INVESTIGATION NEAR HOME.

Now then, in this part of the country, in Oregon and Multnomah county in particular, eyes that have been following the senate investigation in Washington will be fixed on room 625 in the Multnomah county courthouse where an official probe of county and city affairs is in progress.

The probe, which is preliminary to a grand jury hearing, was instituted by Governor Pierce and is being conducted by representatives of the state and county legal departments. They are Willis S. Moore, assistant attorney-general; Stanley Myers, district attorney; John A. Collier, named special council by Attorney-General Van Winkle, and George Mowry, deputy district attorney.

This committee is to run down the various charges of graft, collusion, manipulation and high-handed domination of county officials and some city officials and if evidence of illegality and malfeanse and graft are found they will be brought to the attention of the grand jury. The hearings are in secret. At this time it is said about 50 persons are subpoened to appear on call. What the outcome will be is uncertain.

In the meantime a recall petition against the three county commissioners has been largely signed and is quite certain to be voted on at a special election at the time of the primary election on May 16. The bridge building program is being held up pending the outcome of the investigation and recall.

CONGRESS IS AWAKENING.

The recent speeding up by congress is a victory for the people and for President Coolidge. It will be recalled that in his Lincoln Day speech in New York Coolidge stated that it was necessary for the people to make their wishes known to congress. The president has adopted the rather unusual way of securing cooperation from congress. He has had numerous senators and representatives at the breakfast table, an early breakfast, for the president rises early, a habit acquired in the early days of his life on his father's farm—a habit which permits him to be at his disk long before many business men have had their morning meal, and there he has impressed upon the lawmakers the the expenditure of the people's money necessity of tax reduction, economy in and the passing of such legislation as will relieve distress in agricultural districts.

SAVE THE SMELT.

The state fish commission should proceed with plans to deepen the entrance to the Sandy river in order to accommodate the smelt which make their way annually up the stream. Not only do these fish furnish sport to the thousands who catch them but their food value is a large item. And what is perhaps of even greater value than the sportsmanship, pleasure and food furnished is the advertising feature to the county.

And unless something is done to make the ascent of the stream to the spawning grounds possible it will be but a short time when this species of fish here will become extinct.—Oregon City Banner-Courier.

O. H. Porter has filed as a candidate on the republican ticket for District Judge, Department No. 1. Mr. Porter is a native of Illinois, but has lived and practiced law in Oregon for 13 years. He practiced law in Illinois 10 years before coming to Oregon. His platform contains the following statements. "I will not allow technicalities to defeat justice in a court over which I preside. I helped frame and pass our prohibition law and I believe that it should be enforced."

Will Work Go?

Talk of another change in Pres. Coolidge's cabinet follows the removal of David W. Davis, a Harding appointee, in the Interior Dept. by the President. It is said Dr. Herbert Work, Sec'y of the Interior opposed the change.
