**THE DAUGHERTY INJUNCTION**

The Oregon Methodist conference at its recent annual session at Salem passed a resolution calling upon the government to use all proper means for the just definition of the mutual rights of capital and labor and for the protection and perpetuity of the rights of the public.

A great furor has been caused by the sweeping injunction secured by Attorney General Daugherty from a federal court restraining the striking railway rumors from any interference with the railroads in their efforts by any lawful means to maintain their freight and passenger service. It even apparently went so far as to restrain union men from peaceable assemblage to discuss the strike. The department of justice, however, declares it is not its intention to interfere with any constitutional rights of free American citizens. Anyway the injunction has seemed to drain a sharp distinction between strikers and non-strikers and amounts to declaring the strikers in a state of war against the United States government through the railway labor board whose orders the unions have refused to obey. The strikers are somewhat in the position of a person in contempt of court.

The president of the brotherhood of railway carmen is said to have cried, "To hell with this injunction." An effort has been made to impeach the attorney general for high crimes and misdemeanors. Evidently a fight is in store which will be fought out in the courts.

The administration has stated its position as follows:  
"No union or combination of unions can, under our law, dictate to the American Union. When the unions claim the right to indicate to the government and to dominate the American people and deprive the people of the necessities of life, then the government will destroy the unions, for the government of the United States is supreme and must endure."  
In the meantime the public is anxiously awaiting the outcome.

**TWO FREAK MEASURES**

In about two months Oregon voters will have the chance to vote yes or no on many measures appearing on the November ballot. Two of these are branded by nearly every thoughtful person and by practically all civic and business organizations as freak measures and they should be summarily killed. They are, the Graduated Income Tax and the Maximum Interest Rate. The president's council, made up of Portland civic clerks, has gone on record as strongly opposed to these two measures.

The Progressive Business Men's club, of which our own George W. Stapleton is the president, has drawn up and adopted brief arguments against these two freak bills. The same have been sent to the Gresham Business Men's association for consideration and this association will undoubtedly add its endorsement to the argument against these measures. The briefs are as follows:

**Graduated Income Tax.**  
A Graduated Income Tax measure, commonly known as the Grange Bill, will be submitted to the voters of Oregon at the next general election, which provides for graduated rates up to 15 per cent on the incomes of all persons and corporations doing business in Oregon. The adoption of this measure would be harmful to the welfare and development of Oregon for these reasons:

First—Because it provides heavier rates than that of other states in the Union, and because no other western state has any income tax whatever, new capital would not be attracted to Oregon.

Second—Because specific rates are provided in the measure, it would result in the raising of large funds for state purposes during years of prosperity, thereby encouraging the legislature to enter upon expensive and elaborate spending programs. During years of depression the measure will raise only a small fund and the expensive programs, which have been entered into during years of prosperity, must be maintained by the property tax which is already excessive; Therefore, Be It Resolved by the Progressive Business Men's club of Portland, Oregon, that it is opposed to the adoption of this bill and that it urges its members to use their efforts in making known the unfavorable result which would follow its adoption, and be it further resolved that our president be authorized and directed to join with the presidents of other Portland civic organizations in preparing and signing a negative argument respecting this measure for the Voters' Pamphlet.

**Maximum Interest Rate.**  
At the next general election a measure will be submitted to the voters of Oregon, which provides for a maximum interest rate of 7 per cent. Interest rates are governed by the law of supply and demand and cannot be fixed by law. The adoption of this measure would make impossible the operation of financial institutions, which loan funds in Oregon and discount same in the eastern financial centers and accordingly would pre-

vent cattle and sheep raisers and grain growers from financing their operations in Oregon. It would likewise compel the discontinuing of all building and loan associations. Therefore, Be It Resolved by the Progressive Business Men's club of Portland, Oregon, that it condemns this measure as unsound and one which will interfere with the commerce and development of the state, and recommends to each of its members that they use their efforts in making known the unfavorable results which will follow its adoption, and be it further resolved that our president be authorized and directed to join with the presidents of other Portland civic organizations in preparing and signing a negative argument respecting this measure for the Voters' Pamphlet.

**TO THE PIONEERS OF STAGGERWEED.**

By MRS. LYDIA OSTRAND.  
Read before the Eastern Multnomah Pioneer association September 6, 1922, by the author.

Although I'm not an author  
I know just how I feel  
And if you'll just be patient  
My story I will spiel.

The pioneers of Staggerweed  
Have gathered here today  
To shake the hand and give good cheer  
And help us on our way.

For three score years we've labored  
Side by side in sun and rain  
To make our home a palace,  
And our efforts have not been in vain.

We have cleared the giant forest  
And planted in its stead  
The grain fields and the orchards  
With apples streaked with red.

We have our blooded Jersey farm,  
The home of the Rhode Island Red,  
The beautiful roses and dahlias  
With acres of blossoms are spread.

The Vista House erected  
In honor of the Oregon pioneer,  
The lovely parks along the line  
And our scenic Chautauque.

The grand Columbia highway  
Is heralded far and wide,  
Our modern homes and high school  
They are our joy and pride.

Last week we had the honor,  
Our pioneer friends so true,  
To be the first along the line  
To raise the red, the white and blue.

The auto has taken the place  
Of our prairie schooners and sleds,  
Tom and Jerry have gone to the butcher  
And poor old Dobbin is dead.

Electricity is mother to our chicks,  
Our eggs from China come,  
The rooster crow is sent by radio,  
I wonder what next, by gum!

We boast of our modern inventions  
But there is enough pioneer blood in me  
To want to go back to the old log house  
Where from gas bills and rent you are free.

Those were days of real sport by the fire-place,  
With a back log and cord wood galore,  
With plenty to eat and a straw bed at night,  
And no one was turned from our door.

When the deer, the birds and the fishes  
For us there was a share  
But now there's a fine if on them you live,  
They're just food for the millionaire.

Oh! Give me a home in the wildwood,  
Where you can hear the coo of the dove,  
The call of the jay or the Bob White,  
That's the music I love.

This is the home of Columbia Grange  
We have been called to drape the charter  
And twice within the year  
For those we loved so dear.

They were also pioneer comrades,  
Which proves to us today  
That our work here is nearly ended  
And we're swiftly passing away.

We welcome you with smile and song  
And hope you will bring us again,  
But don't forget to come again,  
In nineteen twenty-three.

But if you should have crossed the river  
To gain those we loved so dear,  
I feel 'twill be written in the book,  
Well done, good and faithful pioneer.

**What Other Counties Are Doing for the Children.**

At the end of the school term at Grants Pass 224 of the 287 children in the nutrition classes because of underweight had made decided gains, and 87 of them had gone up to normal, reports Mrs. Jessie D. McComb, state demonstration leader, according to word received from O. A. C. department of Journalism. They had also improved in general health and appearance. The work was in charge of a committee of the Woman's club in cooperation with the county home demonstration agent, and has been in progress for two years.  
Nine Josephine county schools in which hot lunches had been established in cooperation with the teachers and officers, have made reports. The average times the hot lunch was served in the nine districts was five months, the average number of children served, 158. The cost per child was from nothing reported to 50 cents a month. Where no cost was reported it was provided by donations of milk and vegetables or community contributions. Parents and teachers say that the hot lunch gave the children renewed energy.
