One year, \$1.50, six months, 85c, three months, 50c, single copy, 10c. Combination rates with all the Portland Dailies.

ADVERTISING Rates reasonable. Our representative will call.

Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

BEHOLD THE CHANGE

The quiet Sabbath has gone for aye. Few there are who look forward to the first day of the week as the Lord's day and plan to spend it in quiet meditation, rest and worship.

All the old arguments have ceased to have weight. A reckless freedom fills the minds of men and they are led only a lure that is inexplicable.

Now it is different; conditions have changed; minds run in other channels. Automobiles don't need rest, physical recreation is more needful, life is more strenuous, nature's beauty spots are more accessible and social, mental and physical benefits are more sought after than the purely spiritual.

Is the change detrimental? Are we deteriorating? Some think change means decay. Not so. It is rather an indication of life—new life. There is more life, more thought, more freedom, more enjoyment in the world today than ever.

It is difficult at close view to see wherein these changes are beneficial. There are undoubtedly accompanying evils. In the history of the race man seems ever trying to break away from spiritual ideals. They persistently follow, however. Which means that out of the changes now going on will develop new conceptions of man's duty to himself, his fellowmen and his Creator.

WAGES COMING IN AND GOING OUT

Today the hourly earnings of building labor are by far the highest in any industry in the United States. The hourly wages in seventeen of the building crafts are 100 per cent higher than in 1914.

The cost of building, of course, reflects the cost of homes and the cost of living generally. This opens up a field of inquiry that reveals almost startling facts. Washington figure sharks tell us that 86 per cent of the persons gainfully employed in the United States receive incomes of \$2000 a year or less—a great many of them less. The same figure experts then point out that rents for moderate priced accommodations such as are used by the average wage-earner, are 85 per cent higher than they were in 1914.

Followed to its logical result this means more skimping on the part of the housewife, more limitation to the comfort of children, less pleasure, fewer clothes, and a general tightening up all around.

Of course, the shortage of labor plays its part in this condition, which in turn is aggravated by our immigration laws. On the surface the condition appears to be a splendid one for the American worker, but even he is coming to learn that natural law is inexorable and that he must pay the piper.

It's an ill wind that blows a neglected camp fire to flame.

A safe camp fire is rather to be chosen than great catches of fish.

When you leave your camp fire, sing "It Ain't Gonna Rain No Mo'", and apply the water yourself.

It would be a fine thing if the people who throw cigarettes from automobiles could spend a day fighting forest fires.

"Fire prevention is 80 per cent of forestry here on the North Pacific slope," says Mr. Cecil, district forester. "Let's all be foresters, and prevent forest fires. It pays."

Sprinkling Hours Limited. Notice is hereby given to water users in Gresham or the Powell Valley water districts that sprinkling of lawns has been limited to the hours of 5 to 8 a. m. Anyone found violating this rule is liable to arrest and fine. By Order of Portland Water Board.

Brickets \$15.00 Ton. During the month of August we will sell Gasco brickets at \$15 per ton. Delivery to be made in August. Orders should be in by August 15 to insure prompt delivery. EKSTROM TRUCK SERVICE. Phone 1581 Gresham, Ore.

WOOD SAWING Quickly and efficiently done by experts. All orders promptly attended to regardless of size. GEO. SHAW Phone 229 ED. SMITH

WOOD, WOOD! If you haven't your wood see Cecil Metzger, Gresham, phone 1151. tf

THINK! Now is the time to act. ALL yesterday is gone. TOMORROW is NOT YET.

Wheeler the Champion Family Man

Senator Burton K. Wheeler of Mont., Vice Presidential candidate with La Follette, is the champion family man of the six candidates of the three big parties. Here are the six big planks in his platform—Mrs. Wheeler, Francis, Richard, Edward, Elizabeth and John.

WRITER HAS PLAN FOR REDUCING CRIMINALS

Editor Outlook—The trial that is being conducted at Chicago of two young men, Loeb and Leopold, for the heinous crime of murder, and that committed apparently without the least compunction of conscience, very strongly emphasizes to the people of the world the necessity for the adoption of some better plan for dealing with the criminal class.

