

### GRESHAM P.-T. ASSN. HEARS TALK ON BUDGET

Explanation of the budget of estimated expenditures prepared by the members of the board of Gresham district No. 4, which is being advertised according to law, was the principle matter of business to come before the Parent-Teacher circle at its regular meeting last night. In the absence of Arthur Dowsett, chairman of the board, Principal Quicksall was called on to make the explanation.

Mr. Quicksall called attention to the call for a special school meeting, which will be held on Saturday afternoon, December 9, at 2 o'clock, according to the published notice. In view of the importance of the meeting, it was urged that all persons eligible to vote be present on that occasion to pass on budget. This is a duty usually passed up by the majority of citizens, according to Mr. Quicksall, it sometimes being necessary to call in someone to make up the three required to do business.

Attention was called to the fact that the total estimated expenditures of the year amount to \$16,175. Of this amount \$12,500 is for teachers' salary, janitor and clerk hire, \$1130 for material and supplies, warrant and interest \$2140, maintenance, repairs and insurance to \$490. The total estimated receipts from all sources during the coming year amount to \$11,991.26, leaving \$4,183.74 to be raised by district tax. An interesting fact brought out by Mr. Quicksall was that the district will receive from the elementary school fund, raised throughout the state, \$6,500. School District No. 4 pays into that fund about \$2500. The amount received is based on the number of pupils in the district, each thirty or fraction thereof bringing \$650. With the continued increase in the population of this district it seems certain that the fund from that source will constantly increase. Additional facilities for housing and caring for the larger number must be provided. To this end the members of the school board are convinced that the building of a larger, modern school building will be necessary within two or three years and that additional ground is needed. An option has been taken on the two acres of land adjoining the school grounds on the west and extending to the car track. This can be obtained at the present time for \$1000 an acre. The ground, like the school grounds, is well drained at all times.

Another matter of interest mentioned by Mr. Quicksall was that a school district adjoining the Gresham district is taking steps to request that it be joined with District No. 4. This would increase the number of pupils now in the district by between thirty and forty.

A splendid program was given in which the school children took part. It consisted of a fairy song by the sixth grade "A Midsummer Night's Dream", "Evening Star", Robert Schumann's "The Smith Cavallieri Rusticiana", a recitation by Catherine Metzger, "Grumble Corner and Thanks giving Street"; songs by the second grade "Slumber Boat", written by Gaynor and "Why Mr. Gobbler Changed His Tune", written by Riley and Gaynor; "The Italian Folk song" by the Girls' Glee club.

At the completion of the program, the children were given games to play. Punch and wafers were served. A social evening was enjoyed.

Every man approves the strict enforcement of all laws that don't affect him.

Get your supply of Christmas wrapping tissue now at the Outlook office. We can supply you this in any quantity desired in size 20 inches by 30 inches.

Need Your Suit Cleaned? Have it French dry cleaned. Repairing neatly done. Tailoring for ladies and men.  
PETER LENARD, Tailor.

### NUTRITION SPECIALIST TALKS ON FOOD

A guide for determining how much food is actually required each week by the growing child and also by adults was furnished by Miss Marjorie Smith, nutrition specialist from the Agricultural College, at the meetings held last Thursday afternoon in the Russellville grange hall and at the home of Mrs. M. Lennartz at Pleasant Home last Friday afternoon. Miss Smith also gave out the recipe for vegetable chowder which was made at one of the former Pleasant Home meetings and at the last meeting at Russellville. An additional recipe for "Thousand Island Dressing" was also furnished by her and is declared to be excellent. The recipes will be found following this article and it is hoped the readers will try them out as they are both splendid.

#### Weekly Food Amounts According to Age.

The following information, regarding the weekly amounts of food required by children of various ages and by the adults, is given out by Miss Smith only after much study and after personal investigations. The amounts are in weekly quantities and varies according to the individual allowance is made for this in the proportions given.

A child under two years old will require from one-half to one and one-fourth pounds of grain products each week, from six to seven quarts of milk, not more than two ounces of meat or fish, not more than three eggs, from one to two pounds of vegetables, from one to two pounds of fat and not more than two ounces of sugar.

