EASTER RECORDS

Easter is the joyous season. The birds seem bursting with song, and Spring fills the world with colorful flowers in striking contrast with the drab monotony of winter.

It is this time of the year when happy hymns and songs of gladness strike a most responsive chord in our hearts. Come in and hear some of the new Easter records. There are many of the old favorites as well as new ones to captivate and charm willing ears.

Money and Merit

A MILLION DOLLARS, minus merit, would be a mighty poor investment to start in life with. But a banking account—even a small one—well kept, is a mighty good asset, always.

It means that you are known at your bank, and that you are known favorably. Nominal capital, plus merit, outweighs phenomenal capital, minus merit.

A well-kept banking account is a real asset, especially when kept with a strong, progressive bank such as this. It will pay you to investigate the service we offer. Certainly it will be a privilege to have you call and to place some helpful banking information before you.

Only one house in four is well kept up by paint and varnish

EVERY year that painting is put off means many dollars loss to the owners of the other three, for paint is the most important part in the care and preservation of houses.

There is no substitute for good paint. If yours is one of the three homes that need paint, don't let it go another day.

Save the surface now and you will save it at considerably less expense than will be possible later on.

Come in and talk the matter over with us. We carry Rasmussen Paints and Varnishes and recommend them as the best for you to use for all exterior and interior purposes.
