RUPTURE EXPERT HERE

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Electric Hotel, and will remain in Oregon City Saturday only, June 13. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or Incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. **Warning**—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P.S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

COUNTY CLUB AGENT HAS BUSY MONTH

The month of May was a busy one for County Club Agent Kinder, although but one club was definitely organized throughout the county. That was a canning club with an enrollment of eight members which was formed at Gilbert, with Mrs. G. E. Maxwell installed as the local leader. Nearly 550 miles were covered by auto in visiting the extension work on the farms, 27 of which were called on. There were 35 home visits and two executive committee meetings held during the month.

Over half the month was spent on different phases of the agricultural problem—insect pests and diseases, animal husbandry, dairying, poultry, gardening, cooking, sewing, home making and farm accounting each coming in for one or more days' discussion and inspection. Nearly 20 club meetings were held with an attendance of 161 persons; four achievement programs were held with an attendance of 225; four local exhibits were held with 63 competing.

Up to date there have been 14 clubs completing their work 100 per cent. Four communities have given achievement day programs at which time all the boys' and girls' work was put on display. Several demonstrations were given as part of the exercises.

The Portland leaders and Multnomah leaders held a joint meeting on May 1 when many important features were discussed for the furtherance of club work.

TROUTDALE

M. C. Federspiel and son Chris have their new building near the C. C. Bush garage nearly completed. It is a two-story building and will have six living rooms on the second floor. The lower floor will have installed all modern equipment for a sauerkraut factory. The power being electricity. Federspiel & Son are veterans in the business, having manufactured and marketed Blue Ribbon kraut for several years and the health drink, sauerkraut juice, for at least two years. The capacity of the new factory will be a car load of cabbage a day put up in 5 to 50 gallon kraut containers for both retail and wholesale trade. Last season they placed on the market 30 thousand gallons of Blue Ribbon sauerkraut which was far from filling the demand. The new factory will be in running order for the new crop of cabbage. Federspiel & Son raise nearly all their own cabbage.
