MORAL LEADERSHIP NEED OF TOWNS

Speaking last Tuesday on the fair grounds, Dean Earl Kilpatrick, director of the U. of O. summer session recently held in Portland, stressed the need of leadership in the better things of life in our rural communities and urged closer cooperation between the small city and its rural surroundings.

Stating that man is instinctively and historically a village dweller and that come what may, his community activities necessarily center in the small town, Dean Kilpatrick pointed out that in order that the town may remain the center of community life it must function as a servant of the rural neighborhood.

Although the revolution in transportation and communication has, in a measure, freed the farmer from his old dependence upon the small town for a market, it is still his amusement, educational and social center. But if the small town wishes to regain and retain its historic place in the hearts of the country people and make of itself and the surrounding neighborhood an effective community unit, it must remove from its name the taint of commercial greed and attain to a moral and educational leadership that will make for a new spirit of neighborliness. Not by division and discord between the mutually dependent town and country dweller, but by cooperation and conscious planning for social betterment is rural regeneration possible, according to Dean Kilpatrick.

CRUMPACKER SPEAKS ON PARTY LOYALTY

Maurice E. Crumpacker, republican nominee for congress in this district, spoke Friday, August 2, before a large crowd at the Multnomah county fair grounds. He discussed the accomplishments of the republican party during the past three years and stressed the necessity of party loyalty and the desirability of sending to congress individuals in sympathy with republican principles in government.

"The republican party is the sound, business, national party of this country," said the candidate. "It believes in the application of business principles to the operation of governmental affairs. No chimerical or demagogic promises incapable of fulfillment for the purpose of vote snaring are made. The party of Lincoln, Roosevelt and Coolidge, has actually reduced the interest bearing debt of this country nearly three billions of dollars in the last three years. No other administration in the history of this country can show a record of economy comparable to this.

"The farmer has always received the wholesome consideration of the republican party over a period of many years. We know it to be an economic fact that no party can control the law of supply and demand in its effects upon prices. However, during 1923 and 1924 the government spent more than seven millions of dollars in experimentation along cooperative marketing lines to bring the producer and consumer closer together.

"If the people of Oregon desire their government to be operated upon progressive and economic business principles they will keep Mr. Coolidge in office, and place with him Mr. Dawes, the man who has been the head of the budget system of the country and who has suggested and worked out a policy for the inter-allied debt adjustment. If these men are to be placed at the head of the government, they should have a congress in sympathy with the application of republican principles in government to make an effective working force."

Your Quota of Mail. Did you receive 112 letters last year? If you didn't, you failed to get your pro-rata share. According to estimates just completed at the Post Office department, about 11,335,000,000 letters are now going through the United States mails every year. Figured on the basis of the last census of the population of the country, each citizen should have received an average of 112 letters. Upon these figures post office officials claim that the United States leads the world in the interchange of letters between its people. It is estimated that the per capita of letters exchanged in Great Britain is 84 annually. Of other important countries Germany has a per capita exchange of 25, while each Italian received nearly as many, the rate being 24 per person. These estimates are all based on first class matter alone.—Scientific American.

Highest Heroism

Mrs. Marie Franklin of New York, smilingly sacrificed her feet that her baby might live, when told by doctors such drastic measures were necessary. This is her homecoming, in the loving arms of her husband.

Men Who Hung On.

James Watt—Thirty years to the Steam Engine and perfected it. George Stephenson—Fifteen years to the Locomotive and won. Samuel F. B. Morse—Fourteen years to the Telegraph and then sent the message.

Alexander Graham Bell—Sixteen years to the Telephone and we hear and talk.

John W. Niepce—Thirteen years to Photography and then made photographs.

Elias Howe—Twelve years to the Sewing Machine and is acclaimed its inventor.

Charles Goodyear—Ten years before he vulcanized rubber.

Edward Gibbon—Seven years collecting material for his "Rise and Fall of the Roman Empire."

George Bancroft—Forty years gathering data for his American History.

Who says it does not pay to stick? Are YOU sticking? The world wasn't made in a day, neither were other things worth while.

Stick-to-it-iveness, sometimes called "backbone," always wins out. If your job is hard, "hang on"; you'll succeed.

