

YOUTH CAUGHT IN NET IS SENT TO MCNEIL ISLAND

Alan Matson, confessed automobile thief and worthless check artist, was sentenced in Federal Judge Bean's court last week to five years at McNeil Island.

Matson, who says his real name is Arthur Muller, is the one who signed worthless checks in Gresham with the name of A. L. Price. He was apprehended on an auto stealing charge. He explained to the officers that it was his custom to obtain an auto license in one state, then steal an auto that fitted the general description on the license, using the newly acquired license plates on the stolen car. Matson and his companion, J. B. Edgar, who received a five-year sentence a few days ago, escaped from officers on October 20, and while awaiting grand jury action stole several cars and passed a number of worthless checks among them the one given for feminine clothing at the L. A. Wack store in Gresham.

Matson visited the Aylsworth & Martin clothing store several times in company with another youth, and purchased articles, paying for them by check. Earl in November he ordered a suit for himself and offered his check in payment. On being told that a check would not be acceptable he said that he would get it cashed by a friend and bring in the money and claim the suit, but he did not return. On the same evening he passed the worthless check at the Wack store.

HI SCHOOL MUSICIANS TO GIVE "POP" PROGRAM

A "pop" program, which being interpreted is popular will be given at the high school gymnasium on Thursday evening, December 6, by the combined musical organizations of the high school, assisted by some local musicians. This will be the first opportunity of the year for the pupils to show to their parents and friends what is being accomplished in a musical line in the school, and it is anticipated that the building will be packed on that occasion.

The numbers will include the chorus of 60 voices accompanied by the U. H. orchestra, the Boys' and Girls' Glee, separately and together, special smaller groups of singers, combined groups and stunts.

No charge will be made for this fine evening's entertainment and it is expected that the patrons of the school will do their part in furnishing a good audience. The date in the school week is unusual, but it was necessary on account of the voters' meeting to be held in the schoolhouse on Friday night.

Dressmaking and Remodeling. Dressmaking of all descriptions, also remodeling of furs. Prices reasonable. Mrs. Richtmyer, Cleveland avenue, Gresham, phone 108.

Legion annual dance Thanksgiving eve.

Money to loan on real estate. Farm loans at 6 per cent. B. W. Thorne.

Laddies and Daddies Will Greet Each Other Masonic Hall, this Friday

Will we be there? Yeabo. Where? Masonic hall, Gresham. When? Friday night, this week. Why? Fathers and sons entertainment and luncheon.

No effort or expense is being spared to make the gathering of lads and dads next Friday evening a grand affair.

Provision is being made for about 400 heads, hearts and mouths. Nearly fifty dollars worth of eats have been ordered for hungry mouths and Phillip A. Parsons of the Portland Y. M. C. A. will be present to help feed the heads and hearts of both boys and men. There will be other interesting events.

All are invited to be at the hall at 7. At 7:30 a short, snappy program will be enjoyed. Later a bountiful lunch will be served. Games and sociability will follow.

This is a community affair and all fathers and sons of Gresham and vicinity are invited. Each boy come with a daddie, each dad come with one or more laddies. The younger as well as the older boys are invited.

J. H. L. MAYBEE DIES AT HIS HOME IN LENTS

J. H. L. Maybee, well known in this vicinity, died late last night at his home in Lents, aged 72 years. He has been a sufferer from diabetes for a number of years. He was father of Alf. Maybee of Gresham, Mrs. Alma Maroney of Sandy, Mrs. Lottie Forbes of Los Angeles and Lloyd Maybee of the family home. He is also survived by his wife, who is the daughter of Mr. and Mrs. J. Cline of Orient. Funeral arrangements have not yet been made.

IT'S NATIONAL CHAMPION DEMONSTRATION WEEK

The week of November 22 to 29 will be Champion demonstration week among Willys-Overland dealers, branches and distributors throughout the United States.

Willys-Overland, Inc. has set aside this period as a merchandising period when greatest stress would be laid upon this most versatile of all of its models, to mark the climax of the most successful year that Willys-Overland merchants have ever yet enjoyed.

