

WILL ADD MILL TO WOODWORK PLANT

Improvements are now under way at the plant of the Zweibel Manufacturing company. A building is now being erected on the north side of the plant which will include a dry-kiln, a steam room and a saw-mill. This addition to the factory was found to be a necessity when it was discovered to be impossible to secure dry lumber for use in the wood working plant. A block of the capitalized stock of the company was sold for \$8,500 to raise funds for the erection of the new building.

The construction work is now under way. W. N. Sharp of Portland has charge of the work. Mr. Sharp for many years has been affiliated with large lumber interests in the south. He is an experienced saw-mill man. He has recently been connected with Portland lumber industries but sold out his holdings when he became connected with the Zweibel plant. He is now one of the larger stockholders in the Gresham company. Mr. Sharp will have complete charge of the cut-up plant.

The dry-kiln is 20x80 and has three thicknesses of boards on the sides to hold the heat. The building is to be heated by steam. The steam pipes will be placed underneath the ground floor and also on the sides. An open platform is to be built on the north end of the dry-kiln with two double tracks to run cars of lumber on. The steam room will be separated from the dry-kiln by the platform, and is to be 16x20. The sawmill will then be built at the south end of the steam room, where saws will cut up the logs, trim and rip up the lumber into long lengths suitable for use in the wood working factory.

When the entire building is complete, the logs will be hauled into the mill on cars, run through the mill and placed on cars in the steam room. As the wood passes through this room it goes through varied heats of steam. This room is to draw the moisture from the center of the wood. After remaining in this room for a certain length of time it passes out onto the open platform for a cooling off before entering the dry-kiln. This cooling off prevents the wood from splitting and becoming warped. It then passes into the dry-kiln where the drying process dries the wood thoroughly. It is then taken to the wood working plant on cars ready to be made up into wooden shuttles, bobbins and many other useful articles.

It is the plan of the Zweibel people to secure all of their logs from the woods surrounding Gresham. Maple is to be used more extensively than any other wood although alder will also be used. Anyone owning any of these two kinds of wood can probably find a ready market for it as soon as the factory gets in operation. The mill may also accept orders for the planing of lumber when it gets in operation.

JERSEY CATTLE CLUB PICNIC POSTPONED

The picnic meeting of the Multnomah County Jersey Cattle club has been postponed to Monday, July 17th, so that a representative of the American Jersey Cattle club who is on his way from the East will be able to attend. The picnic will be at Hanneman's Jersey farm, one mile beyond Corbett overlooking Rooster Rock on the famous Columbia river highway. A delightful program is scheduled and a special Jersey lunch will be served in one of America's most beautiful spots.

The Bank of Gresham pays 5 per cent interest on time deposits.—Ad.

UNIVERSITY OF OREGON
The college of Literature, Science and the Arts with 22 departments.

COUNTY FAIR JUST FOUR WEEKS AWAY

Reports made at the fair board meeting, held last Friday night, indicate that all plans are working harmoniously toward a readiness for the Multnomah County fair which is now just four weeks off. It will be a five-day fair and will open Tuesday, August 8.

Director T. J. Kreuder reported the granges were preparing for their exhibits and there would be about the usual number. The board voted to allow, as heretofore, ten dollars to each grange whose exhibit was ready and place cleaned up at 9 a. m., Tuesday, the opening day of the fair. This item was not included in the premium list. The board voted to strike out the item of five dollars to the most beautiful grange exhibit.

The fine exhibits of home and farm products as made from year to year by the several granges of the county are considered the backbone of the fair and the board is anxious to encourage and recognize the granges to the fullest extent.

A season ticket is being prepared by President Lewis which it is hoped will find a ready sale before the fair opens. It will have certain prize award features which make it especially attractive.

COUNTY COUNCIL P. T. A. WILL MEET AT VICTORY

The County Council of Parent-Teacher associations will meet for an all-day session on Saturday, July 15, at the Victory schoolhouse located on the Section Line road five miles east of Gresham. A picnic dinner will be served by the Victory women. The regular silver offering will be taken.

