

STRIKING RECORD MADE IN CONTEST

Jackson Jones reached home early Sunday morning after a most enjoyable and profitable time spent at Camp Perry, Ohio, in attendance at the annual national shooting tournament. He has now been present at these shoots for three years which renders him ineligible until 1928 when he will again be privileged to attend, if he desires to do so. Jack brings home some big game with him this time. He has won the solid gold distinguished marksmanship medal which the government issues through an act of congress to those whose skill and marksmanship are of a high rank. Not many of these are awarded, as the contestant is obliged to fire on a winning team for three years or it may be won by placing three times in the national individual match. It is possible to win one in two years, but this is very seldom done. The awarding of this medal is the result of the highest possible scoring in marksmanship.

Mr. Jones says he also had good luck by being placed in the united service team. This is composed of 16 men which are picked from all the National Guards in the United States and which are supposed to be the highest 16. These men compete with all the other teams in the field, such as the army, navy and civilian teams. This carries a special medal in itself. In addition to the foregoing honors, he also secured first place on the Oregon team, maintaining the highest aggregate.

Sargeant Jones says he is going to take a lay-off from shooting except possibly for his own amusement. He regards it as a good clean sport and thinks it is a most useful part of the governmental service. Having won a diploma by the government, he is now capable of holding a position as instructor.

The return trip from the east was made by the Canadian line, which included stops at Duluth, Minnesota; Winnipeg, Edmonton, Saskatoon, Prince Rupert and other important cities. A 500-mile boat trip was made

AUXILIARY PRESIDENT GOES TO NATIONAL MEET

Mrs. O. A. Eastman will leave tomorrow morning for Omaha, Nebraska, where she will attend the national convention of the Women's Auxiliary of the American Legion, both of which will meet on October 5 for their annual session, the convention to last a week. Two years ago Mrs. Eastman was elected a delegate to the annual gathering, but this year she is attending by virtue of her office as state president. There will be delegates from all parts of the state, together with the executive officers and these will meet in Portland and probably travel in a body. On the return trip Mrs. Eastman is making plans to stop off at Salt Lake City and Boise, Idaho, for a brief visit with relatives.

Former Pleasant Valley Woman Dies.

Mrs. Mary Lehman, for ten years a resident of Pleasant Valley, died in Portland Sunday, September 27, at the age of 50 years, from the effects of an operation for the removal of a cancerous growth. She had been ill for the past six or seven weeks. With her husband she had moved to Portland in March of this year. Besides her husband, Ernest Lehman, she is survived by three children, Mrs. M. R. Hemrich and Mrs. Curtis Young, of Boring and Louis Lehman, of Gresham. Her mother, Mrs. Elizabeth Schmidt, of Hillsboro, and five brothers and four sisters also survive her. The funeral will be held Wednesday afternoon at 2 o'clock at the funeral parlors of McEntee, Hennessey & Goetsch, 16th and Everett, with interment in Mt. Scott cemetery. Rev. E. Horstmann will have charge of the service.

on the Pacific inland passage, a line that runs from Seattle to the coast of Alaska. This is described as being a trip of continuous scenic beauty. Those in the party of which Mr. Jones was a member, besides himself, Adjutant General Geo. A. White, of Salem, Colonel West, of Portland, Major McMurray, of Portland, Captain Collins, of McMinnville, Lieutenant Smith, of Portland, and Sergeant Brown.

NEW AUTO AGENCY OPENS IN GRESHAM

The M. C. Webster Motor company has opened an office and agency here for the well-known Hudson and Essex cars. Mr. Webster is not a stranger in this part of the county and is favorably known. He has had much experience in the automobile business and has chosen to represent a line of cars that is a universal winner. There are many Hudsons and Essex cars in the eastern part of the county and Mr. Webster enters an open and fertile field.

Mr. Webster had difficulty in finding a suitable location for his headquarters and display room and has selected about the only available empty store room. He is located in the Brown building, next to the Gresham market, on Powell street.

The council meeting tonight will take up again the serious situation in connection with Gresham's water system. It is expected a report will be made on the feasibility of obtaining water from other sources; as well as on the prospects of a site for a reservoir. If the Bull Run water is shut off as threatened it will be about December 1 next. Fortunately that is in the rainy season and perhaps we can get along for a while on rain water.

Another accident, the ramming of the submarine S-51, off Long Island, by the steamer City of Rome, probably means the loss of about 30 more lives. Added to those of recent airplane and naval disasters the total grows alarmingly. Strenuous efforts are being made to rescue any who may be alive on the ill-fated submarine.

The state fair this week—what day are you going? Most of us will help swell the attendance on Thursday, Portland day.

