

GRESHAM OUTLOOK

Published every Tuesday and Friday at Gresham, Oregon, by the Outlook Publishing Co., H. L. St. Clair, Editor and Manager.

One year, \$1.50, six months, 85c, three months, 50c. Combination rates with all the Portland Dailies—Weekly Oregonian, Weekly Journal and Oregon City Enterprise.

ADVERTISING Rates reasonable—Our representative will call.

Official paper of the Town of Gresham Official paper of the Town of Fairview Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

GOVERNMENT EXPENSES.

Every resident of the United States will contribute \$1.20 this year for the building of good roads by the national government and it must be remembered that for every dollar spent by Washington the states where the money is spent must spend an equal amount. This \$2.40 per person will be the largest outlay for good roads in any single year for more than twenty years. The amount has been fixed by the budget, and it is regarded as none too high. Good roads mean the extension and the development of business, particularly for the farmer, who, after all, is the most important factor in American life. Financially, good roads cost the people a good deal more than their President costs. The expense of the President, embracing his salary and expenses, costs each resident two and one-half mills per year, so the head of the nation is not an expensive luxury ever—that is, directly. The figures show that for the whole national expenditures the people must contribute each \$33.39 for the year.

This is the first time the people have really been able to get the figures for the national expenditures down from the clouds and consider them in terms of the home. For example, we are told the national debt has been reduced \$1,500,000,000, and that it now stands about \$23,000,000,000. Baffling figures of this kind are hard to understand. The only real way for the people to get an intelligent grasp on the nation's business affairs is to get the figures down to the unit. Pensions will cost the people \$6.73 each. The Navy will take more than the Army, the cost of the Navy being \$4.11 and the Army \$3.52.

The cost of Congress is only 17c, yet there are some people who regard it as expensive even so.

PUT "PAT" ACROSS.

There are four good men in the field for congressman from this third district, comprising all of Multnomah county.

The present incumbent is C. N. McArthur, "Pat" as his familiar friends call him. With no reflection on the other good and capable men running for the most desirable and important office at the disposal of the electors, the Outlook feels clear in supporting and recommending the re-election of McArthur, and for these reasons.

He is absolutely trustworthy, and while you may not always agree with him, you always know where to find him.

He is true and tried and above reproach as a man.

He is capable and has risen by his persistence and native ability to a position of prominence among the nation's lawmakers. He already holds important committee positions and can accomplish a great deal for Oregon and Multnomah county.

He is young, alert and active. Why swap him for an untried man?

The ballot represents a solemn obligation.

PLEASANT HOME

On next Sunday at the Baptist church the Sunday school will meet as usual at 10 o'clock. At 7 in the evening Pastor Barry will lead the B. Y. P. U., the theme being "The Daily Vacation Bible School." The sermon at 8 o'clock will be in honor of Mothers' Day. Everyone will wear the flower appropriate.

The plans for the Mothers' Day services at the Methodist church have been changed to conform with the plans for "Go-to-church Sunday" and the two events will be observed together on Sunday, May 28. The annual program of the Girl Reserves will be given at the later date. The services for next Sunday are announced as follows: Sunday school at 10, preaching by the pastor, the Rev. Earl B. Cotton, at 11 on the subject "Putting the Greatest Things Into First Place." The Bible study hour at 8 o'clock will be led by the pastor. The subject is "The First King of Judah."

POWELL VALLEY

A meeting will be held at the Powell Valley schoolhouse on May 17, Wednesday at 8 o'clock p. m., for the purpose of presenting estimate of cost of putting in the Powell Valley water system No. 2.

Service will be held Sunday morning in the Powell Valley Mission church. The male quartet will sing. Immediately after this service the communion service will be held. In the evening, beginning at 8 o'clock, service will be held in the English language. The subject will be "What is the mark of a living faith?" The Ladies' Aid of the Lutheran church will hold a festival at the church on Saturday evening, May 13. A fine program of instrumental and vocal music and speaking is being prepared. Refreshments of coffee and cake will be served.

TO OUR DEMOCRATIC FRIENDS.

The Outlook presents in this issue the picture of Harvey G. Starkweather with a brief outline of his career. Republicans will not have the privilege of voting for him in the primaries because he is a democrat. That may not be his fault but there is every indication that he is a fine man and the right man for governor if the voters should prefer a democrat for governor.

Mr. Starkweather is a candidate for governor on the democratic ticket and is highly recommended.

Unless there is evidence to the contrary, let us assume the candidates are acting in good faith. They must if elected represent us in positions of public trust. It is then the duty of the voter to weigh carefully their abilities, purposes and claims.

Voters should be informed on measures and nominees.

Voters should read and be informed. Before going to the polls.

Phone want ads. to 1561.

POTATO CLUB BOYS LEARN TO TREAT SEED

The potato club boys met last Friday afternoon at the home of Louis Yunker who lives south of Hogan station in the Hillview school district. S. B. Hall had charge of a demonstration in which he treated the club members' potatoes. The club had bought five sacks of certified seed from Guy Robertson and had left them at the Yunker home. Several other boys brought in their potatoes also.

A number of interested neighbors dropped in during the meeting. One man became so interested in the work that he said he would like to attend the next meeting of the potato club. Each meeting is held for the purpose of instructing the boys in the best and most profitable way of growing and caring for potatoes. Everyone who cares to come are invited to meet with the boys.

The Wilkes potato club will meet at the home of S. B. Hall some time in the near future and treat their seed potatoes. Mrs. Hall is the leader of this club.

**Portland and Vicinity are Growing Fast
but the Gas Business Still Faster**

In 1910 we served 20,667 Customers
In 1915 . . . 43,480
today . . . 69,838

Growth in Househeating even more striking

Piston clearances /
4/1000 of an inch when cold
1/1000 of an inch under fire

An automobile engine having a 4" bore will have when cold a clearance between its pistons and cylinders of approximately 4/1000 of an inch. When the same engine has been heated to operating temperature, this clearance will have decreased 75%, or to 1/1000 of an inch.

Likewise, a main crankshaft bearing having a clearance of about 1 1/2/1000 of an inch when cold, will show a decrease in this clearance at operating temperature to less than 1/2/1000 of an inch.

All oils lose viscosity, that is, they become lighter in body when subjected to the heat of engine operation.

An analysis of Zerolene shows that the difference in its body at the various engine temperatures, from cold to operating temperature, follow in close relation the decrease in bearing clearances.

The right body at all operating temperatures

For this reason Zerolene oils have at all engine temperatures exactly the required body to splash and flow freely into the fast-moving, small-clearance bearings to provide an adequate film of lubricant.

Because of their "oiliness," Zerolene oils cling to bearing surfaces, and at the same time offer in themselves a minimum of resistance to the engine power going to the driving wheels. For this reason they give perfect lubrication and permit the development of the maximum power, speed and gasoline mileage of the car.
