C. G. Schneider, of Gresham, spoke at the Methodist and Baptist churches Sunday morning on behalf of the Children's Farm Home, which is being sponsored by the Oregon W. C. T. U. Mrs. Martin Lennartz and Mrs. B. C. Altman are in charge of the work of raising funds to assist in the purchase of the farm. Their plans will be announced soon.

We Repair Batteries

But we would a great deal rather help you keep your battery in such condition that it will give you the most miles of uninterrupted service per dollar.

Your battery may need recharging. It may need a little distilled water to keep the battery solution over the tops of the plates. It may need to have the connections tightened up. Simple things—but if they're not taken care of you lose battery usefulness and battery life.

There is a great deal we can do in the way of making your battery last longer and serve better. Come in and let us show you. You're welcome here whether you have a Willard Battery on your car or not.

OF INTEREST TO FARMERS

There are many good reasons why a farmer should have a bank account, among them are these five:

1. Because the farmer helps create wealth and the banker conserves it.
2. Because the farmer often needs money or credit to supplement his own efforts.
3. Because the farmer's money in the bank is not only safe, but is helping the community.
4. Because the farmer, being in reality a business man, should be businesslike in his methods.
5. Because by being a bank customer, the farmer is entitled to the advice, information and cooperation that every good banker can give.