Bargain Subscription Rates in Force. During the month of October bargain rates have been announced by The Morning Oregonian and The Portland Telegram, both of which papers combine with the Outlook. The following attractive offers will be in force during the month.

Daily and Sunday Oregonian and Outlook 1 year, \$7; Daily Oregonian and Outlook, \$6; Portland Telegram and Outlook, \$4.50.—Adv.

BERRY GROWERS ADVISED TO APPLY FERTILIZER

The necessity of applying fertilizer to the berry fields and the superiority of sheep guano over stable manure is the subject of a letter addressed to the members of the Berry Growers association by the manager, D. E. Towle, who says:

"Just a word about fertilizer for berries: according to the analysis we have, one ton of ground sheep guano equals 9 tons of fresh cow product, so the comparative value is 9 to 1, and when you consider the cost of application and the ready availability of the sheep guano you will see at a glance that the sheep guano is much the best and cheapest fertilizer for the berries. We recommend only one ton to the acre for logans, red raspberries and blackberries and 2 tons per acre for strawberries. This provides only 1 pound per plant but as this would be equal to 9 pounds of cattle product it would seem to be a very liberal application. It is very reasonable to presume that strawberries require more fertilizer proportionately than cane berries per plant as their root systems are only local and the plants are double as many to the acre, hence the need of supplying more plant food. The ground sheep guano is ideal for strawberries as it is in powder form and does not interfere with hoeing. The strawberry growers will make a serious mistake if they do not invest liberally in this fertilizer for the coming crop as the strawberry market is entirely cleaned up and we can sell all you can produce at an advance over this year's prices and next year will be your chance to make as you did this year a nice profit on your investment.

"We have provided the guano, we have it on hand now, and we are short of storage. It is as dry as a bone and will keep in the sacks as long as desired if stored in a dry place, so we think you should take delivery now and help your own business. If we do not get a response from you by the last of the week we will be compelled to stop shipping and the guano will contain at least 10 per cent more moisture when shipped in during the winter, so please take delivery now."

Two Market Baskets.

The state market agent calls attention to the fact that the study of household economics is well worth while by citing this illustration: In a middle west state two market baskets were displayed, each containing food for a family of six, and each costing the same, \$2.00. One contained cooked ham, corn flakes, tinned goods, cake, white bread, etc., the whole containing 8,323.8 calories. The other had round steak, oatmeal, beans, brown bread, lettuce, milk, apples, raisins, etc., and contained 17,923.4 calories.

Chicken Dinners.

Special chicken dinner every Wednesday noon until further notice. Price 50c. Withrow's Restaurant.—Ad.

LOCAL RABBIT FANCIER SHOWS ANIMALS AT FAIR

Ed. Metzger is getting to be somewhat of a rabbit fancier these days. He has entered at the state fair at Salem four splendid animals, two of whom were blue ribbon winners at the county fair. There is a pair of Flemish Giants and also a pair of Chinchillas. The Flemish Giants were county fair first prize winners, but the Chinchillas are now making their first showing. Mr. Metzger states that the Chinchilla is fast becoming one of the greatest and most valuable animals of the domestic class and bids fair to compete favorably with the raising of the silver fox, which has come to be such an important industry during the past few years. The fur of the Chinchilla rabbit is now regarded highly from a commercial standpoint, a single skin often selling for from \$20 to \$30 each. Around 100 of this variety were shown at the recent county fair, many of which were disqualified on account of being overweight. It is impossible to feed the Flemish Giants to the point of overweight, as the heavier they are the more desirable commercially, but the Chinchilla can easily be overweighted. Mr. Metzger has entered his Flemish Giants in the commercial and regular classes and the Chinchillas in the junior class.

THEFT CASE BRINGS CONTINUED SENTENCE

Theodore Crumb, 21, was arrested Thursday on a charge of stealing automobile accessories from a car belonging to Fred Gusewell, living two miles east of Gresham. On being questioned by the officers he implicated John Hossner, 34, who was also arrested. Trial was set for Friday afternoon before Justice of the Peace John Brown. Crumb plead guilty and swore that Hossner bought a stolen tire, which the latter denied. Former liquor dealings were also brought into the testimony, Grumb making charges which Hossner denied.

Deputy District Attorney C. W. Kirk recommended that a continued sentence be imposed, after he had given a severe scathing to the two, particularly to the older man, who was considered to have been the leader in wrong doing. Full restitution was made to Gusewell for the stolen goods and both Crumb and Hossner were ordered to report weekly to Mr. Brown, who will impose no heavier sentence during their good behavior. The sentence may continue for a year.

Ladies Read This.