A child between the ages of from two to five years should have from one to two pounds of grain products each week, from three and one-half to seven quarts of milk, from two to four ounces of meat or fish, from three to five pounds of vegetables, from one to two pounds of fruit, from four to six ounces of fat and from four to six ounces of sugar.

The growing child who is between the ages of from five to twelve years of age requires from two to four pounds of grain products each week, two and one-half to seven quarts of milk, eight to sixteen ounces of meat or fish, three to seven eggs, five to eight pounds of vegetables, two to three pounds of fruit, eight to twelve ounces of fats and six to twelve ounces of sugar.

The child of over 12 years of age is placed in the adult class and is allowed the same amount of food as an adult. Those in this class should have a weekly allowance of from four to seven pounds of grain products, two and one-half to seven quarts of protein or milk, one to two pounds of meat or fish, three to seven eggs, six to nine pounds of vegetables, three to five pounds of fruit, three-fourths to one and one-half pounds of fat and from 12 to 16 ounces of sugar.

#### Some General Information About Food.

The amount of grain products needed for each person depends upon the age and activity of the individual. Three-fourths of a pound of flour will make one pound of bread. Whole grain products have the highest food value.

Milk is very essential as food for little children and is also a great aid to health for the growing child and adults as well. Good milk is highly recommended by food specialists.

It is now conceded that meat and fish are not essential to health. Less than the above stated amounts may be given. Cheese may be used to take the place of meat in the menu of a child over five years of age. This rule also applies to beans and peas but a generous quantity of milk should be used with them. The packing companies are becoming alarmed at the decrease in the amount of meat sold. People are now using 25 per cent.

Continued on page 3

## ROLL CALL OF GRESHAM INDUSTRIES LOOKS LARGE

The business men's meeting held in the city hall last night resolved itself into something like an industrial roll call. The representation of present or proposed industrial enterprises of Gresham was large but the attendance of business men and substantial citizens was noticeably small. There was about a baker's dozen of the latter and they were outnumbered by those who came on invitation to tell about several of the city's new and promising industries. The entire time of the meeting was given to the visitors to tell of their organizations, plans and prospects.

The Pack Products company was represented by A. B. Van Tresse, sales manager, and W. E. Lewis, secretary of the company which is an incorporation under the laws of Oregon. Mr. Pack, the president, was unable to be present.

The company's plant is located in a building near the city hall, which has lately been reconstructed for their purposes. It will include a refrigerator plant. The company will manufacture a confection similar to the so-called polar ice cream cake. The machine used is a new invention and was made at the Beaver State Motor factory. The company has all rights to the manufacture and sale of the machine and has a patent right on the product it proposes to make. It is proposed to extend the operations to other localities and states.

R. L. Stafford, president of the Gresham Pickle and Canning company, told the meeting much of interest regarding the pickle factory established here nearly two years ago and now a widely known and successful concern. Mr. Stafford indicated that while the local demands were increasing the products were being introduced into adjoining states and larger orders were coming in from a distance. This also is an Oregon corporation.

Another Oregon corporation, with a well equipped plant at Gresham, the Poto Products company, was represented by L. S. Ellerman, the general manager.

Mr. Ellerman said that his company had purchased the assets of the defunct Potato Starch and Milling company and was re-equipping the plant for active operation. The company was spending between \$5,000 and \$6,000 in putting the plant in working condition. He hoped to be ready in a few days to put through several tons of potatoes. The first run would be experimental and would be with a view to establishing costs so that the company might know what its product could be sold for to make a fair margin of profit. On this would depend the operation of the plant and the establishment of plants to produce raw starch in other locations. If this can be done this plant will be used as a refinery. Mr. Ellerman was optimistic as to the outcome. The company is well financed.

The Zweibel Woodworking factory, which has been under construction in the northwest part of the city, is regarded by many as one of Gresham's

most promising new enterprises. F. J. Zweibel, the president, was called on to tell of the progress made and the prospects in his line of manufacturing. The plant consists of a well equipped factory, a dry kiln and a sawmill. The last named unit is under construction and is necessary to the profitable operation of the factory.

