GIRLS' POLYTECHNIC GRADUATES MANY GIRLS

Mr. and Mrs. J. Jonas with a large number of friends attended the graduating exercises of their daughter, Margaret, from the Girls' polytechnic school at Portland Thursday evening, June 15. She is the first student from Fairview to graduate from this school.

There was a class of 79 girls, the largest ever graduated from this school.

The girls wore colored organdie dresses and each girl carried a shower bouquet of sweet peas and rose buds. The girls designed and made their own dresses, which were beautifully made, costing from \$4 to \$9.

Rabbi Jonah B. Wise delivered an excellent address and Frank Schull, a member of the board of education, presented the diplomas.

FAIRVIEW

The Grange social which was to have been held this evening has been postponed on account of the Rose Festival. It will be held on Friday evening, June 30. There is some mystery about the plans and much interest. It has been given out that the affair is to be a camping out party, indoors however, and in order to make it more realistic some genuine camping out scenes will be thrown on the screen by Forest Ranger Albert Weisdanger.

PLEASANT HOME

First-hand knowledge of conditions in southern Russia and China will be given by W. A. Sellwood at the Pleasant Home Methodist church Sunday morning at 11 o'clock. Mr. Sellwood was a Y. M. C. A. secretary for several years but is now working with the Near East Relief committee. His talk will be based on a personal trip made through Russia and China during the days of need.

Thinking adults are invited to attend the Sunday school session at 10 o'clock. G. H. Bickford has been elected as teacher of the adult class and is now leading in the discussion of the lesson. You are cordially invited to all services at this "Pleasant Church Home."

The workers are to bring bread and butter sandwiches and the ladies will furnish weenies and coffee. All are asked to heed the warning: "He who will not work may not eat."

The mid-week service at the Baptist church is proving a real live wire in the community. Thirty-one were present on Thursday night of this week, in spite of the busy season. Pastor Barry has charge. On Sunday the hours of services are as follows: Bible school at 10 o'clock, B. Y. P. U. at 8 p. m., preaching at 8:30. The pastor's theme next Sunday evening will be "The Greatest Privilege Granted to Any Man."

KELSO

While the audience that assembled Saturday evening at the schoolhouse to hear the Enna concert was not quite so large as usual, it was a most appreciative one. Dr. Enna played mostly his own compositions. Very interesting was a group of compositions for children. He spoke of the importance of making the music interesting to children, also of creating a love of beautiful music to the exclusion of jazz. His last number consisted of a group of three beautiful melodies, one originating in his native country, Denmark, one in Sweden and the third, an American composition. Mrs. Herbert G. Reed also entertained the audience with several humorous readings which were enthusiastically received. Dr. Enna also accompanied the audience in singing old favorite songs. After the program refreshments were sold, the proceeds amounting to \$12.40. Dr. Enna, who was accompanied by Mrs. Enna and daughter Ellen, will leave Portland shortly for a circuit tour of California.

At the annual school meeting on Monday, Mrs. N. C. Peterson was elected director to succeed Max Kilgel and P. C. Spooner was re-elected clerk.

Mrs. Baumbach will teach the primary grades again next year but as yet no principal has been secured.

The Misses Elizabeth, Margaret and Angela Canning are at home for their summer vacation.

Mr. and Mrs. Victor Fosberg and children, David Fosberg and Mr. and Mrs. Carlson, all of Deep Creek attended the Enna concert Saturday evening.

A TRUE STORY

On June 10, 1921, a merchant from a small nearby town purchased from Raker and Son a Ford touring car, paying \$649.58 for same; making a cash payment of \$284.58 and allowing the balance of \$365.00 to be paid off in monthly payments.

To protect this balance an insurance policy of \$400 was secured from the Bank of Gresham in the United States Fire Insurance Co.

In February he lost by theft his spare tire, spot light and motometer; the insurance company paid him \$20.00 to cover this loss.

On May 29 he lost his car by fire and on June 16 a check for \$380.00 was handed him, which was the balance due him on his insurance policy.

What about carbon?

Chemical analysis shows that all lubricating oils are composed of about 85% carbon and 15% hydrogen in chemical combination.

All lubricating oils form carbon when burned in the combustion chamber. The important thing to determine is the amount and kind of carbon formed by the oil.

Some oils form a good deal of carbon, some a small amount; some produce hard, flinty carbon which will cause a great deal of trouble; others produce a soft, flaky carbon that will do no damage.

The important factors determining the amount and kind of carbon formed by a lubricating oil are the crude from which it is made, the process and care of refining it, its purity and stability.

Advantages of Crude and Vacuum Refining

Great care is exercised in selecting the crudes from which Zerolene is made, to secure only those which contain the most desirable lubricating values and at the same time as little as possible, if any, of the undesirable hydrocarbons such as wax and asphaltum. In selecting crudes for Zerolene, the Standard Oil Company has the advantage of its own large production of practically every type of crude oil. For this reason the company is not compelled to use any particular crude because it happens to be the only one available.

These selected crudes, carefully refined by our own patented, high-vacuum process, produce in Zerolene, oils of the highest lubricating value, which, when burned in the combustion chamber, develop a very small amount of carbon of a soft, flaky nature, which can do no harm and usually blows out entirely with the exhaust.