I wish to announce that I have received quite a number new pieces of dress goods, silks, etc. Beautiful hand embroidered, all hand made, gowns and infants' dresses and stamped goods. Until October 3 I will sell goods at 10 per cent discount. Mrs. G. A. Cox, corner Third street and Hood avenue, Gresham.

STATEMENT MADE ANENT STANFIELD

The Anti-Saloon League of Oregon, in a communication to the Outlook, indicates its very direct interest in the recent arrest of Senator R. N. Stanfield at Baker, Oregon, and to learn first hand the facts the league sent a representative to Baker to investigate.

The communication is signed by Walter Henry Nugent, chairman, and H. H. Farnham, secretary, headquarters committee of Oregon Anti-Saloon League. The conclusions of the league are as follows:

"United States Senator Robert N. Stanfield was arrested Sunday evening, September 13, 1925, in the Senate Cafe, Baker, Oregon. The newspapers reported that he was arrested on a charge of drunkenness and disorderly conduct, and that he resisted the officer who made the arrest; also that he denied the charges and declared that the arrest was a "frame-up."

"Because of the widespread interest in this case and the fact that the dry forces of Oregon were anxious to know the truth, the Anti-Saloon League had a representative in Baker on the day the Stanfield case was set for trial. He talked with persons present in the Senate Cafe, who saw the behavior and condition of Senator Stanfield, both before and after his arrest. He also talked with the arresting officer, the chief of police, and the city attorney of Baker. A number of affidavits were obtained and are in the possession of the Anti-Saloon League for future reference. The League is satisfied that there was no "frame-up" on the senator.

"The League will oppose the candidacy of Senator Stanfield as it will always oppose any candidate whose actions are like his. United States senators virtually make the appointment of Federal office holders in their states, and we have found that appointments made by senators who are not personally in sympathy with prohibition are making a mockery of the prohibition law.

"We believe that the rising tide of contempt for law and order may be traced, in part at least, to the disgraceful action of men in conspicuous positions, and that the hour has struck when all good citizens should openly condemn the violation of law on the part of such men."

GRESHAM LOCALS

Members of the local W. C. T. U. express much satisfaction with the action of A. M. Bedell in removing ash trays from the women's rest rooms in his new style store in Portland, when petitioned to do so by a large number of women's organizations. Multnomah County W. C. T. U. and every Union in the county and city, as well as many other women's organizations, joined in the petition.

Mrs. George Studer visited with her mother, Mrs. F. Volbrecht, three days last week.

The Zion Evangelical congregation had the inside of their church building papered last week with paper of a pleasing tan color which completely transformed the appearance and makes the church inviting and homelike. Mr. Todd, the paint man, did the work. In the near future the woodwork will be painted in keeping with the rest of the sanctuary. Zion Evangelical congregation held their annual mission festival Sunday. Services were held in the morning and the afternoon, each service enjoying a large attendance. Some people were compelled to remain outside. The Rev. C. Hoffman and Rev. F. Schaefer were the speakers. A very good missionary offering was received.

Among the noted pacers to greet the public at the state fair at Salem this week is "Cincofield", owned by T. R. Howitt of this place. The horse was purchased in Minneapolis, Minnesota, renowned as the home of Dan Patch, and has the distinction of winning the fastest three heats ever paced, 2:08 1/4, 2:08 1/2 and 2:09 1/4. This record was set over a half mile track at Centralia, Washington.

The T. J. Bailey property on Main street, opposite the library, has changed hands, the sale being negotiated this week for the transference of the house and the 56 x 175-foot lot to Mrs. Ethel Miller and her sister, Mrs. Inez Miller. The deal was handled through the administrator, John Brown. This property joins that of the mother of the Mesdames Miller, Mrs. Elizabeth McLain, of Fifth street.

Better Breeding Promotes Prosperity No. 2

What is a Good Cow Worth?

MERCEDES, a registered cow born in 1910, delivered to her owners during her lifetime four daughters and eight sons. These offsprings netted \$1465 by direct sale. Butterfat produced by this cow, during the 13 years she was in the herd totaled 6500 pounds, producing an income of \$3250 from butterfat alone. Thus, this fine old dairy matron brought to her owners the sum of \$4715.

Not all cows are Mercedes, nor will they be. But there is no doubt, Mr. Dairyman, that keeping books, as was done in this case, proves which of your cows are unprofitable and can be sold. Then, as you fill their place with others, buy only the best stock. It will pay you—and the First State Bank is willing to assist you in so doing within legitimate limits.

The Pacific International Livestock Exposition at Portland, October 31st to November 7th, will show you why better breeding is most profitable. Featured in this great Exposition are Dairy and Beef Cattle, Hogs, Sheep, Goats, Horses; a Poultry Show, Industrial and Land Products Show and the celebrated Horse Show.
