

GRESHAM OUTLOOK

Published every Tuesday and Friday at Gresham, Oregon, by the Outlook Publishing Co., H. L. St. Clair, Editor and Manager.

One year, \$1.50, six months, 85c, three months, 50c. Single copies, 10c. Combination rates with all the Portland Dailies.

ADVERTISING Rates reasonable. Our representative will call. Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

The Kelso, Washington, city council is having a little row with the mayor. The outcome may be serious as Mayor Todd at a mass meeting expressed himself in favor of recalling the councilmen and replacing them with women if they don't accept his appointments. My, what a club.

Herrin, Illinois, that abases upon a fair state's history, has broken out again and four men are dead as a result. This place has been the scene in recent years of mining and clan riots with many killings. Perhaps the hot heads are about gone now, but innocent and peaceable citizens have had to suffer too.

Judge M. C. George is one of Oregon's respected citizens. It was fitting that he should be chosen from the Oregon electors to convey to Washington the states' vote for Coolidge and Dawes. He must have appeared to the congressmen like an apparition from out of the far west when he stood among them, having been a congressman 40 years ago. It is said that not one of his old associates at that time is in congress.

That old soaks should find it hard to give up liquor and occasionally in their desperation be blinded or killed by poison moonshine is to be expected, but that there should be liquor at high school parties and drinking by young men and girls at dances and parties is despicable and deplorable. Aside from the inevitable surrender of decency and honor some of the usual results noted in the news are accidents, blindness and often death. What a hold this arch demon seems to have on the race.

Is Roman Catholicism a political power today and is the pope seeking to extend that power? Why should non-catholic governments have political representatives at the vatican? France with the United States has no representative there, but it is said France's recovered Alsace-Lorraine has had an attempt is being made by Rome to continue if not re-establish the custom for other provinces. "Rome must cease her attempt to make of catholicism a political party in France," declares Premier Herriot. "Rome," he said, "is trying to constitute catholic parties everywhere." The pope is said to have congratulated catholics for having organized in France.

REFORM BY LAW.

There is an old gag in a popular song: "For everything wrong beneath the sun, I'll make a law to stop it."

This is the season of the year when would-be political reformers advocate a multiplicity of state and national laws to remedy imperfections in trade and industry.

There is a large number of people who believe that the remedy for defects and abuses and dishonesty in the business world is more and still more legislation.

Thus it comes about that congress and state legislatures and city governments design measures to control and regulate railroads, public utilities and big industries.

The wonder is that with all these onslaughts in the past it has been possible for large industrial and public service organizations to exist, to say nothing about their ability to make profits and enlist new capital for extensions.

As usual, many novelties and experiments are proposed this month of the year that the Romans dignified with the God Januarius, a figure facing both ways.

About five new cabinet positions with prospective employment for 100,000 officials and hundreds of new state boards and commissions, also employing taxators galore, are proposed with the magic formula, "Be it enacted, etc."

The people can only pray that most of these propositions will be defeated and that steady principles of self-reliance and commonsense may prevail in their stead. We can never improve on the maxim of Thomas Jefferson that an intelligent commonwealth is governed the best when it is governed the least.—The Manufacturer.

Clackamas County Fires.

Sandy was visited by a serious conflagration early Sunday morning when the feed store of Percy Shelley, together with hay, grain and four automobiles, was completely destroyed at a loss of about \$8,000. The building is said to be the oldest in Sandy. The shop of A. Hipple, which was joined to the Shelley store, was also destroyed, and the plumbing supplies contained there. Hipple's loss was about \$400. There is no intimation of the origin of the fire.

P. E. Struck lost his fine residence property, valued at about \$5,000 Thursday morning, near the Bull Run schoolhouse. Mrs. Struck was in Portland at the time and her husband was employed on the premises when the fire was discovered. The flames had gained such headway it was impossible to save anything.

Nickerson's Jellied Chicken. Try it fricassee or in salad. A whole hen in every jar. Phone Gresham 725.

CONFERENCE GROUPS MAKE REPORTS

(Continued from page 1)

Best practice therefore depends upon the price of grain, the labor cost, the price of land, etc. Figured in pounds of milk obtained per acre, the high yielding silage is the best, but many more tons of feed must be handled and more grain must be fed.

