Seven Grange Exhibits in Place at Opening Today; Fine Races on Program

EXTENSION OF WATER MAINS IS URGED

The city council met last Monday evening for the regular session. At that time a petition was presented to the council signed by many of the property owners on Wallula Heights asking that a four-inch main be laid in their part of the city to supply water for proper fire protection. At the present time 27 families are getting water from a two-inch main and several new houses are being built whose owners will have to get water from the same main. The petition asked that the four-inch main be extended west to the city limits going past the Honey residences.

A good deal of agitation is being heard all over the city asking for similar extensions of water mains. A petition is now being formulated asking the city to extend water mains east and west on the Powell Valley road to the city limits, north on Main street to the city limits, north on Cleveland avenue to the city limits and south to the Powell Valley road, north on Wallula avenue to the city limits, south on South Roberts avenue to city limits and east on Lawrence avenue to the city limits. There are seven distinctive extensions under contemplation. The fire and water and the ways and means committees were ordered to make a full investigation and estimate as nearly as possible the expense and recommend to the council the laying of the various extensions for fire protection to the city.

In order to make these extensions it will be necessary to provide for a new bond issue. If enough interest is shown, it will be put on the ballot and voted on at a special election or at the general election this fall.

WOMAN INJURED BY FALL FROM HAY

Mrs. Paul Cook of Cherryville sustained a serious injury last Wednesday when she fell off from a load of hay. The smaller bones above her right elbow were fractured and the larger bone was broken. She was brought to Gresham where an X-ray was taken and the bone set. Mrs. Cook was in considerable pain for several days as inflammation set in, but at the present writing she is much better.

Telephone 2101 if you want the Multnomah county fair grounds.

JERSEY CLUB MEMBERS PRESENTED WITH BRIDLES

The members of the Jersey Calf Club were presented with new show bridles by C. P. Tallman in behalf of the Jersey Breeders' association, Monday afternoon while the members were all present on the fair assisting in the work of preparing the Jersey booth for the displaying and sale of Jersey products.

The boys and girls in the club have all worked hard to raise their calves and get them in trim for the fair. In presenting the bridles, Mr. Tallman had many words of praise for the boys:

"You have chosen one of the best projects", were the opening words of Mr. Tallman, who is an enthusiastic Jersey breeder. You have all finished up your work and have done it so well that, in behalf of the Jersey Breeders' association I am going to present you with a new halter. I am hoping that your work has been so interesting to you that you will continue to use this halter by bringing a Jersey calf into the show ring each year.

"While your calves are good ones, there is always room for improvement. I hope you will continue to improve in your work and bring a calf to the fair each year."

There are eight members of the club. Fred Bohman has a calf 19 months old whose name is Bessie. She is a splendid dark Jersey. Collin Cree's pride is his Bessie Jane and she is seven months and thirteen days old. Tulip of Sunny Fields belongs to Ralph McCulloch and she is eight months old. Glen Cox has named his calf Pansy. She is nine months of age. Nan's St. Maves Beauty belongs to Charles Tallman, and is six months old. Miss Helen Althaus is the only girl in the club. Her calf is Briar Hood Lass, a 10-months old heifer. Emil Killin has named his young Jersey Beauty. She is two years old and just freshened recently, but she has not been in the best of health since then. Emil will not be able to show her this year for that reason. Emil will be presented with a bridle because he has completed all the work required in the club.

Woodsawing.

For quick service and a square deal call Gresham 14x. If you want wood, call the same number. C. H. Calkins, Gresham, Oregon.

BUSINESS HOUSES CLOSE THURSDAY AFTERNOON

All of the Gresham business houses will close their doors Thursday afternoon from 1 o'clock until 5 o'clock. Thursday is Portland day and the largest attendance of any day in the week is expected. Thursday is also Oregon Manufacturer's Day, Business Men's Day in which all civic organizations will participate and the livestock parade will be on that day.

NEW GAS RATES WILL APPLY TO GRESHAM

The new gas rates under the reduction announced by the Portland Gas & Coke company apply to Gresham gas users as well as Portland users according to information received from members of the Gresham city council. The new rates were made public in detail following filing of the tariffs with the public service commission. A general reduction of 5 cents a thousand feet, is shown by new tariffs. No reduction is made in the minimum charge of 75 cents covering less than 300 cubic feet, however.

For residential and commercial gas users, the figures are as follows: For those using less than 9700 cubic feet a month, the old rate was \$1.18 a thousand feet and the new rate is \$1.13; less than 30,000 cubic feet, old, \$1.05, new \$1; for less than 60,000 cubic feet, old 90 cents; new 85 cents; less than 100,000 cubic feet, old, 75 cents; new, 60 cents.