For the first time since this new car was first announced early in October all of the 5000 dealers throughout the land have now been furnished with sample cars of this type. Factory production has been speeded up to such a point where it is adjudged to be nearly adequate to the demand. For the first time President John N. Willys and General Sales Manager L. G. Peed consider the circumstances in their dealer organization to be ripe for a universal effort to acquaint the motor car buying public with the many uses of this unique model.

No car that Willys-Overland has ever introduced has met with the spontaneous and immediate acclaim that greeted the Champion. While radically novel and fresh, yet it proved to be the type of motor car that many have longed for and hoped for. It probably is the most divergently useful car ever brought out. Its front and rear seats can be easily and quickly adjusted to three different positions, permitting a tall driver to manipulate foot pedals without cramping of legs. By the same token a short driver can adjust the driver's seat so that he can easily reach the pedals. Rear seat can also be moved forward or back to accommodate the convenience of the passengers.

The car's most remarkable characteristic, however, is that both front and rear seats and upholstery can be entirely removed and made up into a luxurious bed right in the car, a feature that will prove invaluable to tourists and campers.

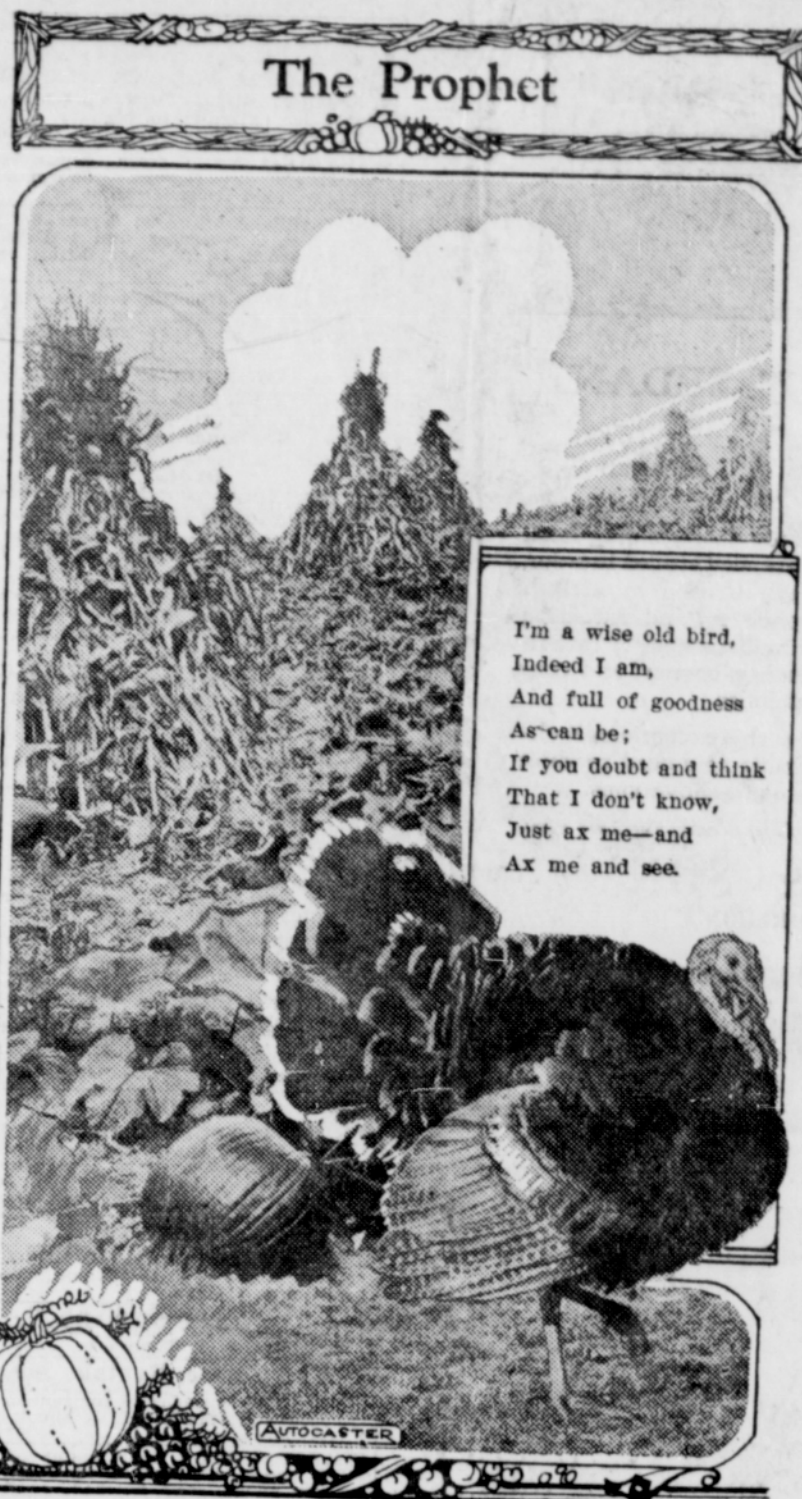

With rear seat and upholstery removed 50 cubic feet of space for salesman's samples, suit cases, trunks and luggage, farm tools, produce and supplies, camp duffle and other equipment that it might be necessary to transport, all of which can easily be loaded into this compartment.

The entire week will be devoted by the Willys-Overland dealer organization to a thorough display and demonstration of this car's many uses.

Bazaar and Dinner.

The Ladies' Aid society will hold a bazaar at the Pleasant Home Baptist church on Friday, December 7. Chicken dinner will be served from 5:30 to 8 p. m. The patronage of the public is solicited. Sales will begin at 8 p. m.—Adv.

You can buy a wonderful apple in a New York Fifth avenue shop for 25 cents.

Manager Towle Wants Important Information

D. E. Towle, manager of the Berry Growers Packing company is preparing the way for another successful season for the products grown by the members and handled by the company. Mr. Towle is starting early, but not too early, to advise and direct and encourage, with the best interests of the members of the company ever uppermost. The subject of his latest communication is strawberries. In connection with this attention is called to Mr. Frank's article on the root weevil, which will appear in next issue.

