

GRESHAM CUTHBERTS ARE FAMOUS.

Quoting from a letter written by Alexander Crichton & Co., Liverpool, England, to Meinrath Corbaley Co., Seattle, Washington, they say: "Your opinion as to the quality of the Cuthbert Red Raspberries shipped by Gresham confirms what we have already said. They are equal to the best English Packs and the finest seen on these markets."

This is very gratifying to the management of the Berry Growers Packing company to have an admission from an English concern as quoted above. "Equal to the best English Packs," and the Berry Growers Packing company has adopted the trade mark, "BEST GOODS PACKED."

The Bank of Gresham pays 5 per cent interest on time deposits.—Adv.

State Farm Loans Available.

The State Land Board now has \$133,546 loaned in Multnomah county to 86 individuals on farms.

The rules of the State Land Board permit loans on farms only, and the maximum loan is one-third of the agricultural value of the land. The loans are distributed among the various counties and Multnomah county is entitled to a larger portion, but the loan applications have not been received from the farmers.

The State funds which are thus loaned are derived from the sale of State lands and the fund is known as the "Irreducible school fund." No commissions are charged for making the loans, and every effort is made by the Land Board to accommodate those wishing to use these funds.

The farmers of Multnomah county are apparently overlooking an opportunity of obtaining 6 per cent money from the state.

PLEASANT HOME

The men won the stewardship reading contest with a score of 25,955 against the women with a score of 24,355. Each point means about two pages of reading matter on stewardship, evangelism and missions. The ladies are to entertain the men with a feed some time early in June. Everyone who took part in the contest is to be invited.

Friday night, May 11, at 8 o'clock at the Methodist church, Pleasant Home, the play "Mice and Men" will be given by Mrs. Hugh Greuell of Portland and is a graduate of the Boston school of expression. This will be under the auspices of the Epworth League. A small admission will be charged.

A bunch of the Leaguers motored to Sandy last Sunday evening and acted as a choir for the services there. They are also planning to have a bonfire and wienie roast at Cedar Creek near Sandy in the near future.

Cultivation Saves Moisture.

The fact that moisture can be conserved when summer arrives by a thorough working of the soil in the spring has been learned by the most successful vegetable growers of the state. A fine top surface of the garden makes it easier for the seeder to operate and produce a uniform germination and later an even stand of plants. A fine surface soil also acts as a good dry mulch and is valuable when fertilizer is broadcasted before seeding or transplanting. The successful growth of many vegetables such as cabbage, cauliflower, broccoli, and tomatoes can invariably be traced to the thorough spring preparation of the soil as an important factor.—O. A. C. Experiment Station.

We have many kinds of plants and flowers. Some of them are, cabbage, cauliflower, tomatoes, head lettuce, also asters, marigold, ferns, zinnias, snapdragons and Charles Russell and Ophelia potted roses. 20th Century Grocery.—Adv.
