"Plain as if spoken, this engine asks for new oil in the crank case every time it passes the 750-mile mark," said a careful motorist in our garage this week.

We clean the case well before putting in new oil. These little details insure longer life to your car.

Some difficulty is being experienced by Maurice Botkin in securing the correct name of the owner of the machine which was run into by him on the Base Line road Sunday evening near Rockwood, as it stood parked on the pavement without a rear light, and at which time the Chevrolet he was driving was badly damaged. The name of the driver of the machine did not coincide with the name registered at the courthouse, also the license failed to agree, therefore it will be necessary to consult the auditor's office in Salem in an effort to straighten out the tangle.

GEORGE WASHINGTON

On February 22d the American people unite to do honor to the Father of this country.

This great American, who determined the destiny of this nation during the Revolution, possessed a character of which we may well be proud.

His courage, determination, fortitude, wisdom and resourcefulness were virtues necessary for the great responsibilities which he carried.

To us has fallen the task of perpetuating the government and the nation which he was so largely instrumental in founding.

Not by praise and eulogy of Washington but by consistent attempt to emulate his virtues—will this mighty task be accomplished.

"Washington is the mightiest name on earth."—Abraham Lincoln.