Many Gresham people have extended financial aid to the company and Mr. Zweibel is assured of the confidence of the business people of this locality. It is expected the plant will be in operation soon on a large scale as many orders are on hand and others are available for a long capacity operation. No plea was made last night for financial assistance but it is known that the company could greatly hasten its completion if its available capital were augmented.

Gresham's newest industry, a tire factory, was sprung as a surprise at last night's meeting.

Gottlieb Fudicker has installed an auto tire machine at his place on South Roberts avenue and has made several fabric tires but yesterday he produced a perfect cord tire, size 30 x 3 1/2, named the "Gresham," and having a "G" tread, making a perfect non-skid tread. This was claimed to be the first cord tire made on the Pacific Coast, at any rate by this process.

The tire was shown last night, having been completed during yesterday afternoon. Mr. Fudicker claimed the distinction of having made also the second one, a perfect cord tire, which he said was completed about 7 o'clock last night. He can make several tires a day and by adding additional molds can increase his capacity many fold. He expects, as demand warrants, to make all standard sizes.

The process is known as the IXL system and is furnished by the Oregon Rubber & Tire Manufacturing company of Portland. The company was represented last night by P. A. Lambert and Mr. Turel, and Mr. Fudicker was there with the goods to show. The tire bears the imprint, "Made in Gresham." It has the anchor or bead and is airbag cured. It has other features used in its manufacture which are said to make it the equal if not the superior of the standard cord tires.

At the conclusion of the meeting a resolution was voted welcoming and endorsing these new enterprises and promising on the part of the business men of Gresham all possible encouragement and support.

It is felt that Gresham people have much to learn of the enterprises being carried on here and once they inform themselves of the possibilities and prospects of this locality in an industrial way they will be enthusiastic and loyal in their support.

Tickets for the "World's Dinner" on sale at Gresham Drug store, and Davidson's store. An eight-course dinner, eight entertainments, a ride in a bus, and a delightful social time, all for one half the price of a theater ticket. Are you coming? Of course you are!—Adv.

### HOME BENEFIT DINNER WILL DRAW CROWDS

Great interest is being taken in the plans for the 8-course dinner with the accompanying entertainments which will be given by the local W. C. T. U. for the benefit of the Children's Farm Home at Corvallis.

Much mystery surrounds the plans, which are known only to those who are directing the affair. It is certain, however, that eight homes in or near Gresham will be transformed by suitable decorations into homes representing that many nations. In each of those homes a course of the dinner will be served, which will be accompanied by entertainment characteristic of the country represented.

The following young ladies, though not natives, will wield the scepter in the various countries: France, Marie Tacheron; Sweden, Marjan Hagberg; Italy, Letitia Pulfer; Japan, Kate Mossman; Ireland, Gladys Harmon; Russia, Norma Lee Peck; Switzerland, Anna Brugger; U. S. A., Esther Gardner.

Miss Tacheron will have charge of the ticket sales and Wm. Fritz of transportation. Gresham library will be the point of departure for the trip, busses leaving from there every 15 minutes, commencing at 5:45. There will be no extra charge for transportation.

Tickets should be secured early for the convenience of those preparing the dinner.

All are requested to come dressed for traveling and to be prepared for any weather.

### Local Contractor Has Portland Job.

Work commenced today on the construction by Claude Stockton, local contractor, of a store building at 47th and Belmont streets, Portland. The building will be of hollow tile construction. Gresham men who are assisting Mr. Stockton are his brother Lodie, Jeph. and Bill Robertson, Jackson Jones, Fred Fieldhouse and Bill Peterson.

All Queen Esther members who have clothing and food to give to the poor are asked to leave it at the home of Mrs. Anna Hevel this week so it can be taken to the Portland Settlement Center.

### BAPTIST MISSIONARY VISITS GRESHAM

A small gathering of people were at the Bethel Baptist church Monday evening to hear Miss Helen Hobart of San Francisco, California, of work being done in the mission. She dwelt principally on the work being done in the home fields, but she also mentioned the work in the foreign fields. Her talk was so beneficial that it is to be regretted that more did not hear her.