Mrs. Hill, the state president, will be present at this meeting. A short program has also been arranged in which the children of Victory will take part. Much preparation is being made for the occasion which is intended to combine business and pleasure. A large attendance of members and friends are expected.

CARL SHATTUCK PASSES; FUNERAL IN PORTLAND

Word was received here yesterday of the death of Carl C. Shattuck at Monrovia, California, Saturday afternoon, July 8. Mr. Shattuck had been in failing health for several years and has spent the past two years in Arizona and California. He was formerly associated with his brother, Lewis Shattuck, in the general merchandise business and has engaged in other business enterprises, owning property here at the time of his death.

The body has been brought to Portland for burial. Funeral services will be held at Finley's parlors on Thursday, July 13.

ROCKWOOD

About 20 young people gathered on the lawn at the home of Mr. and Mrs. Willard Cook last Saturday evening, July 8. The occasion was a surprise party on Harold Cook to celebrate his 17th birthday. The lawn was beautifully decorated with Japanese lanterns. Refreshments of ice cream, cake and lemonade were served. Everyone had a wonderful time.

Mr. and Mrs. Fred Weideman and children of Kerry, Oregon visited at the Willard Cook home over the Fourth.

Dr. B. H. Pederson and family, Mr. and Mrs. Oscar Walin and family, and Mrs. Wallin's parents, Mr. and Mrs. Olby spent the Fourth at Eagle Creek.

Mr. and Mrs. George Hay were visitors at the home of Mr. and Mrs. Weaver Zinn last week.

Ohmit Brothers, formerly of Pleasant Hofne, have leased the Rockwood garage from Arthur Kreofsky.

FAIRVIEW

The Women's Society of Smith Memorial church will hold its July tea at the home of Mrs. Kettle on the Sandy road Thursday afternoon, July 20. An interesting program has been arranged. Refreshments will be served.

A protective poison spray should be applied at once where the apple worm was serious last year as adult codling moths are continuing to appear in limited numbers and eggs are being deposited. Because of limited numbers of moths appearing if the worms were scarce in the orchards last year, it is possible to keep down infestation sufficiently by delaying the thinning process somewhat and then paying special care to thinning out the wormy fruit.

Hairy vetch is in demand as a seed crop. Western Oregon can grow it.

WIFE OF BULL RUN MAN DIES SUDDENLY

Pearl H. Wood, wife of W. O. Wood, died Sunday afternoon, July 9, at 12:20 at the home of Mrs. C. Timmerman, at the age of 36 years. Mrs. Wood was born in Beatrice, Nebraska on December 18, 1886. In her early life she joined the Evangelical church. She moved out to Oregon with her parents during the year of 1890. The family resided at Rockwood for a short time and then moved to Bull Run. On February 16, 1901, she married Mr. Wood of Bull Run and she and her family have lived there ever since.

During her married life Mrs. Wood has always been a faithful wife and mother. She leaves many friends and loved ones to mourn her departure from this earth.

Besides her husband, Mrs. Wood leaves ten children. She was the mother of 12 children but two died in infancy. The names of the children living are Mrs. Alice Wall and Mrs. Alma Canny both of Gresham and Edna, Elmer, Clarence, Willie, Curtis, Marie, Helen and Iva all living at home. She also leaves her mother, Mrs. Alice Woods of Hood River and four sisters and two brothers.

Funeral services were held this afternoon at 1:30 at the Methodist church in Gresham. The Rev. A. S. Hisey delivered the sermon. Interment was at the Powell cemetery.

ROCKY MOUNTAIN WARBLERS TO SING

An entertainment will be given on Wednesday evening, July 12, at the Pleasant Home Baptist church, at which time the Rocky Mountain Warblers will appear in concert. The troupe will also sing on Thursday evening, July 13, at the Sandy M. E. church. All those who heard these talented singers when they gave a concert in Gresham last week realize that a splendid treat is in store for all those who have the opportunity of hearing them.

