**PROTEST MADE AGAINST HIGH FREIGHT RATES**

A letter of recent date was sent to United States Senator Charles McNary by D. E. Towle, manager of the Berry Growers Packing company. In this letter Mr. Towle called attention to the excessive freight rates on fresh fruits. The rate this year on strawberries has been 40 per cent of the gross market value. With this rate prevailing it is impossible to ship fresh fruits and make any profit. Mr. Towle's letter is as follows:

We are in receipt of a copy of your message to Robert Paulus, Salem, Oregon, on the subject of excessive express rates on fresh fruit shipments. I enclose herewith schedule of rates and icing out of Portland, Oregon, to eastern points, from which you will note the rate to Omaha, Nebraska, is \$4.00 per hundred pounds or \$1.00 per crate which is, on this date, 40 per cent of the gross market value of strawberries. The price now prevailing is: \$2.50 per crate gross to Omaha. As the price falls, the per cent increases until shipping is prohibited.

The gravity of this condition, I am sure you will fully appreciate, and on behalf of 253 grower members of our association, I request that you use all honorable means to have the rates adjusted downward to the end that the rate will not defeat not only the express company but the producer and consumer as well.

The following answer shows the interest Senator McNary is taking in an effort to remedy the prevailing serious freight conditions. It is hoped that Senator McNary will be successful in working out a solution to this problem which is so important to this part of Oregon. A reduction of these excessive freight rates would not only aid the farmers but it would also be of benefit to the express companies as more fruit would be shipped if the rates would permit. Senator McNary's answer to Mr. Towle's letter is as follows:

I have your letter which certainly gives excellent reasons for a reduction in the now excessive express rates on fresh fruit shipments. I have on several occasions, discussed this matter with Mr. Atchison and advised him of my effort to obtain sufficient data for the commission to act upon. I appreciate your letter and assure it will be of much assistance to me.