Think it over, see who is at fault, YOU or the world.

Stick to it and CLIMB, there's plenty of room at the top. The world likes a climber. Whatever your chosen profession or occupation, there is still room for plenty of improvement. It's up to YOU as an individual.

Farmers Mutual Fire Relief Assn. Forges Ahead.

The yearly report filed with the Insurance Department by the Farmers Mutual Fire Relief Assn. shows \$6,055,000, written during 1923 and 2210 new members gained. Losses paid, \$23,437,000. Insurance in force, \$18,283,000. The Assn. also has a substantial cash balance. The low rate of 30c on all property insured by the Association will not be changed, which enables farmers to get adequate insurance on easy payments.

President Snashall reports the Assn. at the present rate of growth will shortly be the largest farmers Assn. west of the Rocky mountains.

Anyone wishing to insure will call on Mr. H. W. Snashall, Fair Grounds, Gresham, phone Farmers 2101.—Adv.

A THREE-WORD SPEECH. FARMER'S DAY. CREAM FOR RAILROADS. WALL STREET'S TRINITY.

John W. Davis means to hold the short speech record, a wise, almost pious resolution. He will "accept" his nomination in only four thousand words of talk.

Great moderation and self-control, you say. Yet in thirty-one verses of the first and two verses of the second chapters of Genesis the Bible describes the creation of earth and everything on it. And the whole thing, including the rest on the seventh day, is told in about ONE thousand words.

For brevity and beauty, candidates, editors, and especially advertisement writers should study the Bible, especially Genesis, Job, Isaiah, and the Sermon on the Mount. Any Presidential candidate might make an acceptance speech pleasing to 99 in 100 in three words, as follows: "MEN ABOVE DOLLARS."

Salesmen are pouring into the Northwest farming districts to sell goods that stores will soon be selling. Thanks to high prices for wheat.

Stocks are going up, especially railroad stocks. That has importance for everybody. It means that intelligent observers see good times ahead.

Railroads seem to be the "lamb" of our Government, and it remembers the injunction "Feed my lambs."

Recently, when the farmer was practically bankrupt, dozens of banks in the Northwest closing their doors, etc., it was suggested that railroads might reduce freight rates, at least on farm products.

But with wheat going up, the Interstate Commerce Commission says the value of farm crops will increase a thousand million dollars this year. Therefore, NO reduction in freight rates.

The cream, off the top, must go to the railroads. Suppose the farmers, for a change, are getting a decent price for their crops. The question involved is: Are the railroads charging too much? Not what is the farm making.

Great and fashionable Trinity Protestant Episcopal Church, standing at the top of Wall Street, publishes this report: Last year's income, \$2,148,681. Present assets of that little band of followers of the lowly Nazarene, \$13,329,053.

You note, "Carried to renewal account, \$186,762."

The young man (see Matthew, 19th Chapter) that "went away sorrowful" after being told, "Sell that thou hast and give to the poor," probably sits in Trinity's congregation, if there is anything in the reincarnation theory.

Think of one Episcopalian church keeping on hand thirteen millions of undivided assets, while scores of the Episcopalian clergy, miserably underpaid, struggle to make ends meet.

The world hears with amazement of two French fliers setting a new "duration" mark, staying up 37 hours 59 minutes 10 seconds. Put this clipping away for your great-grandchildren. They will see a round a world machine, coming down perhaps once a year for complete overhauling, landing passengers from smaller machines above Paris, London, Yokohama, Bombay, New York. "All out." And the trip all the way around will be made in twenty-four hours—only 1,000 miles an hour.

There NEVER comes a time when a human being is of "no use to the world."

The Greek philosopher, ninety years old, that killed himself because he stumbled on leaving his class, made a mistake. He should have said: "I may stumble, but I shall go on teaching."

Every one can be valuable to the world by setting an example of courage and endurance.

The other day in New York a young woman lay in a hospital with both her legs amputated. That was the price she paid for giving birth to a child. SHE might have said, "The world has nothing more for me." What she did say, was, "I am delighted to lose both my legs, if I must, as long as I have my baby."

That's worth a good deal to the world.
