LEGION O. N. G. GAME PROMISES LIVELY TIME

A real battle will be staged in the high school gymnasium Saturday evening at 7:30 when the American Legion tosses meet the new team of the Hdqrs. Co. O. N. G.

Keen rivalry is evidenced in the coming game. Two of the old legion players, Fancher and Greenman, are now with the guard team as they are guardsmen.

Ernest Brugger, manager of the Legion team, states that his bunch is out for blood, while Captain Fancher of the Guard team, in a modest way, says if there is any blood spilled it will have to come from the other side, so with the interest that is being shown by the two organizations, basket ball followers can look for a real contest.

Double Header Basket Ball.

A double header basket ball game will be played Wednesday night, January 16, at the high school gymnasium, when the American Legion team and the Maroon F. of Portland will contend, and the Midgets of the Union High school will play a light weight team from Portland.

POPULAR CLUB AGENT MARRIED LAST NIGHT

At a quiet wedding performed at the home of the bride's parents, Mr. and Mrs. R. W. Calkins, Miss Ethel Calkins last night became the bride of Lewis Shanley. The ceremony was performed by the Rev. A. S. Hisey in the presence of the immediate members of the family and a few close friends, after which a reception was held, at which large numbers of friends from all parts of the county and Portland were present.

The bride was gowned in dark blue Georgette crepe. The house was lighted with blue candles and yellow flowers and greenery completed the decorations.

A buffet luncheon of ice cream and cake was served the guests following the ceremony. Club girls with whom Miss Calkins had been associated were prominent in the serving. Those who cut the cake and served the ices were Miss Wilma Chase, Miss Helen Hisey and Miss Helen Althaus.

An unusually fine display of gifts was shown, including a great variety of articles. One of the most striking was a hammered brass tray-presented by the mother of the groom. This had been given her husband in 1882 in Alexandria, Egypt, in recognition of service rendered the government at the siege of that city, by an officer of high rank.

Mr. and Mrs. Shanley expect to go soon to California, where they will look the country over and may make their home.

It is therefore the unanimous opinion of the Jury that of the 22,165 plans submitted, Plan Number 1469 is "the best practicable plan by which the United States may cooperate with other nations to achieve and preserve the peace of the world."

EMINENT EXPLORER TO LECTURE IN PORTLAND

Vilhjalmur Stefansson, foremost Arctic explorer of modern times, has been secured to lecture at the public auditorium in Portland on January 23 at 8:15 p. m., under the auspices of the Portland Grade Teachers' association.

When Vilhalmur Stefansson started his third polar expedition in 1913, the world stood aghast, for he departed bearing a theory and purpose so radical as to be pronounced insane by many of the best grounded experts.

He was going into the wilderness of the Northland to live off the country! He was going to find food in places where food had been announced by the Encyclopedia Britannica to be "without animal life."

He found a mutiny on his hands; dissension and resistance,—but through it all he held to his purpose and in the end he won out. Stefansson proved this theory and remained in the Arctic for five years.

Born of Icelandic parents in Manitoba, Canada, Stefansson came to the United States as a child and was brought up on the prairies of North Dakota. In 1903 he received from the University of Iowa the degree of A. B., after which he went to Cambridge for post-graduate work at Harvard University.

In 1906 he turned from teaching to exploring, and joined the Leffingwell-Mikkelsen expedition to the Arctic Ocean, where they spent one winter. Again in 1908 Stefansson went north to study the Eskimos, this time heading his own expedition. Because of his discoveries of land, because of his studies of the Eskimos, and because of the application of new ideas and new methods of exploration, Stefansson is now considered the foremost polar explorer of the present day.

Since his return in 1918 the geographical societies of the world have recognized his contribution to science by conferring on him their highest honors. He has been elected an Honorary Fellow of the American Museum of Natural History of New York and of the Italian Geographical society.

Stefansson is a brilliant and successful writer and is the author of four books and many magazine articles. His lectures are not only instructive but entertaining. A reporter on the New Orleans Picayune wrote into his account of Stefansson's appearance there that he had laughed as wholeheartedly, and quite unexpectedly, as he had at a lecture given by Irvin Cobb.

CITY COUNCIL HOLDS STRENUOUS SESSION

The Gresham city council met Wednesday night for the regular monthly council meeting, it being an adjourned meeting from January 1. All members and officers were present except Councilman Hammar who is out of the city.

L. C. Kelsey, consulting engineer, who supervised the recent extensions of the water system, was present and presented matters of interest to the council.

Mr. Gates of the Hillsboro Power & Investment company, from which concern the pipe was purchased, explained the reason for some difficulties which had been encountered with the newly laid pipe and offered suggestions and assistance. On clearing up these matters the council allowed the claims of each.

The fact was brought out incidentally that the total expense of the recent water extensions to the water system had cost the city \$20,829.36. The bond issue was for \$20,000. The contract price for material and work, which was supervised by Mr. Kelsey was \$19,406.09, the engineer receiving 4 1/2 per cent on this amount, or \$873.27.

A bill was presented by Mr. Brunner for laying pipe which bill failed to get the okeh of the finance committee and was laid on the table.

As the handling of the water bills, looking after delinquents, fines, etc., had become too burdensome to be handled by the bank gratis, J. H. Metzger, city treasurer, made a proposition that he would act as collector of water rents, fines, etc., keeping all accounts and records of same for a commission of five per cent on all amounts collected for the water department and waive his present salary of \$7.50 per month from the water fund. Mr. Metzger's offer was accepted.

New lights were ordered installed on Liberty street, two blocks north of Powell and on Powell near Liberty.

An ordinance was presented, prepared by the Portland water board and embodying a contract with the said board recently signed by the council. It also provided that the city of Gresham should within a short time construct a storage reservoir for a three days' reserve supply. The ordinance, however, appeared to raise certain complications and it was taken under advisement until a future meeting.

The following bills were allowed and ordered paid.

Table with 2 columns: Name and Amount. Includes L. C. Kelsey, balance on engineering \$230.87, Hillsboro Power & Investment Co., pipe 666.50, Crane & Co., supplies 65.47, Investors Syndicate, sinking fund 157.50, P. R. L. & P. C. P. Tallman was present and called the attention of the council to what he considered a deficiency in the recently passed milk ordinance. While providing for sanitary conditions no requirement was made for test of milk as to bacterial content. The council took the matter under advisement.
