

Your Teeth and You

You needn't be afraid of pain if you have your teeth cared for by dentists using the E. R. Parker System.

You needn't lose much time, for under this System your work will be done with fewer visits, especial attention being given to out-of-town patients. You needn't have doubts about being satisfied, for Parker System dentists are just as particular as you are.

You needn't worry about price, for it will be as low as good dentistry can possibly be done for.

But you ought to be afraid of one thing, and that is delay. The longer you neglect your teeth, the worse they get. Bad teeth never grow better unless good dentists help them. Examination and advice free.

There are thirty-one offices where the E. R. Parker System is used.
