Dollar Insurance

The American Dollar just now is worth a very considerable sum in terms of foreign money.

For that reason travelers contemplating trips abroad should take the precaution to secure the utmost value for their American Dollars when exchanging them for the currencies of the countries they plan to visit.

Travelers should also carry their money in such form that it will be protected against loss.

American Express Travelers Cheques perform both of these important services. Furthermore, these Cheques are acceptable everywhere, they are self-identifying, and they are convenient to carry.

The sale of Travelers Cheques is only one of the many services this bank offers to travelers.
