POWELL VALLEY

Mrs. A. C. Arvidson received the sad intelligence Thursday evening that her father, Walfred Lofstedt, had passed away early that morning at his home in Lake Norden, South Dakota.

Born to Mr. and Mrs. Eugene Chiodo September 18, a 9 1/2-pound boy, who has been named Eugene, Jr.

Miss Viola Prouty, whose home is in Lake Norden, South Dakota, and who has been visiting at Vancouver, Washington, and other places in the west, is the guest of the A. C. Arvidson family.

The Powell Valley school which began on September 14 now has an enrollment of 55, 35 being enrolled in the four upper grades of which Miss Marian Robertson is the teacher as well as the principal of the school, and 20 in the four lower grades with Mrs. Helen Camp as teacher.

The first meeting of the Parent-Teacher association for this year was held Friday evening. Several important business measures were discussed at this time, one being the matter of trying to raise the school up to a gold standard school. It is now the silver standard and every effort will be made during this coming year to raise the standard a notch higher.

Miss Mildred Johnson is ill at her home with an attack of inflammatory rheumatism from which she has been a sufferer occasionally for quite a while. She was taken to her bed about a week ago and her many friends are hoping for her speedy recovery.

P. E. P. Workmen Injured.

Sycamore station was the scene of two accidents last week to workmen, employes of the Portland Electric Power company, but neither accident is expected to result seriously. James C. Lannon, aged 33, of Oswego, fell 10 feet from a tree and was hurt in the back. About the time Lannon had been placed in the ambulance for removal to the hospital, Luvin James, 41, fell 20 feet from a telephone pole after receiving a shock of 60,000 volts from two wires which had become crossed. Both men were taken to St.

Do the ESKIMOS HIBERNATE SIX MONTHS of the YEAR?

HERODOTUS, the ancient geographer and historian, thought so. We moderns know better, but some of us are still superstitious. For example, why do some people still believe that there is something mysteriously "better" about "eastern" motor oils merely because they cost more and are made in the east?

Oil Superstition Fast Losing Ground

Zerolene costs less because it's made in the West—but that doesn't make it better; it's better because in practice it actually lubricates better. That's why Zerolene is successfully lubricating more cars in the Pacific Coast states—high priced and low—than any other oil made.

Zerolene will increase the gasoline mileage, reduce the carbon removal operations and maintenance costs and lengthen the life of any car in which it is used.

Made from Selected Naphthenic Crude

Zerolene will do the same for your car. It is made from selected western naphthenic base crude (the best crude so far discovered for the manufacture of motor lubricants) by our high-vacuum process, checked 15 times for quality, and specially filtered through 40 tons of Florida Fuller's Earth to give you an oil that's absolutely pure and safe.

Why pay tribute to a superstition? Insist on Zerolene. Always ask for ZEROLENE by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene motor oil has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on Zerolene—even if it does cost less
