**GOOD SEED POTATOES PRODUCE BETTER CROP**

Boring, Ore., Feb. 6, 1924.—Editor Outlook:—For years this community has had the distinction of being among the best potato producing sections near Portland. But last year the crop was not very big, nor the tubers very large, but the tubers seem to be more uniform in size and smoother than in previous years. This is accounted for by the fact, that farmers are selecting their seed more carefully or buying better seed stock than formerly.  
What proper seed selection will do was demonstrated on Rodlun brothers' farm. Louis Rodlun, who has charge of the potatoes, got some local seed, which heretofore was considered well selected stock. But as an experiment he also invested in some of Roland Shedeens' prize potatoes, which all but passed certification the previous year. The difference between the two strains was quite striking, and in favor of the Shedeens' seed, which had not only more and larger tubers, but also of more uniform size, smoother, and the stand was much better. The Rodluns are convinced beyond a doubt, that good seed pays well.  
Crops were not very good, and the prices offered are not in proportion to what it costs to live. Many farmers have told the writer, that they would feel contented, if they broke even; but as it is, ends cannot be made to meet. During the war, the slogan was coined: "A good living and ten per cent for the farmer." Now they take the farmers living and ten per cent besides.

**Clear YOUR Stump Land at Lower Cost**

**BEFORE** explosives were used on the farm, clearing land was heavy, costly work. Today, stumping can be done at a much lower cost.

Many ranchers in this section are using Pacific Stumping, the du Pont explosive, for clearing their stump land for profitable crops. Pacific Stumping does the job at lower expense and does it right. Pacific Stumping gives you one-half more sticks per dollar—about the same strength, stick for stick, as any standard stumping powder. It is non-freezing and won't give you a headache from handling.

We carry complete stocks of Pacific Stumping and other du Pont dynamites—recognized as standard wherever explosives are used. Let us estimate on the cost of clearing some of your stump land.

**Boring M. E. Church.**

The meetings being held every night at the church are increasing in attendance and interest. The messages delivered by Rev. A. S. Hisey are timely and helpful. These meetings are a challenge to the community to cooperate with the institution without which no community can long prosper in the best way—a challenge to take up the banner of righteousness and go forward. Announcement will be made Sunday evening by the pastor, Rev. E. G. Ranton, whether there will be meetings next week. There will be no meeting Saturday night.

The Sunday services are of special importance. The Sunday school will meet at 10 a. m. followed by preaching by Rev. A. S. Hisey at 11 a. m. At 7:30 p. m. the Epworth League of Pleasant Home will join with the Boring young people in a rousing young people's service. Six young people of Willamette university who can sing and speak in an acceptable manner will have charge of the church service at 8:30.

All Boring young people who are interested in the Epworth League are
