Clear YOUR Stump Land at Lower Cost

BEFORE explosives were used on the farm, clearing land was heavy, costly work. Today, stumping can be done at a much lower cost.

Many ranchers in this section are using Pacific Stumping, the du Pont explosive, for clearing their stump land for profitable crops. Pacific Stumping does the job at lower expense and does it *right*. Pacific Stumping gives you one-half more sticks per dollar—about the same strength, stick for stick, as any standard stumping powder. It is non-freezing and won't give you a headache from handling.

1/2

We carry complete stocks of Pacific Stumping and other du Pont dynamites—recognized as standard wherever explosives are used. Let us estimate on the cost of clearing some of your stump land.

GLARING HEAD LIGHTS CAUSE AUTO ACCIDENT

Carl Schweizer was severely cut and bruised about the head and body last Saturday night, when he was struck by a car driven by a young man from Benson Farm near the Rockwood grange hall. The injured man was given medical attention and was removed to his home, where he is

making a good recovery. The driver of the car which struck him was absolved from blame, as it was proven that he was driving within the speed limit and that he stopped his car quickly and offered assistance. He claimed that he was blinded by glaring lights from a car which he met at that place but which sped on before the number could be obtained.
