**When the School Bell Rings**

Next Monday morning the school bell will ring again announcing the beginning of another term.

While the various school studies are important we are convinced that nothing the children learn can be of more value than FINANCIAL PLANNING for life.

With a desire to render a helpful service we invite the older students to arrange for interviews when we can discuss with them their financial plans for the future. We can help them by explaining the

- Principles of saving money and time,
  - The marvelous increase of compound interest,
  - The necessity of self-denial,
  - The value of Will Power,
  - The necessity of cultivating THRIFT habits,
  - and the need of FINANCIAL plans and principles.
- These interviews will be informal and are, of course, Free.