The testimony of scientists who have appeared in this case, men who have made life-long study of mental conditions, is to the effect that these boys are abnormal, mentally diseased, and as a result it is quite probable that they will not be sentenced to suffer the death penalty for their dastardly crime. Being declared irresponsible, they will, very likely, be given a penitentiary sentence which, after being served a few years will be commuted by some sentimental governor and they will be turned loose, a menace to society again.

I am not clamoring for the rigorous enforcement of the death penalty in this case for the reason that I believe it is within the power of the people to inaugurate a better way of dealing with the criminal, and a means by which, if adopted nationally, would within the space of a few decades practically eliminate crime from the land.

Such examples as this Chicago case is bound to bring people to a realization of the needs along this line, and we must have just such cases to educate them up to a sense of the responsibility that devolves on those who cast the ballots.

If we would eradicate crime from the land we must strike at the fountain head. If we would raise a better specimen of the genus homo we will have to cull out the indifferent stock. It is just as reasonable that this should be carried out in the human family as it is that the poultryman or grower of potatoes seeks to select the best specimens to be the parents of his future crop.

There is no doubt but what we inherit from our progenitors the tendencies and peculiarities that govern our lives just as surely as we inherit the physical characteristics, and if the parent is criminally inclined it follows that the child hasn't much chance of ever becoming a paragon of perfection.

The only hope we have of ever seeing the civilization of the world cleaned up is that the bringing of criminals into the world shall cease, and this can be effected just as surely as the stockman can clean up his herd, by eliminating the vicious and undesirable sires.

Our Oregon law is good so far as it goes but it is not far reaching enough to meet the requirements. It should be extended so as to authorize the sterilization of all criminals whose misdemeanor is such as to justify incarceration, also all imbecile and feeble minded. If such were the custom it would be but a short time until we would have but little need for the asylums, penitentiaries and jails, and about the only tenants that would be left for the eleemosynary institutions would be those members of the legal fraternity whose chief source of revenue would be cut off because of the little need there would be for the criminal court. A. W. B.

NEW EXPLOSIVE WILL AID LAND CLEARING

Closing of a contract with the United States government for the preparing and packing of approximately 39,000,000 pounds of explosives at the Puget Sound plant of E. I. du Pont de Nemours & Company, at du Pont, was announced today by T. E. Doremus, Pacific Northwest manager for the company.

In terms of present prices for commercial explosives this would be valued at approximately \$5,850,000. The entire contract with the government entered into by the du Pont concern calls for 100,000,000 pounds and the Puget Sound Plant will take care of 39 per cent of this amount.

The explosive is a new type called pyrotol developed by the United States bureau of mines and is adapted for land clearing and similar work. Pyrotol will be made from war materials remaining in the government's hands and turned over to the department of agriculture for preparation, carttriding, packing and selling to farmers and others throughout the country at a low cost.

The government announces that this will be the last of this kind of governmental distribution of commercial explosives.

The same procedure will be followed as to shipping and selling as was used in disposing of Sodotol, another explosive made from war materials and which was distributed to consumers through the county agents. This explosive, it is declared, has now all been disposed of.

It is expected the government soon will announce the price on Pyrotol but due to the fact that it is necessary to provide materials other than excess war materials and due to the higher cost of preparation, Pyrotol, it is declared, will be sold at a higher figure than Sodotol but much less than the cost of commercial explosives.

The du Pont concern is declared to have been the lowest bidder for this government contract, largely owing to the fact that it is the only company that has the necessary machinery already installed to handle this class of work. Production will be started immediately and, it is declared, will continue for about five years before the entire contract is filled and the last pyrotol is in the hands of the consumers.

Placing pyrotol on the market at the low rate at which the government can do it will be a great boon to the farmer and land-clearer in the Pacific Northwest, it is claimed. It will provide an explosive that should be an important factor in the further development of this part of the country.