Monday evening, the Rocky Mountain Warblers broadcasted a concert from the Oregonian building. Last Sunday evening they sang at the Willamette Valley Chautauqua being held at Gladstone.

The Warblers are from Caldwell, Idaho. There are four members of the quartet. They are H. G. Morris, second tenor and director; Fred Morris, baritone; J. C. Morris, basso and Frank Ridner, first tenor.

The Rocky Mountain Warblers will give one of their splendid entertainments at Sandy Methodist church on Thursday evening, July 13, at 8 o'clock. The concert is free but a silver offering will be taken.

CLACKAMAS COUNTY FAIR SET FOR SEPT. 19-22

The date for the Clackamas county fair has been set for this year. It will begin on Tuesday, September 19 and continue through the 22d. It will precede the Oregon state fair by one week. According to those in charge the Clackamas county fair this year will be one of the best ever held judging from the amount of interest being taken in the coming event.

ASH BEDS PROVE IDEAL FOR STARTING PASTURES

Ideal pasture seed beds are provided by the ash beds left after many brush and forest fires, together with the burning of slashings, reports G. R. Hyslop, chief in farm crops, Oregon Agricultural College Experiment station.

The seed covered in dry ash germinates with the first rains and usually makes a vigorous stand. Experiment station results show that such grasses, properly pastured, remain useful many years.

A good pasture mixture for western Oregon well-drained lands as recommended by Professor Hyslop consists of six pounds of English rye grass, three pounds orchard grass, three pounds Kentucky blue grass, three pounds meadow fescue, two pounds timothy, three pounds red clover or spineless bur clover, and one pound white clover.

From 18 to 20 pounds of the mixture should be seeded per acre if the seed is of good quality. This will usually be 140 to 150 live seeds per square foot, if the seed is good.

It is desirable to send lots of seed to the seed testing laboratory of the college several weeks in advance of planting time to pick out pure lots of good seed.

Since it takes 28 days to complete the test on blue grass seed it is always desirable to begin the preparation for fall seeding early. Two ounce samples should be sent to the seed testing laboratory, O. A. C., Corvallis, giving name and lot number of seed. Tests are made free of charge.

PLEASANT VALLEY OIL CLUB IS ORGANIZED

The Pleasant Valley Oil club held its first formal meeting Saturday evening, July 8, in the Pleasant Valley Grange hall where it will continue to hold its meetings. M. C. Childlein is the secretary.

The club is organized by the farmers themselves for the purpose of collecting in a pool the oil rights of 1000 acres of land, thus giving an indorsement for a good reliable company to enter the district and at the same time be able to help dictate the leases.

The club has taken for its motto that "In union there is strength" and several wide awake non-resident owners have flocked to their standard. Attempts have been made in the past by oil promoters to open up this field for operation but it always went down in failure as not enough land could be secured at one time, by any one concern to make it profitable or safe for them to bore.

This move, however, gives promise of a better outcome, as the people collecting the land themselves and presenting it in a block ready for operation can hope for a much better market for their oil as well as their berries, cream and potatoes marketed in like manner compared with the old way of marketing.

The meeting Saturday night was intensely interesting. Two promoters were present, each offering to operate as soon as the collective lease can be had. The next meeting is set for Saturday, July 15, at 8 p. m.

BIG TIME COMING FOR LUSTED SCHOOL

The Lusted Parent-Teacher association will hold its regular business meeting next Friday evening, July 14. An interesting program is being prepared by the committee including readings by Miss Wilma Davies and Ivan Wood. After the meeting and program a large bonfire will be built in the yard where marshmallows will be toasted. Games will also be played around the fire.

Everyone is urged to tell everyone else. Each one is to invite his friends and bring a car full of the neighbor's children. A big surprise is awaiting the pupils who have attended Lusted school for several years.

Vegetables Grown in United States Reach a High Total.

