

GRESHAM OUTLOOK

Published every Tuesday and Friday at Gresham, Oregon, by the Outlook Publishing Co., H. L. St. Clair, Editor and Manager.

One year, \$1.50, six months, 50c, three months, trial subscription, 50c. Combination rates with all the Portland Dailies.

ADVERTISING Rates reasonable. Our representative will call.

Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

The Tualatin tunnel proposition was carried by a vote of the people in districts affected at an election held on Wednesday last. This vote it seems does not carry a bond issue to put the plan across but only provides for the preliminary work. It makes possible a painstaking and intelligent investigation of the project. What the decision of voters will be when it comes to voting \$3,000,000 to \$6,000,000 remains to be seen.

Tom Murray, recaptured convict, has been found guilty of murder in the first degree and sentenced to be executed on Friday, December 18. The court made quick work of his trial and sentence was pronounced recently by Judge Kelly of the Marion county circuit court. The trial of Ellsworth Kelley and James Willos, co-convicts who escaped with Murray on August 12 at which time guard John Sweeney was killed by one of the trio, are now on trial charged with murder in the first degree.

City-County Merger Up.

Investigation of plans for a merger of the city of Portland and county of Multnomah by the special governor's committee will be backed by the civic clubs of the city, it was decided at a meeting of the president's council of the Chamber of Commerce recently. A resolution asking all member clubs to raise funds to pay for technical help in the investigation was passed. The special committee is to report to the governor prior to the 1927 legislature.

BIG THINGS.

This is the day of big things,—of million acre deals and hundred million dollar developments. Harvey S. Firestone has leased 1,000,000 acres in Liberia suitable for rubber production and will develop the same. He expects to invest \$100,000,000, much of which will be spent on a suitable port. This will be a great thing for Liberia, a negro free state, on the west coast of Africa. A million acres is about 1500 square miles, which according to one authority is about one-tenth the area of Liberia.

It seems large rubber plantations have already been established in Liberia. English and Dutch capital are said to control 97 per cent of the rubber output of the world. Old England will rub her eyes some morning and find that the United States is in the rubber business in earnest.

But a glance at the map of Africa will show that Liberia is only a little nick on the edge of Africa, and a million acres becomes little more than a speck on this immense continent.

NEARLY EIGHT BILLION SAVINGS.

Reports show that on August 1 there were \$7,903,000,000 in savings accounts in 902 principal banks of the country. That represents a gain of over a half billion dollars over 1924 and is a gain of about \$5 for every man, woman and child in the country. Yet some would contend that we are hastening on to general depression and bankruptcy.

FARMER PROSPERITY.

According to C. E. Spence, state market agent, about the only ones who are benefitting by the heralded prosperity of the farmer are the middlemen. He says that under the present system he cannot see that generally prosperous conditions can come to the farmers, except for a very small proportion, and that the instances cited are special producers, picked here and there.

Yet the agricultural department of the government places the net return to the farmers for 1924-25 at \$2,712,000,000, which is a net cash increase over 1923-24 of \$720,000,000. The survey it is stated covered all classes of farms.

If the farmer will get the idea that he can be prosperous and independent and not always the victim it will help him greatly.

Statement of Ownership.

Statement of the ownership, management, circulation, etc., required by the Act of August 24, 1912, of Gresham Outlook, published semi-weekly at Gresham, Oregon, for October 1, 1925:

Editor, managing editor and business manager, H. L. St. Clair, Gresham, Oregon.

Publisher, Outlook Publishing Co., Gresham, Oregon.

Owner, Outlook Publishing Co., Gresham, Oregon.

Stockholders, holding 1 per cent or more of total amount of stock, H. L. St. Clair, Lena C. St. Clair, Chase E. St. Clair, all of Gresham, Oregon.

WRITER COMMENTS STAND TAKEN BY OUTLOOK

Editor Gresham Outlook:—In a recent issue of your paper we noticed your comment on railroads due to their heavier equipment bearing the greater burden or responsibility of accidents. We heartily approve your stand and suggest you follow up the thought from time to time with the strongest arguments possible.

If one travels through some of the eastern states, as New York, New Jersey, and Pennsylvania, they will note miles upon miles of track built upon high grades, the grades generally supported by heavy stone walls in and near towns. These were built at a time when the state and federal government or the people valued their lives far above wealth.

Take a trip over the Pennsylvania lines between New York City and Philadelphia and one will note while the train passes along at a mile or more a minute, pedestrians and vehicles pass to and fro beneath the track or over arches free from danger.

It would seem in the accidents you listed in and near Gresham that first the state and second the railroad company are to blame, the victims and the motor men coming last.

P. E. MILLS.

HEALTH BOARD MOVES TO NEW LOCATION

On November first, the Oregon State Board of Health will move to the Medical Arts building, rooms 304 to 314. This building is located on Taylor street between 10th and 11th streets, across from the public library.

During the moving period it is requested that water samples and all work, except that which must of necessity receive immediate attention, be held until after the 10th of the month. In the other departments it will not be possible to give matters the prompt attention that we are trying to give under better working conditions.

In making the move the board is providing a safe and fire-proof vault for the vital statistics records of the state. It also provides for the enlargement of the laboratory facilities to meet the larger demands of the state.

After November 10 the public is invited to inspect the new quarters of the board of health. Office hours are from 8:30 to 5:00 every working day in the week. Associated with the Oregon State Board of Health are the Oregon State Board of Eugenics, Division of Public Health Nursing and Child Hygiene, Division of Vital Statistics, Division of Hygienic Laboratory, and Division of Venereal Diseases.

If you can't put a thing over yourself it's a good plan to get someone who has a pull to help you.

Bargain Subscription Rates

During the month of October bargain rates have been announced by "The Morning Oregonian" and "The Portland Telegram", both of which papers combine with the Outlook. The following attractive offers will be in force during the month.

Daily and Sunday Oregonian and Outlook 1 year, \$7; Daily Oregonian and Outlook, \$6; Portland Telegram and Outlook, \$4.50.—Adv.

Bright sayings by modern thinkers are found in the want column.

Won't Wed "Goose"

Photo shows Miss Helen Sweeney, representing the Capitol in beauty pageant, who denies she is engaged to "Goose", luminous baseball star. Rumor linked their names when they were seen frequently together at dances.

According to L. P. Rockwood of the Federal Bureau of Entomology station at Forest Grove, the Hessian fly is not responsible for the poor crop this season. Counts made in Washington county show that the Hessian fly was more numerous last year than this, and last year was considered a good crop year for wheat. Mr. Rockwood attributes the poor showing of this season to poor preparation of the seed bed, weather conditions, and possibly the seed used.

Crops below points on slopes where water seeps out may be protected from drowning out by plowing furrows from these points to drainage channels. Such contour furrows should be at frequent intervals and have enough fall to keep themselves clear.

INSURANCE FOR FARMERS.

The Farmers Mutual Fire Relief Assn., of Portland, is upon its 21st year, and is the largest Farmers Mutual Fire Insurance Assn. west of the Rocky mountains. The yearly report filed with the Insurance Commission shows a total membership of more than 12,000, with \$20,500,000 in force, an increase of \$2,500,000 over that of 1923. The fire losses for 1924 aggregated \$55,000, all of which have been adjusted and promptly paid. No lower rate on farm insurance can be obtained from any other company in Oregon. If you believe in co-operative movement among the farmers and need insurance, call on President H. W. Snashall, at the Fair Grounds, Gresham. Phone 2101.—Adv.

Chicken Dinners. Special chicken dinner every Wednesday noon until further notice. Price 50c. Withrow's Restaurant.—Ad.
