LET JUSTICE STEP ON THE GAS.

It is to be hoped swift and certain justice will be meted out to the two youths whose confession of the murder of the boy, Franks, in Chicago, has shocked the nation.

Of course, we will be doomed to read the usual nauseating accounts of how the insanity streak has been discovered in the family.

SELF-CONFESSION GOOD FOR THE SOUL.

All hope is not lost when in reply to openly hostile criticism of the action of congress we hear one of the legislators himself denounce the body of which he is a member.

"Why not be frank about it," says Representative Harry B. Hawes, of Missouri. "The so-called Wisconsin Group holds the balance of power in the house and in the senate, and by throwing this block of votes first in one direction and then in another they control legislation."

"Movements are under way in Washington to control our speech, our food, our clothes, our education, our marriage, our divorce, our church, our brains, and our pocketbooks."

"In too many cases congress is voting for votes rather than voting for principles." This is language the people understand, even if it reflect a condition they have yet failed to realize.

Cost of Disease. It is desirable to recognize that from the president of the United States to the laborer in the factory or on the farm, all citizens not physically incapacitated, are, or should be, workers.

Sickness is a hazard to which all are subjected and to which many fall victims. Those who are disabled by sickness suffer losses of time, cost of care, which varies from slight hardships easily borne, to those which absolutely ruin.

Forty per cent of the deaths are preventable or at least postponable. The estimated value of the average life is \$2500. In a state of this size with an annual death rate of 9,000-3,600 of these deaths are from preventable causes.

Chlorine gas that wiped out battalions in the great war, will be used on a bigger scale of destruction against germs of influenza, pneumonia, and other diseases.

Exclusive clubs in New York decide to suspend their visitors' list during the democratic convention. This is presumably to oblige members that occasionally dream political dreams, on their own account, but would not like to push the thing so far as to "invite those political chaps to one's own club, don't you know."

TOMORROW—JUNE 14—FLAG DAY

Above is a picture of the Betsy Ross home on Arch street, Philadelphia, where 147 years ago tomorrow the beautiful Stars and Stripes as the emblem of freedom was born.

'Tis the star-spangled banner; oh, long may it wave O'er the land of the free and the home of the brave!

FLAG DAY, JUNE 14

We want to place a flag in every home, in every school. We have hundreds of them, 3 x 5 feet, jointed pole, bracket and halliards, all to be given away to new depositors making a deposit of \$5.00 or more in savings department.

Has your boy or girl a flag? The effect of our efforts in teaching the young to work, economize and save their earnings is being realized. Our savings deposits have increased \$45,000.00 during the past year, mostly through the efforts of young people.

We pay four per cent interest only, acknowledged by all to be a safe and sound rate and all that can be expected.

A letter will bring you Flag Etiquette containing much valuable information.

Timely Comments By Arthur Brisbane.

When the automobile arrived, old-fashioned carriages, Victorias, broughams, etc., became worthless here, and a market was found for them in South America where they did not give up horses and carriages so easily.

Lately the American problem has been "how to get rid of second-hand automobiles." Europe, it seems, will help solve that problem.

A company, formed to ship second-hand cars to Europe, sends over bargains by the shipload. Money is not as plentiful there as it is here. The "used car," at a whittled down price, is attractive.

Unloading of used cars abroad will be a good thing for Europe, which needs economy, and a good thing for the United States, where millions need "a bigger or better car."

The Senate Agricultural Committee, 11 to 5, voted against Ford's Muscle Shoals offer and took up Senator Norris's bill.

Senators that refused Ford's offer are hurting farmers and hurting themselves. But that doesn't console Ford.

It would horrify you to read about a female gorilla capturing a young girl, skinning her, to use the skin as sandals. That never happened. But European ladies are having sandals made of the "soft and pliable" skin of monkeys, guaranteed not to "sneak."

In a gorilla that would shock us. It's all right for a lady.