Vegetables grown on farms in the United States in 1921 had an estimated value of \$1,104,000,000, according to the United States department of agriculture. This was 15.7 per cent of the total value of all crops. The products of market gardens, which may or may not have been productive enough to be farms within the census definition, are not included in these estimates.

The total estimated value of truck vegetables produced for sale, often called the commercial crop, was \$227,000,000.

The potato crop had a farm value of \$385,000,000, and the sweet potato \$87,000,000. Together these two crops comprised 43 per cent of the value of all vegetables in 1921. The tomato crop of 1921 had a farm value of \$60,000,000; the cantaloupe was worth \$17,000,000; the cucumber, watermelon and cabbage crops each had a value of about \$15,000,000.

Farm gardens are a new item in the vegetable list and had an estimated value of \$405,000,000 in 1921.

The value of the vegetable crop in relation to prominent single crops and to groups of crops has some striking ratios for 1921, a year when the values of the large crops were low. The total value of the vegetable crop for 1921 was 85 per cent of the value of the great corn crop; it was almost as large as the value of the hay and forage crops; it was nearly one-half as large as the value of the dairy products; it was considerably larger than the value of all poultry products; 46 per cent larger than the value of the cotton crop, and 50 per cent larger than the value of the winter and spring wheat crops.

KEEP TRACK OF THESE DATES.

Buyer's Week, August 6-12.
Farmers' Field Day, Gresham, July 29.
Multnomah County Fair, Gresham, August 8-12.
State wide poultrymen's convention at O. A. C., August 1-2-3.
Pacific International Livestock exposition, Portland, November 4-11.

MAN STRIKES GRESHAM BOY; IS SENTENCED

Jack Campbell of The Dalles, the man who struck and injured George Pullen last Thursday afternoon was given a fine and sentence in Judge Delck's court in Portland. Campbell was first fined \$400 for speeding as he was being pursued by a motorcycle deputy sheriff for traveling at the rate of 50 miles an hour when the accident occurred. The fine is a Multnomah county record in a speed case. Campbell is now serving out his sentence in the county jail at the rate of \$2 a day.

Campbell had been pursued by P. W. Rexford, motorcycle deputy sheriff, for three miles when the accident occurred. Rexford was riding in a motorcycle with a side-car attachment which prevented him from catching up with Campbell, who was driving a 6-cylinder automobile.

George Pullen, accompanied by his brother Byron, Albert Stockton and Alfred Brunner of Gresham and Glen Spath of Seaside, were walking along on the left hand side of the Base Line road facing the on-coming traffic near Ruby station. George Pullen said he had no warning of the machine coming up from the rear, either by horn or shout. He was knocked several yards and his left shoulder and elbow and right leg were badly bruised and lacerated. No bones were broken.

There were several men in the car with Campbell. Their breath showed they had been drinking although they claimed they had not been. When questioned, Campbell said he had not been going over 35 miles an hour but he might have gone 50 down hill.

The entire party was taken to the county jail where George Pullen's injuries were dressed. The men who were with Campbell were released as soon as the sentence was given. The driver pleaded guilty to having exceeded the speed limit.

A. MEYERS AND BRIDE ENJOY OCEAN VOYAGE

A letter has been recently received by the Outlook from A. Meyers dated June 19. It was written on the steamship H. F. Alexander 700 miles from Hilo. Mr. and Mrs. Meyers and daughter Betty are members of the Islam Temple's Pilgrimage Deluxe which is a trip from San Francisco to the Hawaiian Islands from June 16 to July 1. The passenger list on this trip contained over 250 names.

The letter received from Mr. Meyers is as follows:

Our boat made 463 miles during the first 22 hours and then slowed down some. Nearly everyone on board is sick but they are all feeling better today. Betty is the only one in our room who is not sick. She is the youngest passenger aboard and has had a great time dancing and playing games. She won the girls' potato race on top deck today.

We have plenty of music and singing day and night, but this is the first day I have been able to enjoy it. We expect to reach Hilo Wednesday morning when we will visit the active volcano Kilauea. After a stay of 17 hours we will proceed to Honolulu where we will remain for five days, returning to San Francisco on July 1.

