**All Fools' Day**  
The man who invented "All Fools Day" probably had reference to the way most Americans save money. And he did not miss it very far for few of us save as we should.  
Jones gets \$75 a month and "needs every cent of it to live. Brown gets \$100 a month; Smith gets \$150 while Johnston gets \$200 and Anderson gets \$250 a month.  
All five of them claim they "spend it all on a bare living." Something is wrong about this. All are not right.  
Are you right? You are if you live within your income and save some every month.  
Be careful—don't let this day be your anniversary.  
A young man 20 years old had \$400 but he foolishly wasted it. When he is 65 years old this sum at 4% would have amounted to \$2,336.
