

# Western Naphthenic Crude

## Best for Motor Oils

ZEROLENE, made from selected Western Naphthenic Base Crude, vacuum-distilled by our exclusive process, will increase your car's power and gasoline mileage by about 5% more than you can get when you use the average higher-priced oil.

In addition, your car will run from 25% to 50% farther before carbon-removing operations become necessary. Both these facts have been proved by repeated demonstrations in the laboratories of this Company and on the road.

Insist on Zerolene—even if it does cost half as much. Consult our Correct Lubrication Chart to determine the right body of Zerolene for your car.
