SENATOR CHAS. L. McNARY.

Mr. McNary has proved himself a strong man in the United States senate and notwithstanding there are several good men who want his job he should be re-nominated and elected. Oregon can't afford to change senators now while McNary is so well acquainted, efficient and faithful.

SENATOR McNARY FILES FOR RENOMINATION

Chas. L. McNary has filed with the state secretary his declaration of candidacy for nomination and re-election as United States senator from Oregon, his slogan being "Tax reduction, farm relief, law enforcement and Oregon development."

Senator McNary is completing his seventh year in the senate and during his term of office has accomplished more for Oregon than any senator in its history. In fact United States Senator George H. Moses, republican leader in the senate from New Hampshire, declares that Senator McNary has accomplished more during his tenure in office than any other western senator. Senator McNary is a hard worker and his record is noteworthy.

Since Senator McNary entered the senate Oregon has received appropriations from the government totaling the giant sum of \$30,789,819.

It has received \$9,255,762 for its rivers and harbors, which is \$6,506,228 more than Washington received, and \$59,617 more than California received during the corresponding period.

It has received \$9,808,000 for its reclamation and power projects, which when reduced to an irrigable area basis is approximately \$47 per acre for Oregon, which is \$25 per acre more than Idaho received, \$19 per acre more than Washington received, and \$14 per acre more than California received.

It received \$11,138,107 for its public roads, forest roads and trails, which is \$1,691,254 more than Washington received, and \$1,350,962 more than Idaho received.

In addition Oregon received during the seven years Senator McNary has been in the senate an appropriation of \$507,900 for agricultural relief, \$50,000 for an aeroplane service for forest protection, and \$30,000 for the extermination of pine beetle.

Within the last few days Senator McNary also has been successful in passing in the senate his bill appropriating \$50,000 for a forest experiment station to be located in Oregon.

During his term in office Senator McNary has done more for the agricultural, horticultural, and livestock interests than any man in the senate. As a leader in the tariff bloc he secured a protective tariff on farm products including eggs, prunes, walnuts, filberts, maraschino cherries, cream, butter substitutes, cheese, cheese substitutes, and other commodities. He secured appropriations for experts to make a study of the walnut, pear, apple and broccolo and cranberry industries, appropriations for frost stations, and broadcasting of market reports. He secured an amendment to the war finance act authorizing the advancement of funds to the farmers and livestock men so that they could carry their products until they could be sold. He also drafted, introduced, and is now championing the McNary-Haugen bill.

He has introduced, and has pending a bill to perpetuate the country's forest resources, and which will materially reduce taxes by doubling the state's revenue from the sale of timber from its national forests.

A large crowd attended a mass meeting held in the city hall on Tuesday night to consider ways and means of opening up the channel of the little Sandy river. The people of this school district are well pleased with the decision of the board to re-elect for the next school year Mrs. Emeline Shaw for principal and Mrs. C. E. Scott for the primary grades. The social committee of Troutdale Chapter O. E. S. will give a card party on Wednesday night, April 16, at the Masonic hall. It will be in charge of a committee of bachelors who promise to make things lively. It is hoped all eligible ladies will be on hand to see the bachelor's parade, and it is believed after sampling of their cooking and observing their methods of serving there will be few widows or maidens left in this community. None but unmarried persons will be permitted to take part in the program. All are invited to attend.

The Troutdale baseball team has re-organized with E. G. Rolff as manager. The boys played their first game with Stevens Athletic club Sunday. The score was 9 to 7 in favor of the home team.