For house heating and gas engine work the comparative rates are: minimum (less than three hundred cubic feet) 75 cents. For those using less than 2700 cubic feet the old rate was 85 cents, the new rate is 80 cents. For the excess over 3000 cubic feet the old rate was 65 cents and the new is 60 cents.

The new rates are to be effective on all meter readings made on and after August 25, it was announced. The initial charges for large meters it was said will remain unchanged.

HEALTH BOOTH WILL GIVE AWAY TOOTH PASTE

To every child who brings his own tooth brush with him or her next Friday and makes an appearance at the Multnomah County Health booth, will be given a tube of tooth paste free is the promise made by Miss Mary P. Billmeyer, county health nurse. Each child must have his or her own toothbrush and that doesn't mean a brother's or sister's brush. "Wrap the brush up in tissue paper and bring it with you" are Miss Billmeyer's directions.

The Multnomah County Public Health association booth is in the main pavilion on the north side and is in charge of Miss Billmeyer. Any questions which mothers or children care to ask will be gladly answered any day during the week by Miss Billmeyer. She is equipped with a pair of scales and will weigh and measure children upon request. Literature and pamphlets on health can also be obtained at the booth for the asking.

Any child who wants a tube of tooth paste free must not forget that Friday is the day. This offer is not open for any other day. Any child who does not own a brush should purchase one as they are a necessity when it comes to keeping the teeth clean.

SAM WEISS HAS JERSEYS AT FAIR

Some fine Jersey cows were already at home Monday in the stock barns at the Multnomah county fair. Sam Weiss, owner of the Elk Horn farm at Hogan station has nine head of registered Jerseys at the fair out of an entire herd of 17 head. Mr. Weiss is engaged in business in Portland and Albert Killin has charge of his cows. Mr. Weiss, however, is much interested in his stock and he left his business to be in Gresham during the fair.

Mr. Weiss has many outstanding individuals in his herd. One of them is the granddaughter of Lady Silken Glow. The world champion Jersey only won over Lady Silken Glow by one pound. The granddaughter is not two years old but is expected to freshen soon.

One of the cows in the Weiss herd at the fair has been giving milk for 15 months and is now giving 35 pounds of milk a day.

WALTER M. PIERCE WILL SPEAK AT FAIR

A letter was received yesterday from Walter M. Pierce, democratic candidate for governor of Oregon, in answer to a one sent him by Frank C. Jones. Mr. Jones, after securing the consent of the Multnomah county fair board, wrote to Mr. Pierce and invited him to deliver an address at the fair as a part of the Chautauqua program. The letter of acceptance received from Mr. Pierce is as follows:

"I wish to sincerely thank you for your very kind invitation to speak at the Gresham fair. I have accepted the invitation by wire today. I will be there on Wednesday the 9th. Mighty good of you, indeed, and I appreciate your efforts in the matter."

Mr. Pierce will arrive in Gresham from his home in LaGrande on Wednesday. The exact time of his arrival is not yet known. He will speak in the Chautauqua tent on the Chautauqua program. Mr. Pierce is a very interesting speaker and as a regent of the Oregon Agricultural College is a friend of the college and also a friend of the farmer. All who hear him are impressed with his forceful statements and his straightforward manner of introducing his subject.

To Frank C. Jones is to be given the credit of securing such an influential speaker for the Chautauqua program. He it was who thought of asking Mr. Pierce to come to Gresham during the fair and, after asking and securing the consent and approval of the fair board, he asked him to deliver an address during fair week.

HORSES EXPECTED AT GRESHAM ARE BURNED

Two horses that were listed to take part in the races at the Multnomah county fair here were burned in Walla Walla according to word received recently. The horses were owned by J. E. Johnson, 804 Case avenue, Walla Walla, Washington. One of the horses "Donatus" was entered in the two minutes, 17 seconds pace and the other, "Dorothy M" was placed in the two minutes and 12 seconds pace.

Along with the horse talk which can be heard at any time on the fair grounds is the statement that Hal Brown owned by J. J. Kaddery is bound to win in the two minute, 17 seconds pace. This is mere guess work, however, and besides other horses have been arriving at the last minute whose merits are not known.

B. H. Davis has two horses at the fair grounds. He and his family are camping on the grounds. They brought with them a thoroughbred bull dog with six cunning little puppies. They were feeding the mother liver but it did not seem to agree with her as she was a pretty sick dog last Sunday night. Fearing the sickness might prove fatal, she was taken to Portland to a dog hospital Monday morning, where she quickly responded to medical aid and her sufferings became much less. Mrs. Davis went down about noon and expected to bring her home to her puppies.

MANSFIELD RECOMMENDED FOR IMPORTANT POSITION

The name of George A. Mansfield, president of the Oregon State Farm Bureau, has been forwarded to the president by United States Senator Charles A. McNary for appointment to the federal farm loan board to succeed W. B. Joyce, of California, whose term has expired.

