To sacrifice our neighborhood—the man who helps the town with its taxes, with its public business, with its myriad activities for neighborly righteousness—to sacrifice that man and his business for the mere sake of saving a dollar on the purchase of a hundred dollars' worth of goods is just as unpatriotic as it is to spit at the flag.

For the flag, if it means anything means the golden rule; the flag means friendly burden bearing; it means mutual help in trouble; it means standing together against common foes.

THE MOTTO OF THE MAIL ORDER HOUSE

The motto of the mail order house is every man for himself and the devil take the hindmost—and you bet the devil will.

THE ULTIMATE RESULT

That spirit never fails to work; and the weak man, the unprotected man, the man alone—the man of the farm, at the end of the fact, when his farm market is gone, when his town is gone, when the spirit of selfishness and greed has left this country cold and hard and mean and neighborless—the farmer will be the hindmost.

WALTER'S WIGWAG.

St. Petersburg, Florida comes to the front with a press report stating that the Purity League has requested the mayor to appoint a bathing suit inspector. The communication further states the purpose of the League is to "protect married men from the wiles of the 'sea' vamp."

Perhaps they mean viles. It is about time the world be made safe for married men. We don't know of a better place to start than Florida. It isn't far over to Havana where the poor wretch can put his foot on a brass rail and order without winking at the prescription clerk. Man's limitation seem to be more cramped every year. About the only thing left now is playing hide-and-go-seek with the speed cops. It may be some time before they get that idea here, fellows, so continue your downward course without fear of interruption. The dispatch did not make it clear when inspection of bathing suits should take place. Whether before using, during the time they were inhabited, or after the hussy had accomplished her hellish designs.

Cheer up! There are a lot of other places you can go.

Luxury Taxes Repealed.

Many of the little tax exactions that have become so familiar since the United States went to war, almost five years ago, were removed with the beginning of the new year. These so called luxury taxes though mostly small, amounted to the aggregate sum of \$425,000,000. Furs, silk shirts, fancy vest coats, knit goods and expensive lingerie can now be indulged in to the full, provided one has the price, without paying tribute to Uncle Sam. Soft drinks, chewing gum, perfumery and cosmetics may be purchased tax free. So may baseball bats, golf clubs and other utensils used in sports. Peruna addicts can now purchase their favorite tippie "net" and all other patent medicines are likewise exempt from the sales tax. Carpets, rugs, traveling bags, pocketbooks and parlor lamps are on the free list. Most important is the elimination of transportation tax. This formerly was three per cent on freight charges, five per cent on express shipments and eight per cent on railroad and Pullman tickets. These charges yielded in revenue about \$138,000,000. There is no more tax on insurance of any kind. Tax on theater tickets is retained evidently on the theory that people who could afford amusement could pay the pipper impersonated by Uncle Sam. The new exemptions are appreciated in many and are the first long step taken back toward normal peace conditions.

The State and Industries.

The professional politician is not dead nor reformed. His activities are still cast on the side of industrial destructivism. He does not seem to realize that he is a luxury only to be supported permanently by a continually prosperous commonwealth. Colleges are even establishing departments to invent and promote new forms of taxation and to hasten multiplication of legislation as though business were not already legislated and regulated to a state where locomotor ataxia and St. Vitus dance would be comparatively athletic qualifications. In one little factory in a western state where one man manufactures fish-knives, seventeen deputies and inspectors called inside of three months on state and federal tours of paternalistic supervision, collecting fees and requiring reports, all riding in publicly paid motorcars and burning gas paid for by the taxpayers and the industries.

You've noticed that a woman who is interested in a lot of "forward movements," never is backward about talking of them.

When the matting begins to look badly soiled, scrub it with hot soapy water and then rinse it thoroughly by drawing it through a bath of cold water or hanging it on the line and brushing it well with cold water. Allow to remain hanging and dry.

Easy Pressing An easy way to take the wrinkles out of a cloth skirt is to hang it up in the bathroom and turn on the hot water, closing the door so that the room fills with steam. Allowed to remain hanging a time the wrinkles disappear. Such treatment is good for crepe materials to which a hot iron could not be applied.

Removing Grease Candle grease can be removed from carpet by placing a blotter over the spot and passing a hot iron over the blotter.

WHAT CAUSES GAS ON THE STOMACH It is caused by fermenting, sour waste matter in the intestines. This old, foul matter should be thoroughly cleaned out with simple buckthorn bark, glycerine, etc., as mixed in Adler-ika. This acts on BOTH upper and lower bowel, removing old accumulated matter you never thought was in your system. Adler-ika relieves ANY CASE of gas on the stomach. EXCELLENT for sour stomach and chronic constipation. Guards against appendicitis. Gresham Drug Co.—Adv.

Real Service.

The average American is used to quick action.

If central fails to say "Number" within five seconds after the telephone receiver is removed we complain about slow service.

As is often the case, we fail to appreciate advantages close at home.

American travelers abroad find out what slow telephone service really means. Over the government telephone lines in European countries it is sometimes necessary to make an application to talk several hours ahead of time and then wait your turn for your call to be placed.

In addition, on busy circuits conversations are often limited to from three to six minutes. At the end of that time, your connection will be cut and you must make a new application and wait several hours more.

This is government service in Europe. How long would we tolerate such a condition from our private companies in America.

Private initiative and enterprise which depend on public good will for support always render better service than government monopoly which is unaffected one way or the other by inconvenience or expense of customers.

Near East Relief News Service. We have just arranged for a series of stories by J. J. Handsaker, State Director of the Near East Relief who spent the summer in the Near East. He met there a number of Oregonians, and will furnish accounts of the men and women who are at work in the Near East, and of what they are accomplishing.

Among the items which we will present to our readers soon are accounts of the doings of Mr. and Mrs. Sam Newman. Mrs. Newman is a graduate of O. A. C. of 1920 and is now in charge of an orphanage of 2,000 children, while her husband is running a 20,000 acre farm. Mrs. Amy Burt of Bend secured the safety of a thousand children when they were threatened by death. Miss Margaret (Dolly) Hinman and Miss Nellie Cole of Forest Grove, Dr. and Mrs. G. R. Gannaway of Medford, Miss Margaret Reid of Portland, who was recently decorated by Governor Olcott for heroic service in the Near East, and Miss Frances Gage of Portland are among those whose stories of quiet heroism will have much interest for all our readers.
