Not one isolated example—but at every hand can be shown how by the mere adding of a coat or two of paint has quite often added from 100 per cent to 1,000 per cent to the selling value of property—as compared to the cost of the paint.

\$75 for paint added \$750 to the selling price of one home right here in Gresham. A \$40 paint job on an automobile brought \$250 more in the selling. Maybe you do not want to sell? Then by all means paint-up. Paint protects and preserves your property—and there is no depreciation.

Good Paint from \$2.50 to \$3.90 per gal.
