THE AMERICAN'S CREED.

I believe in the United States of America as

A government of the people, By the people, for the people; Whose just powers are derived From the consent of the governed; A democracy in a republic.

A Sovereign Nation of many States; A perfect Union, one and inseparable, Established upon those principles Of Freedom, Equality, Justice and Humanity.

For which American patriots sacrificed their lives and fortunes. I therefore believe it is my duty To my Country to love it, To support its Constitution, To obey its laws, To respect its flag

And to defend it against all enemies. Welcome rain.

Will quench the forest fires. Good for everything except fall fairs.

Luckily Gresham fair escaped the rainy season.

Uneasy rests the head that wears the executive hat these days.

The petition for the recall of Governor Pierce should be given the cold shoulder. A true friend is to be known not alone by the ordinary evidences of friendliness but also by the unexpected surprises that show thoughtfulness, good will and often self-sacrifice.

The constitution is a sacred instrument, and a sacred trust is given to us to see to it that its preservation in all its virtue and its vigor is passed on to the generations yet to come.—William McKinley.

The proposed Sellwood bridge would cost \$350,000, utilize steel from the old Burnside bridge, soon to be discarded, and would do away with the obsolete ferry with its slowness, dangers and expense.

Since 1920 the United States has become the greatest center of radio communication in the world, operating as many high power commercial stations as all other countries combined. This is a record of scientific achievement and business enterprise of which all citizens have reason to feel proud.

GOVERNORS AND THE KLAN.

While Governor Pierce was practically elected by the Klan vote and will doubtless defeat the effort to recall him, Governor Walton of Oklahoma is having the fight of his life against the Klan and has put the whole state under martial law in a determination to rid the state of what he considers Klan despotism and insurrection. In so doing he has incurred the condemnation of more than the Klan, has shown a despotic spirit, has misused his executive authority and an effort is being made to oust him from the governorship.

If there were a recall in Oklahoma it would doubtless be invoked against its governor with more reason than is calling the method into effect in Oregon.

THE BERKELEY FIRE.

A ten million dollar fire is no small affair, especially when hundreds of beautiful homes, modern stores and several university buildings are included in the path of destruction.

That such a destructive conflagration could gain the headway it did in Berkeley, with all kinds of modern fire apparatus available is inexplicable except that the high winds fanned the flames into a fury and made the efforts of fire-fighters unavailing. It is evident that with all ordinary precaution emergencies cannot always be met.

The minds of readers are diverted for a brief time from the more awful catastrophe in Japan to one in the home land which has rendered hundreds homeless and caused much suffering and loss of property.

OUR LUMBER RESOURCES.

Lumber affords the quickest and cheapest means of building. Lumber is our largest manufactured output. It must be and will be used extensively in the years to come. The mills cannot meet the present demand and more and larger mills are being built.

Nearly half the timber resources of the country are in the Pacific Northwest. What a position of importance then this section occupies in this great industry. How great is the need that we save our forests from fire and other profitless wastage and destruction.

It has been suggested that the teaching of the constitution of the United States should be required by law in every public school in the land. A thorough understanding of our own government its history, purposes and methods—is the best means of defeating destructive communistic influences.

A delegation of civil service reformers called on President Coolidge last week with a request that hereafter all appointments to office be made from those making the highest grades in scholastic examinations, regardless of their ability to fill the positions or their probable loyalty to the administration of which they would thus become a part. Why not fill the offices of the National Civil Service Reform League by the examination system in order that fit persons may hereafter be selected for these important positions? asks the National Republican.

Evidently the national civil service reform league is not without a sense of humor. It recommends to President Coolidge that "the burden" of 120,000 federal appointments be taken from the executive shoulders—that all postmasters be selected by civil service examinations. Surely a strange hour has been selected for such a recommendation.

A Way to Save Money Use Zerolene—a better oil even if it does cost less. Zerolene costs less than many other oils of inferior lubricating quality because of our excellent facilities for producing and distributing it in very large quantities to users on the Pacific Coast. We do not have to pay long-haul transportation and high merchandising costs to make it available. All that you pay for Zerolene goes to buy high quality only. Zerolene will reduce your carbon troubles and give you more mileage from your gasoline. It will reduce your upkeep cost, add years to the life of your car and give you greater satisfaction in driving. Insist on Zerolene—even if it does cost less.