One of the surprising facts told by Miss Hobart was of the wave of christianity now going through Russia. Russia is welcoming it with open arms.

Miss Hobart has the wonderful gift of making her hearers see the things she is describing. She took her hearers with her throughout the United States. The visit to Ellis Island where immigrants are received was especially interesting. Here, it is said the foreign speaking people are hungry to hear a few words of the English language spoken and will gladly listen to a talk on christianity.

The purpose of Miss Hobart's travels from place to place is to increase the interest of the young people in the World Wide Guild. One of the purposes of this organization is to help support missionaries in the home and foreign fields. A guild rally will be held at the White Temple church in Portland next Friday evening.

### CAMP FIRE GIRLS HOLD CANDY SALE

The O'You Camp Fire girls had a candy sale Saturday, which was a success. The girls are starting their year's work with their new guardian, Miss Florence Honey. Most of them are ready to take the second rank of fire maker.

During the paper drive recently, the Gresham girls ranked among the highest in the amount of paper collected.

Although there are only eight in the organization, they have many good times together along with their work.

Milk Records. Milk report blanks now for sale cheap at the Outlook office.

### COUNTY COUNCIL HEARS OF BETTER PICTURES

The County Council of Parent Teacher associations met last Saturday at the Pleasant Valley grange hall. The meeting was to have been held at the schoolhouse but it was decided to meet at the grange hall instead. The principal part of the session was taken up with the discussion of good pictures for the school rooms. Miss Dunlap of Portland spoke for Mrs. Elliott King on a traveling picture expedition which is enjoyed by the children of the city schools. This expedition is supplied with a collection of some of the better pictures or prints of these pictures and taken from school to school, stopping long enough at each school to enable the school children to see the pictures. Miss Dunlap has charge of this work. She commented on the enthusiasm manifested by the children when this expedition arrives at the school. The children are all eager to have it come and show much interest in the pictures. Miss Dunlap ended her talk by advising those in charge of purchasing pictures for the school not to buy too hastily and to be sure and have enough funds for good pictures.

Another interesting talk was given by Mrs. Marsh from the Portland city council. She represented Mrs. Emmons who was unable to be present. Mrs. Marsh talked on the Beautification of Rural Schools.

Mrs. Lou Harlow, president of the County Council, presided at the meeting Saturday. She called for a report of the various local organizations to tell what activities had been engaged in during the past two months. Those who reported were Mrs. Hultz, president of Buckley school Parent-Teacher association; Mrs. Christensen, Russellville president; Mrs. Taylor, Pleasant Valley vice president; Mrs. Willard Cook, Lynch president; Mrs. Smith, Riverdale president and Mrs. Hoek, Gilbert president.

State Convention Very Beneficial. Mrs. Lou Harlow gave an interesting report on the state convention which was held last month at Eugene. The principal theme of the convention was the "Fundamental Rights of the Child." Some interesting speakers were heard. Mr. Howard, state Parent-Teacher association president, in an address, made the statement that children are better today than they were in the olden days. This information was gladly received by the ladies present. One of the features of the state convention was a thorough parliamentary drill. The convention was a success in every way and much credit should be given to those who had charge of it.

A piano solo by Mrs. Bliss was well received at last Saturday's meeting. A splendid dinner was served by the Pleasant Valley local association. Tables were set in the large dining room at the grange hall.

P.-T. A. May Give Entertainment. The County Council voted to give an entertainment at the last meeting which will be held some time in February. Each local organization will be expected to furnish two numbers. Mrs. Parsons, Mrs. Lou Harlow, Mrs. Willard Cook and Mrs. Hultz were chosen as a committee to have charge of the entertainment. The details will be arranged at the January meeting of the County Council.

February 17 is Founder's Day or the day on which the Parent-Teacher association was founded. The entertainment will be held as near Founder's day as possible.

The next meeting of the County Council will be held on the third Saturday in January. It has been suggested that the meeting place be in Portland. More particulars will be given later. Each woman who attends the next meeting is asked to equip herself with a card bearing her name and the name of the local association to which she belongs. This is according to a plan which has been adopted for the purpose of getting acquainted.

