MY BEST RESOLVE.

I am resolved to live a clean, useful, happy life; to do not better but my best; to be fair, charitable and forgiving to all; to be industrious, energetic and thrifty; to make all I can honestly that I may have the more to use beneficently; to practice the simple rules of health; to find joy in my work; to take all the healthful recreation I can; to apply the Golden Rule in all my conduct; to love God and my fellow man.

A HARDING MEMORIAL.

There should be generous response to the call for donations to the Harding memorial fund which is to be used in acquiring the Harding home, establishing a chair in some university devoted to statesmanship and international law and the building of a suitable monument to hold the remains of the late president.

The enterprise calls for \$3,000,000, \$50,000 of which is requested from Oregon. Voluntary contributions are asked for and especially the smaller amounts from the many are desired. The movement is non-partisan.

Contributions may be sent to B. F. Mulkey, state chairman of the Harding Memorial association for the state of Oregon, Suite 403 Corbett Building, Portland, Oregon, or they may be sent direct to headquarters at 1414 F Street N. W., Washington, D. C.

Between the 6th and 16th of January, 1924, a drive will be made in the several counties of this state to secure the funds, but meanwhile, and during that time, it is hoped that a large number of people will respond of their own initiative.

Gov. Walter M. Pierce is taking an active interest in this Harding Memorial enterprise, and has issued a proclamation calling upon the various churches of the state to say something commendatory to this movement on Sunday, January 6th.

Write it 1924. Women have their Innings. Little 1924 appears to be a healthy kid.

Politically the new year will be an eventful one.

Most people will profit more by "swearing on" than "swearing off."

Auspicious as the advent of 1924 thoughtful people consider his course is beset with dangers.

What 1923 has accomplished makes a long list. What 1924 ought to see accomplished would make a longer list.

Timely Comments

By Arthur Brisbane.

This is a growing country, and business grows much faster than the population. In 1900 the population was 76,000,000. It has grown to 110,000,000 in 23 years, about 45 per cent, not bad.

But consider steel. In 1900 this country produced 10,000,000 tons in a year. Now it produces 40,000,000 tons, an increase of 300 per cent.

If you sell this country "short" you'll lose. And don't listen to any talk about "a bad presidential year." Prepare for good times, in the words of the distinguished optimist, Mr. Uppercott, "expect great things."

Wake up, Henry Ford, and get to work on cheap, safe flying machines. They are selling them in Germany, all metal, safe, doing 60 miles an hour, less than a gallon of gas for 60 miles—price \$1,190.

Farmers, salesmen buy the machines by thousands. Ford could sell them for \$500. America needs them. Texas especially. Where is the young Ford to do for America in the air what Ford has done on earth?

The "three estates" of olden time, a trinity ruling all earth's affairs were Royalty, Nobility, Clergy.

Journalism was recognized, in a condescending way, as "the fourth-estate."

John Galsworthy, writing for the London Times about fair play in international thought, says that the three estates now ruling mankind are Science, Finance and the Press.

Of the three, science is incomparably greatest. Newspapers come next, finance third. Newspapers can overrule all the power of finance if the newspaper happen to be in the right. Newspapers and finance combined can do nothing against science, except postpone its benefits.