The weather has been fine. A little rain fell this morning.

MULLENHOFF'S STANHOPE BELLE MAKES RECORD

A new champion for Oregon has been announced by the Holstein-Friesian Association of America for the 365 day division of the full aged class. She is Stanhope Belle Johanna, owned by H. G. Mullenhoff, of Gresham, Oregon. She made 32453.8 pounds of milk and 993.95 pounds of butter fat, equivalent to 12424 pounds of butter.

She displaces by this record Florence Idella Sharp, owned by Henry McCall, of Prineville, Oregon, whose record is 27235.7 pounds of milk and 916.77 pounds of butter fat, equivalent to 1145.96 pounds of butter.

Queen Esther Girls Plan Sale.

The Queen Esther girls will have a food sale Saturday afternoon, July 15, at Davidson's drug store. Salads, cakes, pies, cookies and bread will be on sale, beginning at 12:30.

CHANGES MADE IN HUNTING SEASON

E. H. Clark, district game warden, was in Gresham recently, posting and distributing information regarding the regulations applying to hunting and fishing in Oregon. The state game warden is now given power to regulate the open seasons and desires all sportsmen to be informed and to cooperate to the fullest extent in observing and helping to enforce the regulations.

The state game warden, A. E. Burghdoff, gives notice that the open seasons as provided in the general laws, 1921, for hunting, killing and having in possession the following game animals and game birds, respectively, shall be as follows:

The open season for Deer throughout the entire state shall be from August 20 to October 31 of each year, both dates inclusive.

The open season for Chinese Pheasants and Quail in all sections of the state where there is an open season shall be from October 15 to October 31 of each year, both dates inclusive.

The open season for Grouse or Native Pheasants in all sections of the state where there is an open season shall be from August 20 to September 20 of each year, both dates inclusive.

The open season for Sage Hens in all sections of the state where there is an open season shall be from July 15 to July 31 of each year, both dates inclusive.

The open season for Prairie Chickens in all sections of the state where there is an open season shall be from October 15 to October 31 of each year, both dates inclusive.

Notice is hereby given that the changes in the open seasons above specified in no wise affects the bag limits or other regulations provided by law respecting the hunting, killing and having in possession such game animals and game birds.

In Oregon all game is owned by the state. It may be raised in captivity under a license or permit. The state is divided into two game districts, No. 1 comprising western Oregon and No. 2 eastern Oregon, the summit of the Cascades being the dividing line.

For this district the open season for buck deer is August 20 to October 31 inclusive. The bag limit is two during the open season.

The season for Chinese Pheasants and Quail is from October 15 to October 31 inclusive.

RUSSELLVILLE SCHOOL DESTROYED BY FIRE

Fire of unknown origin completely destroyed the Russellville schoolhouse situated on the Base Line road about two miles beyond Montavilla, at about 12:45 o'clock Sunday morning. The flames had gained too much headway before volunteer fire fighters arrived to combat it. There are no fire hydrants in that district and there was no way in which the fire could be fought once it had started.

A call was sent to the Portland fire department to respond to the alarm, but in view of the fact that there was no water available and also because it was outside the city limits no apparatus was sent.

The building was a two-story frame structure. It was burned to the ground. Belief prevails among residents of that section that tramps may possibly have started the fire either through accident or design. Once before authorities discovered that tramps had made use of the building.

The pear and cherry slug, the slimy brown creature now found skeletonizing the pear and cherry trees, may readily be controlled by regular applications of arsenate of lead 2-100. Where only a few trees are to be treated or the grower hesitates to apply the arsenate any finely divided dust such as air slaked lime sifted wood ashes, or road dust applied to the foliage will effectually control them.

Helpers Wanted at Once At the Gresham Cannery

The Call is urgent. Apply at the Cannery.

Phone 1871 THE BERRY GROWERS PACKING CO.