The active part taken by Mr. Mansfield in promoting the welfare of the farmers of the state is well known especially in the farming districts. He has also been prominently identified with movements having for their object the preservation and development of the fish and game, and scenic resources of the state.

Previous to coming to Oregon a number of years ago Mansfield engaged in the practice of law in the east. He is the owner of a fine stock ranch on the Rogue river, just below Prospect. It is one of the show places of southern Oregon.

Mr. Mansfield is a member of the democratic party.

Chevrolet Demonstrator, 1922, 490 touring used two months. This car is like new. Some terms. Phone 1561, Demonstrator Outlook.

The Bank of Gresham pays 5 per cent interest on time deposits.—Ad.

FUND AGAIN PLEDGED FOR LOOP HIGHWAY

The Multnomah county commissioners have again adopted a resolution pledging to place \$170,000 in the budget and take the sum from the motor vehicle license fund of 1923 to pay this county's share toward the grading and surfacing of the Mount Hood loop. Action to this effect was taken late Thursday afternoon at a conference attended by the county commission, D. V. Walker and J. H. Rankin, commissioners-elect; Highway Commissioner Yeon; District Attorney Myers and J. M. Deavers, assistant attorney-general.

The original resolution, as prepared by Mr. Deavers for the highway commission, and which was supported by Rufus C. Holman and opposed by C. S. Rudeen and R. W. Hoyt, was amended yesterday so that it met with the approval of Rudeen.

The resolution was adopted by the votes of Holman and Rudeen, Hoyt voting against the resolution.

The budget item has still to be approved by the tax conservation commission when the budget is considered in December, but attorneys at the conference recently were of the opinion that the way the resolution is worded it meets the objections raised by the tax conservation commission when the loop item was stricken from the budget last December.

John B. Yeon accepted the resolution with a reservation. He will confer with R. A. Booth and W. B. Barratt, his colleagues, before taking action. If the highway commission is assured that the resolution of the county commission will result in the state being reimbursed, the contract will be let within a few days for rock surfacing the loop section in Clackamas county.

BABY SHOW WILL BE HELD LAST DAY OF FAIR

Mrs. Mary Crane is superintendent of the baby show at the Multnomah county fair again this year. Evidently this part of the show will be as popular as usual because on Monday before the fair had opened inquiries were coming in to Mrs. Crane about the baby show and one man thought that it was to be on Monday.

The show will open on Saturday afternoon at 3 o'clock in the Chautauqua tent under competent supervision. The names of the judges will be announced later.

The prizes will be given for the prettiest baby under one year, \$5; baby having the best head of hair; smallest baby, fattest baby, prettiest brunette and the prettiest blonde each under two years; prettiest pair twins, and the prettiest triplets.

An entrance fee of 10 cents will be charged and as many as possible should enter their babies early. So many wait until the last half hour that there is always a rush which delays the show.

P. T. A. HAS REST ROOM ON FAIR GROUNDS AGAIN

The Multnomah County Council Parent-Teacher association invite all mothers to use the rest room on the fair grounds this year. The rest room is in a large tent which has been placed opposite the front of the club pavilion and is close to the picnic grove.

Everything has been done to arrange for the comfort of the mothers and the children. Children may be left for two hours at a time in the care of the mothers on duty there each day. Books, pictures and many other things of interest to children have been placed in the rest room for the entertainment of the children.

All the Parent-Teacher association circles of the county are taking a keen interest in making this part of their work a success. All mothers and children are promised a cordial welcome.

The county council will give a program in the Chautauqua tent next Friday evening. Their entertainments need no publicity as everyone knows how well they were enjoyed last year.

Ignition Expert.

\$25 will be given to him who proves that I can not find the deficiency of his machine on starting, lighting and ignition. Main street Garage. Phone Gresham 1228.

Storage battery repairing and recharging, starter and generator work. Raker & Son.

SIXTEENTH ANNUAL COUNTY FAIR OPENS

The 16th annual exhibit of the Multnomah county fair opened this morning with every prospect of a successful session. Good weather, good exhibits, and good crowds are in evidence. No estimate can be made so early in the day as to the attendance but everyone says it is good for the opening day. Those coming in autos are perhaps running to larger proportions than usual. There are a great many season tickets coming in also.

Of especial interest this afternoon is the judging of stock. The work is progressing rapidly in the different departments, most of which are already being judged many ribbons are already up.

The boys' and girls' club stock is already judged and blue ribbons are placed.

At 2 o'clock judging of Jerseys began and is progressing rapidly. E. B. Fitts of O. A. C. is judging cattle.

The Grange booths were in place on time as usual and are creating much interest. The decorations are beautiful and the exhibits are exceptionally good considering the season. Some of the fruit is not ripe yet, but it is well selected and shows promise of what it will be in a few weeks. The early season has made it possible to exhibit cherries, currants, strawberries, raspberries, etc., which are too early for a September fair.