Mr. Towle says:

"It is very important that your management be given the best guess, or estimate, you can make of your acreage of the different kinds of berries you grow, so we can enter the market early and sell for delivery next harvest. We want you to give a fair conservative estimate, based on the present condition of your vines and canes and it is very important that we get this information by return mail. So we will look for a prompt response to this request.

"We have inquiries for barreled berries already, so your prompt return of your report will help us to decide what we should do on sales. In making your return use the attached form and give the age of the acreage of each kind of fruit and your estimate of the probable tons. It would be interesting to know to what extent the

strawberry weevil is working. The writer saw a five-acre field, owned by one of our members, in which the three-year old plants showed spots here and there where the leaves were a bright red color. These were Gold Dollar plants and on examination we found the weevils were working on the plants that had turned red, while the rest of the plants were still green. We found the roots of the infested plants were eaten off by the weevil maggot, and the plants were putting out new root systems. This is a very grave menace to strawberry growing. The writer believes that the plan of allowing the hens to run in the berries during the year, except the ripening season, is a very beneficial way to keep down insect pests of all kinds and the hens are benefited also, and, where it is possible, the pasturing of 50 chickens to the acre would help the berry crop, and if you bought your grain feed at wholesale (which you can do) you could make a nice profit on your poultry. Why not arrange to do this and have a basket with real eggs in it?"

"The November number of Western Fruit has an article on the strawberry root weevil, by Arthur Frank, of Puyallup, Washington, that we think has some merit and we will ask the Outlook to reprint it, and will suggest that you keep this article as well as the gooseberry article of last week for reference. Please do not fail to return your report of acreage and estimated tonnage of berries, using the blank found elsewhere in this paper."

Information Wanted from Berry Growers

Please fill out this blank, cut it out and mail promptly to the Berry Growers Packing Company, D. E. Towle, Manager, Gresham, Oregon.

