Mystery Tied with Red Tape

The time has long passed when a bank was surrounded with so much mystery and red tape that customers felt ill at ease every time they went to the bank to transact business.

Today, the progressive bank is a FRIENDLY INSTITUTION—designed to give service cheerfully and as a BUSINESS DUTY rather than as a favor.

At least, that is how this bank regards it. Perhaps that is one of the good reasons why many refer to this bank as "my bank," based on the spirit of friendliness and cooperation they encounter whenever they call.

Perhaps, too, it is another reason why people like to save where they think they are welcome, and where, in addition, they know their money is absolutely safe.

Whether you wish to open a savings or checking account, or wish to transact business in one of the other departments of this bank, you will appreciate this spirit of friendliness which we believe is good business.

SCHANNO'S CONFECTIONERY

GRESHAM, OREGON

The City Motor Trucking Company of Portland, Oregon, operate two 4-ton Packard trucks, six 3 1/2-ton Packard trucks and one 4-ton Federal. Zerolene is used exclusively.

ZEROLENE helps win the PACKARD CONTEST

In 1922 the City Motor Trucking Company of Portland, Oregon, won the Packard's low upkeep contest in the State of Oregon with its 4-ton Packard No. 180-590. During the period of this contest Zerolene oil was used exclusively, and the Company writes us as follows:

"In consequence of our success in this contest, and because of our uniform satisfaction with the use of Zerolene in all other equipment, we naturally consider Zerolene as an absolutely dependable and correct lubricant. We most cheerfully recommend it to any and all truck operators to receive real efficiency in lubricating oils."

It is records like these that month after month and year after year are cutting the ground from under the superstition that there is something mysteriously "better" about eastern oils, just because they cost more.

Zerolene sales have increased seven-fold in seven years. The more experienced the motorist, the more likely he is to discover that the Zerolene-lubricated car delivers better gasoline mileage, accumulates less carbon, costs less for upkeep, and has a longer working life.

Why pay tribute to a superstition? Insist on Zerolene—a better oil—even if it does cost less.