String beans, peas and early vegetables feature in place of pumpkin, and squash although there are some of these latter vegetables displayed.

There are seven Granges exhibiting this year, Columbia, Fairview, Gresham, Lents, Multnomah, Rockwood and Russellville and in all the decorations and exhibits are very attractive.

Both the art department and the floral departments are overflowing with beautiful entries and Mrs. U. G. Smith and Mrs. Frank Heiney are happy in the fact that they are having difficulty in finding a place for everything.

In the floral department there is a great variety of exhibits as the middle of the season fair catches both late and early varieties. Dahlias, gladioli, sweet peas, marigolds and dozens of other kinds are on display. The displays of cut flowers in baskets is wonderful this year and Mrs. Heiney's department is a joy to flower lovers.

No less attractive is Mrs. Smith's department for lovers of fine art. Many new collections are on display this year. Mrs. Smith has been working since April and has secured exhibits that she had hoped for for several years. New, artistic and attractive is the display of sealing wax articles made by a Portland woman. There is also a beautiful collection of posters, china, etc., made by a 12-year-old girl, that displays wonderful talent and skill. The whole department is a thing of beauty.

The domestic art department is well arranged this year under the management of Mrs. Della Murray. The work is displayed to a better advantage and more space given to it. The work itself is beautiful and seems to follow the lines suggested by Miss Cooley last year. Her suggestion was for better material or more practical material and appropriate design rather than elaborate designs.

The poultry department is in the dance hall and is especially attractive. This building which was originally planned for a chicken house is well adapted for the purpose and poultry fanciers will appreciate the more attractive quarters in which their stock is displayed.

The childrens club building is a thing of beauty and the clubs have vied with each other in the placing of excellent exhibits while the leaders have decorated the booths in a most attractive manner.

Corbett potato club has an interesting exhibit of potatoes showing the diseases which effect them. This exhibit is in the East of Sandy booth.

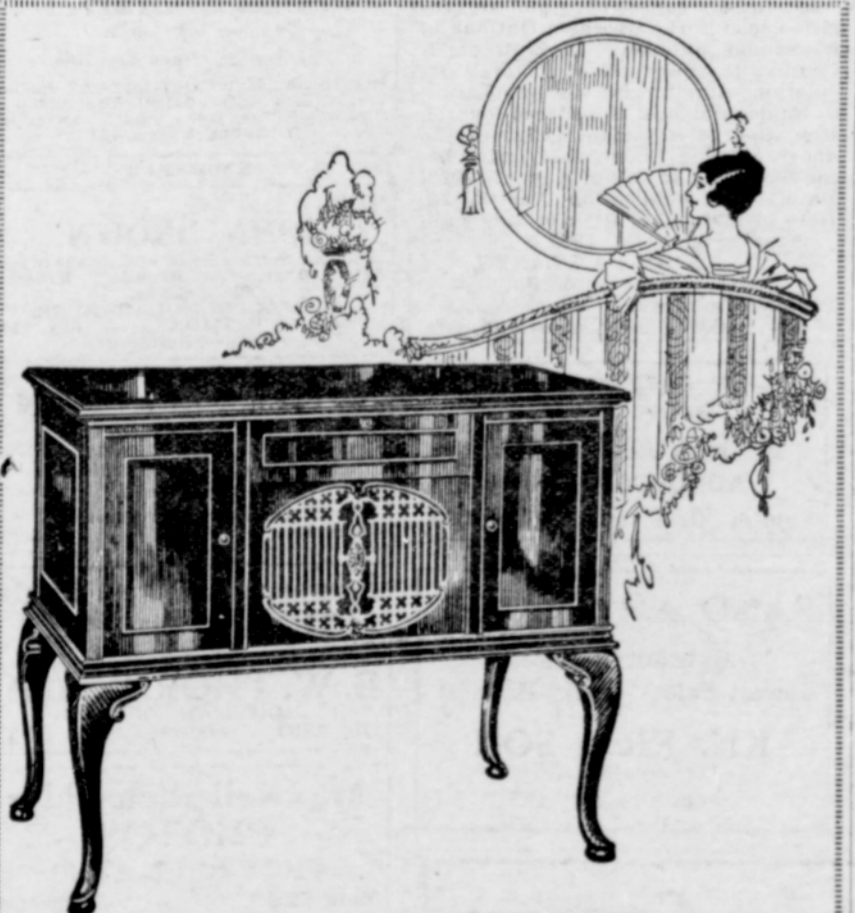

The Trio Champion Pig club has a model pig pen on display with farrowing, fattening and growing pens.

The Victory club has a pen on exhibit which shows the kind of a home a pig should have, to grow properly.

Concessions are all in place and the line up is equal if not superior to former years.

Arrangements are being made to