	Acres	Acres	Estimate

DRUNK AUTO DRIVER GETS MAXIMUM FINE

The maximum fine of \$50 under the city ordinance, and the suspension of his driver's license for a period of 30 days was the penalty paid by Jacob Schreiner of Portland, who was picked up in Gresham on Sunday, charged with driving while intoxicated. He was locked up in the city jail and his car held by the authorities but was later released on \$25 cash bail. It was charged that the drunk man crowded several cars off the road in driving from Portland to Gresham.

DRAMATIC ARTIST TO APPEAR IN GRESHAM

Miss Dorothy Rossman of Portland, who has been secured to give readings at the program in connection with the Methodist Ladies' Aid annual dinner and bazaar on Wednesday evening, December 5, is a young artist of unusual promise and one who is giving earnest study to her profession. She has taken special work in expression at the University of California and Reed College and has studied with Miss Nina Greathouse of Portland for four years. She plans to study still further in the east near the source of the American standard.

Miss Rossman recently took part in the dramatization of "Ruth and Naomi," which the Syrian princess, Rahme Harder, presented to Portland audiences during her short visit. She is now preparing for a Christmas entertainment to be given by the Children of the American Revolution, where the children take the leading part.

TUDOR SEDAN IS NEW TYPE OF FORD CAR

The Ford Motor company has just announced an addition to its line of cars—the Tudor Sedan which brings to the public an entirely new style of Ford enclosed body.

It is a distinctive type designed to carry five passengers in complete comfort. The roof line is low and straight which with the larger radiator, now standard on all Ford cars, gave Ford designers an opportunity of effecting most graceful lines and at the same time a most sturdy construction.

Besides its general appeal and high quality aspect, the Tudor Sedan has several new features which promise to win immediate favor.

The two doors are unusually wide, 28 1/2 inches to be exact, and are set at the front of the car, hung in exceptionally heavy frames and swing open forward on either side in line with the driver's seat.

Side windows running back from the doors are oblong in shape and 32 inches in length, affording unusual vision to the occupants, while a large rear window adds to the visibility. All window glasses are lowered flush with the framing, affording clear vision and the maximum in ventilation.

Exterior appearance is enhanced by a windshield visor, cowl ventilator and secure rear fenders of new design.

Interior arrangement of the Tudor Sedan meets all comfort requirements both for driver and passengers. The driver's seat is of the "bucket" design, with easy cushion and back, assuring restful posture. There is a noticeable roominess in front with plenty of foot room. The tilting seat opposite the driver folds compactly out of the way so that entrance and exit through the large and roomy door is easily and conveniently effected by those occupying the rear seat which is amply large for three persons.

Because of the location of the door the driver has convenient access to his seat without folding up the extra seat along side. The gasoline tank is located under the driver's seat making it unnecessary for him to disturb any other passengers when filling the tank.

Interior fittings are attractive. The upholstery is in special Ford fabric of dark brown with floor rug to match. Both the doors and side windows have been equipped with revolving type window regulators of the same design as those used in cars of much higher price.

The Tudor Sedan, which is now in production, is priced at \$599 at Detroit.

"Most Eventful, Bountiful, Wonderful Period in History"

If anyone is doubtful as to reasons for thanksgiving, he will find much to quicken his thought and cheer his heart in the proclamation of Governor Pierce. "These beautiful autumn days remind us," reads the proclamation, "that, conforming to the custom of our fathers, we should set apart a day of thanksgiving and prayer to Almighty God for blessings bountifully bestowed." The proclamation continues:

The past year has been one of exceptional prosperity for many. Our neighbors on every side have bought freely of timber, which is our greatest natural resource. Crops of all kinds have been more bountiful than ever. Our flocks have yielded an abundant return. Practically everybody could find work at remunerative wages.

Respect for law and order during the past year has vastly improved in our beloved state. A great moral awakening is taking place. Officials who have sworn to uphold the constitution and the law have come to realize that the 18th amendment is a part of the constitution of the United States, the fundamental law of our land.

