FAIRVIEW WOMAN HAS BIRTHDAY SURPRISE

A very enjoyable surprise birthday shower was given for Mrs. G. O. Dolph by her daughter, Mrs. Laura Spicer, 1111 E. Market street, Portland, Friday afternoon, February 8. Among the guests were some of the friends of Mrs. Dolph from Fairview, a number formerly of that place who now reside in Portland, as well as quite a number of friends and relatives of the family who reside in the city. These were nearly yall assembled when Mrs. Dolph and her daughter Mrs. Pearl Jenkins of Oak Grove arrived, so the surprise was complete.

Mrs. Dolph was presented with numerous articles, both useful and ornamental, and those present expressed good wishes and a desire that she might enjoy many more birthdays.

The friendly visiting was interspersed with radio selections and a guessing game.

The rooms were very prettily decorated in lavender and yellow. A delicious luncheon was served and all present expressed themselves as having greatly enjoyed the occasion.

NEAR EAST WORKER TELLS OF WHOLE FAMILIES LOST

I think the people of Oregon will be better able to visualize the situation in the Near East," writes Mrs. W. E. Rambo of Portland, formerly of Baker, who for two years was in relief work in Asia Minor. "Since the tragedy at Albany where three whole families were wiped out it may be easier to understand many of the experiences through which the people of the Near East have gone these last few years."

"When we sailed for the Near East in 1919 one of our shipmates was a young Armenian who had lived in America the preceding six years. He had worked hard and saved his money, hoping to bring over his two sisters. He had not heard from them for several months, nor from any other of his relatives, and in desperation he was going over to hunt them up. We separated in Constantinople. Two going months later we met him at Adna, in Asia Minor. He told us he had been to the old home and other villages where relatives had lived but no trace could be found of any of his 75 relatives, near and distant. He was making his way back to America alone."

"This case which came under our personal observation could be duplicated literally thousands of times in the Near East where whole families were wiped out, not even one survivor remaining. Although this was in 1919 when the war was supposed to be over, yet fighting continued through the Near East between the Greeks and Turks until about a year ago, with such scenes of horror being enacted all the time. Beginning with the burning of Smyrna 15 months ago and continuing down to date, the Turks are employing a policy of literally driving out all the Christians and more than a million people are homeless in Greece today. At least 700,000 have been unable to find any work and are totally dependent, although many of them were wealthy or were artisans, tradesmen, professional and business men accustomed to support themselves in their home country."

"I well realize that to the person who has spent all his life in this country where justice, peace and tranquility are the every day commonplaces it is almost impossible to picture this situation and it is not an unusual thing for people to say that the reports from the Near East must be exaggerated. They are not. They can't be. I myself saw suffering of which it would be a shame to speak and at the same time I saw the selfishness of the people and the heroism of my associates. These generous unselfish acts blazed like lightning across the storm clouds of selfishness and hate."

"Conditions in the Near East are better and worse than when we were there three years ago—worse because a million people have been robbed of all their possessions—better because they, including our Near East Relief orphanages, are out of Turkey, and, although they are penniless, they are in lands where they can begin over again and be safe from their oppressors. I am not forgetting the death rate in the Near East is fearful this winter because of the unprotected condition of the refugees. The Near East Relief has practically ceased work among adults, simply from lack of funds, and the 54,000 children now in the orphanages have first claim on our resources. It is a heart-breaking thing to turn hungry children away when they ask for food, but we were compelled to do this in the last few months and only increased contributions will enable us to take in any of the children, to say nothing of their equally worthy parents."

Idle Acres Yield No Profit

PROFITABLE crops should be growing on that uncleared land of yours—productive instead of idle acres. And blasting stumps is now much cheaper and easier.

Pacific Stumping Powder is clearing land quickly and cheaply for the ranchers around here, because there are about 142 sticks of 1 1/4" x 8" of Pacific Stumping to the 50-pound case. You will get one-half more sticks for each dollar spent for explosives for land-clearing when you buy Pacific Stumping. It has the same strength as other standard stumping powders. There is no danger of its freezing, nor does Pacific Stumping cause headache from handling.

1/2 Let us supply you with explosives this year. We carry large stocks of du Pont dynamites for all blasting purposes on the farm. Tell us your job and we'll tell you the cost.