4. Value of Root Crops.

Small dairy farms can ill afford to have a silo because of the cost of the silo and its equipment and the expense of filling it. Root crops will be found of value in such cases. Root crops produce more tons per acre than silage, no hired help is necessary to harvest them, and they require no expensive equipment. Harvesting can be spread over a long period of time. They can readily be pitted like potatoes.

II. SUCCULENT FEED RECOMMENDATIONS.

- 1. Owners of small dairy farms considering building silos will do well to give root crops a thorough trial before going to the expense that silos entail.
2. The practice of going to a store and buying corn at random for seed is an expensive practice. It is far safer to spend a little more money and buy corn seed of known origin. Many poor stands and poor crops are brought about by using seed of which nothing is known.
3. Every dairy farm should have succulent feed, either silage or root crops.
4. Minnesota 13 and Golden Glow are standard silage varieties. Growers wanting seed of later maturing corn can find very reliable seed in southern Oregon or Malheur county. This seed will give better results than can be obtained by buying eastern seed at random.
5. Dairyman with a small amount of high priced land can make better use of that land by using later maturing, higher yielding varieties than Minnesota 13. Farmers with plenty of land but short of labor will do better to grow Minnesota 13 of a strain which will mature.
6. For a summer green feed or silage crop, there is nothing better than alfalfa. Owners of small farms or others who lack sufficient pasture will do well to investigate the possibility of growing Grimm alfalfa, cutting and feeding it green throughout the summer and fall.

PASTURES.

RECOMMENDATIONS.

- 1. Pastures are necessary for cheap milk production. They are not possible in all cases, but could be used to a greater extent than is the case now.
2. On many dairy farms the net return per acre could be larger by using as pasture part of the land now in grain. The overhead expense of a pasture crop is very small, whereas the overhead of a grain crop is large.
3. All pastures should be cross fenced so as to allow for rotation. They should be grazed close to keep weeds down but overgrazing kills the grass.
4. It is better to buy grass seed of the kinds desired and mix them on the farm than to buy commercial pasture mixtures. These are often made up of poor quality seed.
5. In England where land is high priced and scarce 50 per cent of the entire tillable land area is kept in pasture, the pastures are rotated across the farm and help to build up the soil fertility. This would be a paying practice on many Multnomah county dairy farms.
6. Land in pastures keeps down the general farm overhead by reducing labor costs of all kinds and by cutting down feed bills.

(Signed) H. W. LYNCH, Chairman.

RECOMMENDATIONS OF BOYS' AND GIRLS' CLUB COMMITTEE

I. GIRLS' WORK.

- 1. That parents be interested and encourage girls to take the first three divisions of sewing without alternating with other projects.
2. That parents become interested enough in sewing projects to have the girls make their garments to exhibit in the open classes at the various fairs and also to have the girls bake cakes and bread for the open classes.
3. Since the prune bread demonstration has been of great help to the girls and has also been good advertising to the county and state, we recommend that all cooking clubs devote some time training a team for competition at the county fair.
4. Realizing the value of the canning project to the girls we would encourage a greater enrollment in the project and training of teams to demonstrate at the county fair.

2. POULTRY.

- 1. We recommend that the boys and girls be interested further in the poultry project. This is not an "easy" project. Club members should start with better stock and on a somewhat larger scale so as to insure more interest.

CALF CLUBS.

- 1. Calf club work should be stressed throughout the county as one of the best projects to give boys and girls education and responsibility in the care and management of livestock.
2. Encouragement from parents and local leaders in livestock work.
3. Encouragement in raising purebred calves to extent possible.
4. Encouragement of breeding club livestock to proven sires.

PIG CLUBS.

- 1. Encourage raising purebred livestock.
2. That leaders of pig club work emphasize mineral feeding for bone-builder in growing pigs as well as breeders.
3. Stress the growing out of four pigs of a litter for market purposes.

GENERAL RECOMMENDATIONS.

