Assisting the hostess were Mrs. Wm. Sales, Mrs. Lena Anderson and Mrs. Cedric Stone.

Plans were formulated for an entertainment and luncheon to be given Friday evening, January 30, at 8 o'clock in the grange rooms at the city hall. This entertainment is for the purpose of interesting the fathers in the Parent-Teacher association. The program will consist of speaking and music and the following committees have been appointed by the president to help make this a delightful evening: Mrs. Mahaffey, Mrs. Smith and Mrs. Iola Copeland, refreshments; Miss Beryl King and Mrs. McElwain, program; Mrs. George Shaw and Mrs. R. ROCKWOOD

Plans are under way by the officials of the Rockwood community church for the development of an adequate church plant in the near future. In just what way this will be brought about is not definitely determined, but it is expected that within a few weeks active work will begin. Permission has been given by the board of trustees of Hill church in the Cedar district, to move the building, which has not been in use for some years, to Rockwood, and combine it with the Rockwood structure. If possible, the building will be moved intact, but it may be found necessary to take it down, move the lumber and reconstruct on the new location. One of the difficulties to be encountered if the building is moved will be the passing under three high power wires which would need to be cut. The matter is being taken up with the Portland Electric Power company. Bids are being received on the project, taken in various ways.

"Use want ads"—a good adage.

You Can't Beat This

WHEN you pay your household bills, C. O. D. packages and all general expenses with Protectu checks, you are sure that the amount of the check is protected from being raised, if by accident your check is lost and may pass into the hands of either an amateur or professional check raiser.

With the Protectu system, you can make your check proof against check raising. This check has a series of numbers lithographed in indelible ink on the end of the check. By a cutting device, the end of the check is cut or torn when the check is made out so that the highest amount indicated on the margin represents the maximum limit of the check.

We have arranged for a limited supply of Protectu checks and Protectu folding pocket covers with cutter attached as shown in illustration at a small charge for the cover.

All who wish to avail themselves of this added protection are invited to call and allow us to explain the advantages of this new safeguard. We do this as a matter of duty following our long established policy of providing our customers with the best possible service obtainable.

A pleasing program was rendered Thursday evening at the reception in honor of the Rev. and Mrs. William Fairweather, the former being the newly-appointed minister to the Baptist church here. Refreshments were served following the program which was participated in by the Revs. E. G. Judd, A. Johnson, E. G. Ranton, and William Fairweather. PLEASANT VALLEY

The Sunday school of the community church will convene at 10 o'clock, followed by preaching service at 11. A young people's society is to be organized and plans will be laid for this purpose on Friday evening, January 30. The friends of the Pleasant Valley church are invited to enjoy a social evening together. A splendid program is being arranged and refreshments will be served.

Flume Workmen at Bull Run Hurt. James Murphy, the foreman of the flume crew at the Portland Electric

Power plant at Bull Run, had a narrow escape from serious accident Wednesday when a rock six inches in diameter fell a distance of 25 feet, just missing his head. A smaller rock also fell, striking him on the arm and inflicting a deep gash, which was promptly dressed. R. M. Welch was struck in the chest by a rock at the same time but was not injured beyond the taking of his breath for a minute or so.

The men were engaged in lowering heavy rocks from the top of the cliff by means of a basket suspended on the end of a rope. The rope scaled the surface of the cliff, dislodging the rocks that fell on the workmen.

Dropping the Pilot

There comes a time in the life of every father when he sees his son leave the shelter of home and launch forth alone on the sea of life.

He has dropped the pilot.

What of the future?

It will largely depend on what he has been taught. If he is not afraid of hard work, knows the value of money and that no man can prosper who does not save--his future is assured.

Such a heritage is worth more to him than anything else on earth--except honor.

You must teach by example.
