Mr. and Mrs. F. M. Stuck and son LaMonte plan to leave for their old home in Pine Island, Minnesota, next Monday. They will drive through and expect to reach Minneapolis by August 30, and will attend the state fair during the next week. The following week they plan to attend the Pine county fair, of which Mr. Stuck was president for several years. Mr. and Mrs. Stuck are called to Pine Island to look after business matters. They expect to place their son in college and hope to return to Oregon, which they have learned to like very much. LaMonte was a graduate of the union high school last spring.

Recent guests at the B. L. Walrad home were the Misses Gertrude and Pearl LuHuquet and their brother John of Sand Point, Idaho. The former will be remembered as a teacher in the union high school in the spring of 1915. She has been for several years school superintendent of Bonner county, Idaho. She expects to take work in Columbia University the coming year for her master's degree.

Mr. and Mrs. E. W. Aylsworth and children, Mr. and Mrs. W. D. Kinder left yesterday for a trip to Klamath Falls. They expect to be gone about a week and before their return will visit Crater Lake and the Oregon caves. Mr. and Mrs. Aylsworth have a quarter-section farm in Klamath county, which they will visit.

Mr. and Mrs. C. I. Raker, Mr. and Mrs. R. D. Bailey and family returned home Monday from Seaside, where they had been spending a week.

B. L. Walrad left yesterday for St. Martin's springs where he expects to spend a week for treatments and rest.

Mrs. Nancy E. Roberts, who has spent the past few months in Bellingham, Washington, with a son, has been brought to a Portland hospital, where she has been for the past three weeks taking treatment for heart trouble. She is reported to be improving.

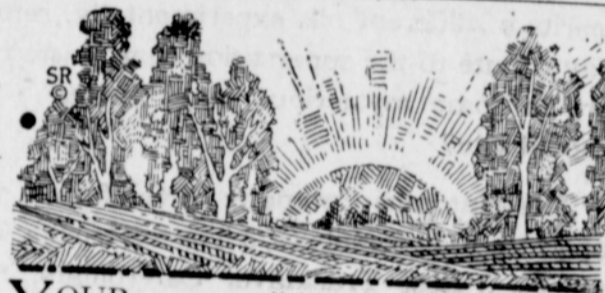

Principal R. E. Cannon of Gresham of the Gresham union high school writes from Tidewater, Oregon, that he is having so much fun that he plans to continue his stay longer than expected. He has set Tuesday evening, August 19, at the time of his return. He reports plenty of fish.

Mrs. Chas. Raney was brought from Hood River yesterday to the home of her mother, Mrs. J. C. Stanley and was taken this morning to a Portland hospital where she underwent a serious abdominal operation. She stood the operation well.

Perpetual Motion Discovered

Scientists tell us that the age-old search for Perpetual Motion is based on false reasoning; that it is impossible; that such a contrivance would have to produce more energy than is required to start it. But they are wrong.

Perpetual Motion has been discovered by the First State Bank. It is in actual operation in our savings department.

Place \$1.00 to work for you at 4 per cent in our savings department and in 35 years it will amount to \$400. In 49 years it will total \$700. In 70 years it will be \$1600. This satisfies the theory. It is also highly satisfactory to our many patrons. We invite you to put Perpetual Motion to work for you at the First State Bank.