A verdict of acquittal was brought in by the jury in the case of the state vs. A. G. Gynup which was tried in Portland in the circuit court yesterday. Mr. Gynup was accused of assault with a dangerous weapon. N. G. Peterson was the injured party. Several Gresham men were called on the stand as witnesses.

World's Dinner Friday, November 24. Buy your tickets early for the convenience of the food committee.—Adv.

Say it the Want Ad way.

### EASTERN STAR BAZAAR IS SOCIAL EVENT

Those who had the honor of attending the bazaar and entertainment, held last Friday afternoon and evening in the Masonic hall under the auspices of the Gresham chapter of the Eastern Star, felt it to be time well spent. The occasion proved to be one of the larger social events of the year. The booths were prettily decorated at which candy, dolls of all description, fancy work, dainty hand made handkerchiefs, mysterious packages and vegetables were sold at separate booths. The pieces of fancy work were exquisitely done on the best kind of material and by skilled needle workers.

Some excellent music for the evening was furnished by the Union High school orchestra. The yodeling songs by the Luscher brothers' quartet accompanied by Miss Rosalie Luscher at the piano was well received. The members of the Gresham grade school Girls' Glee club made a charming picture as they danced on the stage in special costume. Miss Doris Bailey accompanied the glee club with a solo dance in her usual graceful manner. Mrs. E. D. Raker was the accompanist.

A sermon by Elder Eatmore of Tennessee who is known in real life as Wm. Congdon made a hit. He was supported by another colored gentleman whom the audience recognized as H. L. St. Clair.

Mrs. Richard Neubauer gave a splendid imitation of a small girl and did so well that she was called back twice. Members from the Union High school girls' double quartet gave an excellent musical number.

The guests of the evening came arrayed in their Sunday best. The lady was daintily gowned and slipped in a style that was so old fashioned that it became the latest creation from Paris. The gentleman looked the part of a clown and entertained the public by acting like one. After much scrutiny the audience recognized him as J. H. Sterling. The lady, who by the way was envied by the ladies present for having such small feet, was none other than the man who welcomes visitors at the grade school, C. M. Quicksall. The odd couple were welcome visitors at the bazaar.

Judge G. W. Stapleton was asked to take charge of the program and the auctioneering off of the remaining articles not sold. It is expected the proceeds from the bazaar after all of the bills have been paid will be over \$200.

### ROADS AND DEVELOPMENT.

While the calamity howlers are enjoying themselves in other parts of the country, the south is making strides in seven-league boots, laying the surest foundation for future development—good roads.

North Carolina has voted \$75,000,000. Alabama \$5,000,000.

South Carolina is trying to get through an expenditure of \$50,000,000 for road work.

Florida tackled the job by counties. Hillsboro county voted \$3,000,000. Duval county voted \$3,000,000, and now enterprising business men are asking \$5,000,000 to build roads and link up the county system.

Tennessee is voting on a \$75,000,000 bond issue, and has spent \$83,000 in the last few months.

Georgia increased its funds \$750,000. Kentucky has contracts estimated at \$900,000. Louisiana \$932,000, and Mississippi \$844,000.

Good roads spell prosperity in capital letters. The trivial amount of extra taxation involved is not worthy of consideration spread out as it always is over so many years.

### HOLIDAY OUTLOOK.

The Outlook has begun preparations for its annual holiday number to be issued on or about December 15.

Last year the holiday issue of the Outlook ran up to 20 pages and it is probable this year's issue will be as large.

As usual it will have a beautiful Christmas cover page printed in colors. Santa's latest portrait, and all his up-to-date methods of distributing holiday cheer, will be fully illustrated.

The Outlook has received a wireless from Aurora Borealis broadcasting station in the far north that Santa Claus has a warm place in his generous old heart for boys and girls of this locality and is making special preparations to please them. He has promised to announce in the holiday issue of the Outlook his agents and helpers in Gresham and vicinity.

Watch for it.

**AT THE GRESHAM PICTURE SHOW**

Wednesday and Thursday, November 22-23

**HARRY CAREY in  
MAN TO MAN**

gives you opportunity to see the greatest action ever offered in a genuine Western picture.
