Money in the stock market was cheap last week. You could borrow it at 4 per cent if you wanted to speculate in stocks. It cost a little more if you wanted it for some slower, duller business. The stock market went up and down like the pulse of a nervous lady expecting a proposal. Gentlemen that are gambling (or as they would prefer to put it, "investing") don't quite know what is going to happen with General Dawes in Paris and the Labor party in the House of Parliament.

There was some comfort for the farmers, corn and oats going to new high prices for the season. Of course, the new high prices come, as usual, after nearly all the farmers have sold their corn and oats.