The abundance of our crops, fruit, grain, vegetables and grass have been far more than sufficient for our people. Freely we have supplied from our overflowing granaries, flocks and orchards for those less fortunate. God

WATER DISTRICTS WILL HOLD THEIR ANNUAL ELECTIONS

The regular annual elections of all water districts in the county will be held in various districts on Monday, December 3. There are eleven water districts in Multnomah county—Maplewood, Gilbert, Sylvan, Bertha, Powell Valley road, Powell Valley No. 2, Capital Highway, Valley View, Palatine Hill and Rockwood. There are two in Washington county—Garden Home and West Slope, and one in Clackamas county—Oakledge.

These districts are all adjacent to the city of Portland and are an indication of the rapid expansion of the city's growth.

Those nearest Gresham are Gilbert, Powell Valley Road, Powell Valley No. 2 and Rockwood.

The election in Gilbert Water District will be held at Gilbert schoolhouse. Lloyd H. French, chairman, is a candidate for re-election. Lloyd E. Lancefield is also a candidate.

In Powell Valley Road Water District the election will be held at Moll's store, corner of Buckley avenue and Powell Valley road. W. C. Lawrence, chairman, is a candidate for re-election. There are no other nominations.

In Powell Valley Water District No. 2, the election will be held at Powell Valley schoolhouse. August Peterson, secretary, declined to become a candidate and John Williams has been nominated.

In Rockwood Water District the election will be held at Rockwood Grange hall. George E. Barr, treasurer, is the retiring commissioner. Mr. Barr has declined to accept the nomination and Fred H. Crane has been nominated for the commissionership.

SCAPPOOSE BESTED ON SLOPPY FIELD

In an exciting game last Friday, played in a sea of mud, the fast Gresham high school team defeated the heavier Scappoose team 13 to 12. The game was a see-saw affair with Scappoose making the first touchdown in about six minutes after the starting whistle and it was anybody's game until the final whistle. Gresham came back in the first and third quarters and registered two touchdowns and one goal point. In the final quarter Scappoose shoved over another touchdown but were unable to convert the goal, making the score Gresham 13-Scappoose 12. The game ended with the ball in the middle of the field.

Gresham, while outweighed several pounds to the man, had the advantage with their lighter weight on the muddy field. Several times when a player was tackled he would slide several yards. The line has improved noticeably and held like a stone wall. Schenk and Lunday made long gains around ends and through tackles. Chalke, freshman backfield man, played a stellar game and bears promise of developing into a real star with three more years in which to play.

The last game of the season will be played Thanksgiving day on Stapleton field when the high school will lock horns with the Woodburn bull dogs. This game promises to be the real event of the year as the Gresham boys are all hopped up since the Scappoose affair and having suffered a 7-0 defeat at the hands of Woodburn this year they want to wipe out the sting of that defeat.

The student body will be on hand en masse and promise some real yells and pep. Let's make it a day on which to be thankful by seeing this last and best game of the year. The game starts promptly at 1 p. m., takes only an hour and a half and gives you time to get home and enjoy the big fat turkey dinner. It will be some appetizer. Remember, 1 p. m., Stapleton field, Gresham vs. Woodburn. Let's all be there.

Storage battery repairing and recharging, starter and generator work. Baker & Son.

has certainly supplied an abundance. Whatever failure has been is the result of unequal distribution which is man-made.

The people of Oregon are indeed grateful for the blessings showered during the years gone.

I, Walter M. Pierce governor of Oregon, therefore, do proclaim and declare Thursday, November 29 A. D., 1923, as a day of thanksgiving and prayer, and I further recommend that the people of this great commonwealth assemble in their accustomed places of worship to give thanks for all the blessings and pleasures that we enjoy.

We should ever remember and be ever thankful for the fact that we are living in the most eventful, the most bountiful, the most wonderful period of human history. We are just beginning to discover the secrets of nature that have been locked up for so many centuries. The deeper we penetrate into the mysteries of nature the more firmly are we convinced that there is a divine hand governing, guiding and shaping all human effort.

On this Thanksgiving day let everyone make a new allegiance to the divine ruler that in every way possible we will do everything in our power to keep unimpaired all the freedom and the blessings that we have and enjoy and do everything in our power to give them to our children, unimpaired, so that they may have and enjoy the fruits of the most bountiful land and the most beneficent government that ever existed.
