### TWO FAIR EXHIBITORS HAVE BIRTHDAYS

Last Wednesday was an unusual day at the fair in that it was the birthday of two of the exhibitors who occupied neighboring booths in the main pavilion. Those having birthdays were Mrs. J. F. McLoney of the Fisher Flouring Mills booth and F. E. Davis of Centralia, Washington, who had charge of the Portland Seed company booth. Between 25 and 30 fellow exhibitors heard of the birthdays and planned a pleasant surprise. They arrived at these booths during the early evening and presented Mrs. McLoney and Mr. Davis with a bouquet which each exhibitor had contributed at least one flower. The Journal man came down from his booth upstairs and brought with him a wheat bouquet which he gave to Mr. Davis. The birthday party was quite an enjoyable occasion.

## FOUR-H CLUB LEADERS ORGANIZE IN COUNTY

After the boys' and girls' club pageant last Friday at the fair grounds, an organization of club leaders was perfected for the county with Mrs. J. Lynch president, F. N. Lasley, vice president and Mrs. Geer of West Portland secretary-treasurer.

The county organization is affiliated with the 4-H state organization of club leaders. All leaders who put through a 100 per cent club are automatically members of state 4-H club.

The county organization consists of all club leaders whether or not they have the distinction of being a 4-H club leader.

The purpose of the new county organization which will be known as the Multnomah County Local Leaders association is to advance the cause of club work in every respect, bringing it to the attention of parents, business men and in various other ways.

One of the first official actions of the new organization was to pass a resolution favoring the expulsion from the Multnomah county fair those gambling devices and side shows which have such a demoralizing effect on the children.

The club section of the fair is growing each year and more and more entries are being made by the children. This brings the children to the fair grounds in great numbers and club leaders and parents are becoming alarmed at the number of children who are coming in contact with the type of people who follow carnival companies. It is not alone the type of show, but the association with the class of people which follow the carnivals, to which the Local Leaders are objecting.

The resolution is as follows: Whereas, the boys and girls of the county are coming to play such a large part in the success of the Multnomah county fair, and

Whereas, these children are of an impressionable age, and

Whereas, the type of amusement furnished by carnival companies is detrimental to the moral, mental and spiritual development of our children. Therefore be it

Resolved, that we, the Multnomah County Local Leaders association enlist the aid of the Parent-Teacher associations and all other like organizations of the county for the expulsion of all disreputable concessions from the Multnomah county fair grounds for the year 1923. Be it further

Resolved that we, the individual members of this association, pledge to the management of the Multnomah county fair, our cooperation and support for a successful 1923 fair.

Respectfully submitted,  
MRS. J. LYNCH,  
F. N. LASLEY.

There is every reason to believe that the fair management will meet the action of this organization in every way possible and if the farmers, parents and leaders do back up the fair in a financial as well as a moral way, the action here taken will lead to cleaner fairs, educational features, lectures and chautauquas, which will be substituted for the questionable types of amusements. President H. A. Lewis is known to be in favor of higher standards for fair amusements.

### TRAP, POISON, FLYPAPER WILL HOLD FLY IN CHECK

The most successful weapons against the housefly, a man's deadliest enemy of all insect pests, are the screen, trap, sticky flypaper, poison and careful sanitation. Where poison can be used it is very effective offered as the O. A. C. experiment station recommends as follows:

Formaldehyde—Commercial strength—2 ounces; sugar 2 ounces; water 10 ounces. The solution is placed in a shallow dish where the flies can reach it with no other source of drink. After drinking of the poison they die near the dish.

Different makes of fly traps may be seen at stores and fairs, and most of them are inexpensive and effective. The screened in porch with screened windows and doors will keep most of the intruders out, and those that do sneak in may be killed with swatter or poison, or caught on fly paper or in traps.

Hordes of flies often breed in the manure piles, which may be covered or screened in. Care with the garbage and with litter about the home grounds will send the females further away to deposit their eggs.

Allowed their own way these house pests will carry on their hairy legs and feet such disease germs as they come into contact with, notably typhoid, dysentery, tuberculosis and diphtheria. They drop some of these walking about human foods and drinks, which under favorable conditions will cause disease when taken with these substances.

The death of a single female fly may prevent the breeding of millions of descendants before the summer is over.

### NEW PAPER STARTS UP IN EAST PORTLAND

A new community newspaper has made its appearance on the east side in Portland and will be published at 221 East 48th street, according to announcement in the first issue. M. E. Bridges and S. H. Samuels are the editors of the little weekly publication, which has been named the Post. The owners are Bernard A. and Clifford R. Bridges and the business manager is Floyd L. Gilman. It is the idea to circulate the weekly in the communities of Hawthorne, Sunnyside, Glencoe and Richmond.

## LARGE ATTENDANCE AT FAIR ON SUNDAY

As was announced in the last Outlook, the Multnomah county fair did not close on Saturday as was the original plan but continued Sunday, owing to the fact that three days of the fair were practically spoiled by the rain. In spite of the meager announcement regarding Sunday's program, the attendance at the fair on that day proved to be nearly as large as any other day. The people seemed to realize the situation and supported the fair heroically by their presence Sunday.

The racing program was one of the best. There were two races besides the steeple chase and the auto polo contest. Surety won the race and all three heats in the 2:10 trot, J. D. Burke came second in the race and in all three heats, Gylight came in third. The time was 2:25.

Barondale won in the Free for all Pace. Linnie C. came in second and Red Hal came in third.

The third race, the steeple chase, was interesting. Flying Fox was ridden by W. U. Sanderson, won the race. Pay Day was first until he received a fall at the last hurdle and threw his rider who received a broken collar bone. The rider was Capt. K. B. Wise of Vancouver. Tex came in second and Joe third.
