MOTHERS' DAY

About the name of mother clings a powerful indefinable fragrance—something that makes all men delight to honor her who bears it. As little children there is no substitute for the tender care and brooding love of MOTHER.

Her children, grown, are eager to repay her years of service and sacrifice and when "Dad" is gone they insist on caring for mother.

But that is not what mother wants. She craves—and surely deserves—a sense of financial independence—a home of her own.

Let every day be Mother's Day and let every household begin a savings account right now that will make Mother's last days free from financial worries when Dad's strong arm is no longer about her.

"If we save consistently we have done the thing most needed to establish our prosperity."—Meredith (Secty. Agr.)