- 1. To be recommended to the school boards over the county that part school time be given club work. (Distance to travel and school busses conflict with after school club meetings).
2. That help be given by parents and communities in sending more boys and girls to the club summer school at Oregon Agricultural College.
3. We recommend that those who can take the time to lead clubs offer their services. We appreciate the loyalty and splendid work of these Multnomah county leaders that has given this county its success in club work.
4. That the parents back up these leaders, showing their appreciation of the sacrifice of time and labor they are devoting to the young people.
5. Since Multnomah county is leading the state in the functioning of its local leaders organization we recommend continuing local leaders' meetings and encourage all local leaders to attend all meetings of the organization. Close cooperation will bring better results.
6. Since the Multnomah County Fair board has been leading the state in its support of club work at the county fair and in its value of premium list for club work we extend to the fair board our appreciation for this cooperation and urge that the same cooperation be continued and the club department developed at the county fair in every way possible.
7. That the club department arrange for demonstration by club members to be given during the fair, covering as many of the different projects as is found practical.
8. Since the livestock breeders' organization of Multnomah county has taken a great interest in the furtherance of the livestock work, we extend to them our appreciation of the hearty cooperation, and sincerely hope this good spirit will continue.
9. Realizing the value of the county agricultural program which will be worked out at this conference, we recommend that every community carrying on the club work relate the projects to the agricultural program for that particular district.

Respectfully submitted, F. N. LASLEY, Chairman. (To be continued next issue)

NOTICE OF SALE.

\$250,000.00 Multnomah County, Oregon, Sellwood Bridge Coupon Bonds.

NOTICE IS HEREBY GIVEN that the Board of County Commissioners of Multnomah County, Oregon, will receive sealed bids for the issue of coupon bonds for \$250,000.00, of the tenor, as follows: Bonds shall be dated March 23, 1925, and shall bear interest at the rate of not more than five per cent per annum, payable semi-annually. The rate of interest which said bonds shall bear has not been specified, but each bidder who shall offer to buy said bonds must specify in his bid the rate of interest to be paid thereon, and the rate of interest so specified by the bidder will be taken into consideration by the Board of County Commissioners in selling the bonds, and the Board of County Commissioners will determine the rate of interest to be paid. These bonds are to be issued in denominations of \$1,000.00 each, principal and interest to be paid in gold coin, at the Fiscal Agency of the State of Oregon, in New York City, N. Y., or at the office of the Treasurer of Multnomah County, Portland, Oregon, and said bonds will mature as follows: \$14,000.00 on the second day of March, 1931, and \$14,000.00 on the second day of March of each and every year thereafter until the entire series of said issue shall have been paid. These bonds are issued for the purpose of raising funds to construct a bridge in the vicinity of Sellwood ferry over the Willamette River, in the City of Portland, Oregon, and have been authorized by an Act of the Legislature of the State of Oregon.

A duly certified check, drawn on a responsible bank, for five per cent of the amount of the bid, payable to Jos. W. Beveridge, County Clerk of Multnomah County, Oregon, must accompany each bid, such deposit to be returned if the bid is not accepted, otherwise to be applied by the county on the sum so bid; if the bidder fails to comply with the terms of the bid, said amount shall be forfeited to the county as and for liquidated damages. Unconditional bids only will be considered. Bonds will be sold for cash only. No bid for less than par value and accrued interest will be considered. The funds to be deposited to the county, but the right is reserved to reject any and all bids. All bids must be submitted on blank forms furnished by the county.

All bonds which may be sold under this issue shall be sold for delivery at such bank at Portland, Oregon, as may be designated by the successful bidder. The successful bidder will be furnished with an unqualified and final opinion of Messrs. Storey, Thordike, Palmer & Co., Attorneys, Portland, Oregon, approving the legality of the issue. All bids must be in the hands of the County Clerk of Multnomah County, Oregon, at Room 405 Multnomah County Court House, Portland, Oregon, at 12 o'clock noon, Pacific time, February 11th, 1925, at which time and place the same will be opened and considered.

Address all inquiries to Jos. W. Beveridge, County Clerk of Multnomah County, Oregon, Portland, Oregon. BOARD OF COUNTY COMMISSIONERS OF MULTNOMAH COUNTY, OREGON. By Erwin A. Taft, Commissioner. By Grant Phlegley, Commissioner. JOS. W. BEVERIDGE, County Clerk.
